INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Bluewater Constructors, Inc. Employee Stock Ownership Plan and Trust

Report on the Financial Statements

We have audited the accompanying financial statements of Bluewater Constructors, Inc. Employee Stock Ownership Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in its net assets available for benefits for the year ended December 31, 2012, in accordance with accounting principles generally accepted in the United States of America.

6002 Rogerdale, Ste. 200 Houston, Texas 77072 Tel 281-759-1120 Fax 281-759-5500

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2012 and schedule H, line 4j - schedule of reportable transactions for the year ended December 31, 2012, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

BLUEWATER CONSTRUCTORS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF THE PLAN

Bluewater Constructors, Inc. (the "Company") established the Bluewater Constructors, Inc. Employee Stock Ownership Plan and Trust (the "Plan") effective January 1, 1997. The Company became an S corporation effective January 1, 2007. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Participating employers in the Plan include the Company, any signatory company, or any affiliated company and shall include all trades and businesses, whether or not incorporated, which are either a controlled group, as determined by the Internal Revenue Code (IRC), an affiliated service group, as determined by the IRC, or any other entity required to be aggregated pursuant to the regulations under the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and restated as of January 1, 2012. Changes in the Plan have been incorporated in these financial statements.

Eligibility

The Plan is a defined contribution plan covering all employees of the Company, except those who are treated by the Company as independent contractors, self-employed, and employees who are non-resident aliens deriving no earned income from sources within the United States. Employees are eligible to participate on the first day of January or July coinciding with, or next following, the completion of one year of service.

Participant Accounts

Participants cannot contribute to the Plan. The Company may make a discretionary contribution. Participants are eligible to share in the employer's contribution in each plan year in which they have completed 1,000 hours of service and are employed on the last day of the plan year. Employer contributions are allocated to each eligible participant based on the relation of the participant's eligible compensation to total eligible compensation for the year subject to certain limitations. Separate accounts are maintained for each participant, which include an employer stock account and other investment account. Except for stock and cash distributions attributable to employer stock in the participant's employer stock account, earnings are allocated to each participant based on the relation of the participant's account balance to total account balances of all participants as of the beginning of the plan year. Stock and cash distributions on shares of employer stock shall be credited to each participant's employer stock account. Stock and cash distributions on unallocated employer stock shall be credited to each participant's employer stock account in the proportion that the combined total amount of the participant's employer stock account and other investment account bears to the combined total amount of all participant employer stock accounts and other investment accounts as of the first day of the plan year during which such distributions were received by the Plan. The Company did not make a discretionary contribution during 2012.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Life Insurance Policies

The Plan may purchase key man life insurance on the life or lives of key employees of the Company as insurance against the loss in value to the Company from the death of a key employee. Premium payments are to be allocated to participants on the last day of the plan year in which such payments are made in the same ratio as employer contributions. Proceeds received on any life insurance policy shall be allocated among the participants in the ratio in which the total premium payments for that policy for each participant bears to the total premium payments for that policy in the plan year in which such proceeds are received. At December 31, 2012 and 2011, the Plan had not purchased any insurance policies.

Payment of Benefits

No distributions will be made until a participant retires (normal retirement age under the Plan is 65), dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes totally and permanently disabled, or otherwise terminates employment with the Company. Beginning at age 55, for each participant who has at least 10 years of participation in the Plan, the participant may elect to receive a partial cash withdrawal of 25% of the participant's account in the Plan. If the participant continues to participate in the Plan for five more years, this cash withdrawal right increases and applies to 50% of the value of the participant's account in the Plan.

The Company is currently an S corporation. If at the time of a distribution the Company is still an S corporation, the distribution will generally be made in cash paid to the participant and not in shares of Company stock.

If at the time of a distribution the Company is no longer an S corporation, and a participant receives a distribution of shares of Company stock, the participant may for a limited time period sell the shares to the Company. If this option is exercised, the Company will pay the participant a cash amount equal to the most recent appraisal value of shares sold to the Company.

