Independent Auditor's Report

To the Plan Committee of the
Fluidmaster, Inc. Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Fluidmaster, Inc. Savings Plan, which are comprised of the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The ING Life Insurance and Annuity Company ("ING"), a qualified insurance institution, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that ING holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from ING as of December 31, 2012 and December 31, 2011 and for the year ended December 31, 2012, that the information provided to the plan administrator by ING is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of (1) Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2012 and (2) Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2012 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by ING, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Fluidmaster, Inc. Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011

Note 1. Description of Plan

The following description of the Fluidmaster, Inc. Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a tax qualified defined contribution plan covering substantially all full-time employees of Fluidmaster, Inc. (the "Company") who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Eligible employees of the Company may elect to contribute a percentage amount or dollar amount of their pretax total annual compensation (as defined by the Plan) each Plan year, subject to the limitations as defined by the Internal Revenue Code ("IRC").

The Company provides for a matching contribution of 100% of the participant's contribution up to 6% of compensation. The Company established a maximum matching contribution of $15,000 per participant for the year ended December 31, 2012. The Company also made a discretionary contribution, based on Company profits, of 3% of compensation to participants' accounts. The Company established a maximum discretionary contribution of $7,500 per participant for the year ended December 31, 2012. A participant will be entitled to share in the Company's discretionary profit sharing contribution for any Plan year only if the participant is employed on the last day of that Plan year. For 2012, the Company made matching contributions, net of forfeitures of $733,960, and a discretionary contribution, net of forfeitures of $379,895.

Participants may make rollover contributions, which consists of a transfer from another qualified plan, if the contribution complies with the requirements set forth by the IRC.

The Company funds its participant contributions and Company matching contributions consistent with payroll periods. Company discretionary contributions, if any, are funded on an annual basis.

Note 1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and the Company's discretionary profit sharing contributions of the Plan's investment net earnings based on participant earnings or account balances, as defined. The Company's discretionary profit sharing contributions shall be allocated to individual accounts of qualifying participants in the ratio that each qualifying participant's compensation for the Plan year bears to the total compensation of all qualifying participants for the Plan year.

Vesting

Participants are immediately 100% vested in the amount of their contributions and earnings thereon. Company matching contributions have a two year cliff vesting schedule. The Company's discretionary profit sharing contributions have a three year cliff vesting schedule.

Any participant who terminates his/her employment prior to the completion of the minimum two years forfeits his/her unvested accrued benefit from employer match contributions under the Plan. Any participant who terminates his/her employment prior to the completion of the minimum three years forfeits his/her unvested accrued benefit from the Company's discretionary profit sharing contributions under the Plan.

Forfeited Accounts

Forfeited balances of terminated participant's nonvested accounts may be used to pay Plan expenses and to reduce the Company's contributions in subsequent years. There were $7 and $27 of unallocated forfeitures at December 31, 2012 and 2011, respectively. Forfeitures used to reduce Company matching and discretionary contributions were $26,121 for the year ended December 31, 2012.

Payment of Benefits

Participants may withdraw all or a portion of their contributions for reasons of retirement, death, complete and total disability, financial hardship (as defined) or termination of their employment with the Company. Participants may elect to receive withdrawals in a lump sum or a fixed number of periodic installments over several years. Any withdrawals by participants prior to leaving the Company and prior to normal retirement age of 65 are subject to ordinary income taxes and federal and state excise taxes.

Plan Administration and Expenses

The Plan is administered by an administrative committee selected by the Company. At December 31, 2012, the assets of the Plan are maintained under the custody of, The ING Life Insurance and Annuity Company ("ING"), a qualified insurance institution. Certain administrative expenses incurred by the Plan are paid by the Company.

Note 1. Description of Plan (continued)

Participant Directed Investments

A participant may choose among various funds in which his or her respective contribution and employer contributions may be invested subject to the limitations described in the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Valuation of Investments

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Reclassifications

Certain amounts in Note 6 relating to the 2011 Plan year have been reclassified to conform to the current period (2012 Plan year) presentation. These reclassifications have no effect on the previously reported net assets available for benefits or changes in net assets available for benefits.

Note 2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs. The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Subsequent Events

Subsequent events have been evaluated by management through October 14, 2013, the date the financial statements were available for issuance.

Note 3. Insurance Contracts

Guaranteed Interest Account

The Plan participates in a contract with ING whereby the assets of the Plan are part of the general assets of ING. This contract is identified and accounted for as a guaranteed interest account. The guaranteed interest account provides guaranteed interest rates for specified periods of time as determined or allowed by the contract. The rate credited is the rate in effect on the day when each deposit is directed to the funds.

The guarantee made with regard to the guaranteed interest account is supported by ING's general account. There are no reserves against contract value for credit risk of contract issuer or otherwise.

The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement). However there are possible market value adjustments when funds are withdrawn prior to their maturity and therefore the contract is not considered a fully benefit-responsive contract.

Pooled Separate Accounts

The Plan participates in contracts with ING whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. ING holds these assets in trust for the participating plans.

Note 3. Insurance Contracts (continued)

ING actively monitors fund transfer and reallocation activity within its pooled separate account products to identify excessive trading. ING currently defines excessive trading as more than one purchase and sale of the same fund within a 60 calendar day period, referred to as a "round-trip." Two or more round-trips involving the same fund within a 60 calendar day period or six round-trips within a twelve month period would meet ING's definition of excessive trading. Participants found to be in violation of ING excessive trading policy may have their trading privileges suspended for six months.

Note 4. Investments

At December 31, 2012 and 2011, the following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2012	**2011**
Pooled separate accounts		
American Funds American Balanced Fund	$ 2,508,617	$ 1,826,853
American Funds EuroPacific Growth Fund	$ 1,485,258	$ 1,340,960
ING PIMCO Total Return Portfolio Fund	$ 2,500,697	$ 2,272,993
ING U.S. Stock Index Portfolio Fund	$ 3,240,451	$ 2,827,698
American Funds Fundamental Investors	$ 1,651,330	$ 1,467,611
Guaranteed interest account		
ING Fixed Account	$ 5,934,873	$ 5,180,520

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	Year Ended December 31, 2012
Net appreciation in fair market value of investments	
Pooled separate accounts	$ 1,835,413
Guaranteed interest account	303,346
	$ 2,138,759

Note 5. Information Certified by a Qualified Insurance Institution

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by a qualified insurance institution of the Plan, as complete and accurate, except for comparing such information certified by the qualified insurance institution to information included in the Plan's financial statements and supplemental schedules:

a) Investments

	December 31,	
	2012	**2011**
Pooled separate accounts	$ 14,819,462	$ 12,527,600
Guaranteed interest account	$ 5,934,873	$ 5,180,520

b) Investment income

	Year Ended December 31, 2012
Net appreciation in fair market value of investments	$ 2,138,759

c) Supplemental Schedule:
Schedule H, Line 4i – Schedule of Assets (Held at End of Year)*

** Except for the notes receivable from participants, which are not certified by the qualified insurance institution. The notes receivable from participants are participant loans allowed under the related regulations. They are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

Note 6. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011:

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Guaranteed interest account: The ING Fixed Account is available through an annuity contract issued by ING Life Insurance and Annuity Company. These investments are valued by discounting the related cash flows based on the composite yield in effect, current yields of similar investments and the number of years the contract has been in place.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Fair Value Measurements (continued)

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2012 and 2011:

Note 6. Fair Value Measurements (continued)

The following additional information presents the investment strategy relative to Plan investments reported on net asset value at December 31, 2012 and 2011:

(a) Asset allocation funds - These funds are also known as "LifeStyle" or "LifeCycle" funds. They invest in a combination of assets such as aggressive stocks, international stocks, large-company stocks, government bonds, foreign bonds or money markets. The allocation percentage to each asset type may be fixed, bounded by a range, or determined at the discretion of the manager. Managers of these funds review market conditions regularly and refine the asset allocation mixture they believe will achieve the best risk adjusted performance based on the stated objectives and "target" allocations of the particular fund. Different contracts can be based on risk tolerance or length of time to investment goal.

(b) Balanced funds - These funds seek to "balance" growth of principal and current income by investing in a combination of stocks and bonds (generally holding 60-70% equity and 30-40% fixed income). The investment style used here is either moderate allocation or conservative allocation. Some funds have fixed asset allocations and others allow managers discretion to allocate between equities and bonds, depending on their view of return and risk.

(c) Bond funds - Assets are invested fixed income securities that have been determined to be appropriate for its investment goal. Investors here are primarily seeking income or growth of income, with less emphasis on capital appreciation. Funds in this asset class vary greatly in their risk profiles. The issuer, credit quality of the underlying investments, and the average duration of the portfolio play important roles in determining the risk profile of the fund. Fixed-income funds those that have significant investments in below-investment grade bonds ("junk bonds") or bonds of foreign issuers would be categorized as high yield or international bonds. Portfolios consisting of investment grade corporate bonds, mortgages, government bonds and, to a lesser degree, preferred stock, foreign or convertible bonds typically land in the intermediate term bond category. Shorter duration and high credit quality funds are typically categorized as short term bond or short term government funds.

(d) Global / international funds - There are three main types of funds in this category. International funds can have an investment style of Foreign Large Value, Foreign Large Blend, Foreign Large Growth, Foreign Small/Mid Value or Foreign Small/Mid Growth. These funds invest in stocks of companies outside of the United States. Global funds have an investment style of World Stock. These funds invest in stocks of companies in the United States and developed countries outside of the United States. Emerging Markets funds invest in securities of developing countries and demonstrate the greatest volatility of performance due to the unstable nature of their economies, political structures and currencies. International investing may provide greater diversification benefits to a U.S.-based portfolio than investing in domestic securities alone. However, foreign investing does involve additional risks not present in U.S. securities.

Note 6. Fair Value Measurements (continued)

(e) Large cap growth funds - Large cap growth funds invest primarily in stocks of larger U.S. companies employing an investment style of growth. A growth fund invests in the stocks of companies that are growing rapidly. Growth companies tend to reinvest all or most of their profits for research and development rather than pay dividends. Growth funds are focused on generating capital gains rather than income. Funds emphasizing growth stocks will typically have higher price/earnings ratios and make little or no dividend payments. Large capitalization companies tend to be more established, with lower relative volatility, than more aggressive small and mid-cap stock funds.

(f) Large cap value funds - Funds seek long-term growth of capital or a combination of growth and income by investing primarily in stocks of larger, mature companies. The investment styles exhibited are value and "blend." Stocks are selected for price appreciation and for the value of the current income provided through dividends. These funds generally exhibit a lower level of price volatility, due to the types of companies they favor, such as those able to pay dividends along with more older, mature companies.

(g) Small/mid/specialty funds – These funds are in this category, employing investment styles of growth, value, or a blend of growth and value. These funds seek capital appreciation by investing primarily in stocks of small and medium-sized companies. Generally, these companies are striving to develop new products or markets and have above-average earnings growth potential. Because of their smaller size, these companies may face greater business risk, and investments in these funds generally carry much higher risk than other domestic equity funds. "Specialty" or "sector" funds invest in stocks of companies in a particular industry. This narrow focus can significantly increase the risk and volatility of such funds.

The following sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

Year Ended December 31, 2012	**Guaranteed Interest Account**
Beginning balance	$ 5,180,520
Interest credited	147,221
Purchases	286,530
Net exchanges and fees	542,938
Net investment gains	156,102
Settlements	(378,438)
Ending balance	$ 5,934,873

Quantitative Information about Level 3 Fair Value Measurements

The fair value of the Guaranteed Interest Account is based on significant unobservable inputs, including the interest rate of the applicable investment contract. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

Note 6. Fair Value Measurements (Continued)

The following table provides quantitative information about the significant unobservable inputs used for recurring fair value measurements categorized within Level 3 as of December 31, 2012:

	Valuation Techniques	Unobservable Inputs	Range Of Inputs
Guaranteed interest account	Discounted cash flow	Fixed credited rate	2.70%
		Applicable rate (1)	1.37%
		Completed contract years	4

(1) The applicable rate is the interest rate for a 7 year Treasury Bond derived by interpolating between 5 year and 10 year Treasury Bond rates as found in the Salomon Smith Barney Bond Market Roundup (if unavailable, a similar service will be utilized) for the week prior to the surrender, plus .25%

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8. Tax Status

The Plan adopted a prototype plan that obtained a favorable tax opinion letter in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended, since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Note 9. Party-In-Interest Transactions

Certain Plan investments are units of pooled separate accounts managed by ING. The Plan also has an investment in a guaranteed interest account which is part of the general assets of ING. ING is the qualified insurance institution that sponsors the investment contracts. These transactions qualify as party-in-interest transactions for there is a statutory exemption.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations. These transactions also qualify as party-in-interest transactions for which there is a statutory exemption.

Note 10. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 11. Prohibited Transactions

During the year ended December 31, 2012, the Company inadvertently failed to deposit $37,366 of participant deferrals and loan payments within the required timeframe as stated by ERISA. These deferrals were deposited beyond the earliest expected date on which assets could be segregated from the Company's assets. The U.S. Department of Labor considers late deposits to be prohibited transactions. The participant deferrals and loan payments were deposited in the Plan during 2012. The Company calculated and deposited lost earnings related to these late remittances into the Plan during 2012.