Distributions of a participant's vested account will take place 60 days after the amount of the distribution can be ascertained following the end of the plan year in which the participant retires, dies, or becomes totally and permanently disabled. For termination of a participant's employment other than death, total and permanent disability, or normal retirement age, the distribution will usually commence during the sixth plan year following the plan year in which the participant terminated employment. Distributions are made in five annual installments plus one additional year for each $160,000 in the participant's account balance over $800,000, not to exceed an additional five years. The Plan allows for immediate distribution to participants with vested balances of $150,000 or less upon termination of employment.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, death, or disability, he or she will vest in the balance in his or her account based on total years of service with the Company. Participants vest 20% upon completion of the first two years of service and 20% a year thereafter. Upon completion of six years of service, a participant is fully vested. Participants who end employment as a result of retirement, death, or permanent disability become fully vested.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures in any year are to be allocated to the participants on the same basis as the Company contributions. At December 31, 2012 and 2011, there was no forfeitures balance. Forfeitures of $160,805 were allocated to the participants in 2012.

Voting Rights

Participants may direct the trustees as to the voting rights of the Company stock to vote on a per share basis on corporate matters that relate to a merger, reorganization, liquidation, sale of substantially all assets of the Company, or such similar matters as prescribed by regulations. Participants shall be notified by the Company prior to such times that such rights are to be exercised. The trustees of the Plan shall have the right to vote Company stock in all cases where participants fail to give voting instructions and when voting rights do not apply. The trustees of the Plan must vote unallocated shares in the same proportion as the votes of participants with allocated shares.

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock on the most recent valuation date prior to the date the option is exercised. The Company can pay for the purchase with interest over a period not to exceed five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination, all participants will become 100% vested and the interest of each participant in the Plan will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussions of fair value measurements. Distribution income is accrued in the year declared. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from the financial statements. Administrative expenses include bank fees, legal fees, and audit fees. Other investment related expenses are included in net appreciation in fair value of investments.

Benefits Paid to Participants

Benefits are recorded when paid.

Receivables from S Corporations

S corporation receivables are based on declared dividends. Receivables are recorded on the ex-dividend date. At December 31, 2012 and 2011, management determined that no allowance for doubtful accounts was considered necessary.

Federal Income Taxes

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 30, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan has adopted this guidance in 2012 and determined that it did not have an effect on net assets available for benefits or changes in net assets available for benefits.

In July 2013, the Financial Accounting Standards Board issued ASU 2013-09, *Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04* (ASU 2013-09). ASU 2013-09 defers indefinitely the effective date of certain required disclosures in ASU 2011-04 of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements of investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities.

NOTE 3 - ADMINISTRATION OF PLAN ASSETS

The Plan is administered by an Administrative Committee, which is appointed by the Board of Directors of the Company. The Plan's trustees are an officer and employees of the Company. United Retirement Plan Consultants (formally National Actuarial Pension Services, Inc.) serves as third-party administrator and record keeper.

Company contributions are held and managed by the trustees, who invest cash received, interest, dividend, and distribution income and make distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustees are paid directly by the Company.

NOTE 4 - FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures,* clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Interest-bearing cash: Valued at cost, which approximates fair value.

Common stocks and exchange traded funds: Valued at the last reported quoted price in an active market.

Mutual funds: Valued at net asset value (NAV) of shares held by the Plan at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Limited partnerships: Valued at fair value based on the net equity value of the limited partnerships' net assets as determined by the limited partnerships. One limited partnership's focus is on long-term wealth preservation and growth that serves as a feeder fund for The Endowment (Offshore TEI) Fund, Ltd. (TEF), which in turn is a feeder fund for The Endowment Master Fund, L.P. (Master Fund). The Master Fund invests its assets in a variety of investment vehicles including but not limited to limited partnerships, limited liability companies, offshore corporations and other foreign investment vehicles, registered investment companies, and direct investments in marketable securities and derivative instruments. The limited partnership investment may be redeemed at the end of each calendar quarter. The other limited partnership operates as a commodity investment pool, Sage Fund Limited Partnership (SFLP). SFLP invests its assets in futures contracts and other financial investments. The limited partnership investment may be redeemed at the end of each month after the proper forms have been submitted. The Plan has no unfunded commitments for these investments.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Bluewater Constructors, Inc. - common stock: Valued at fair value as determined by an annual independent appraisal based on a combination of public market multiples, private control sales multiples, and capitalization of earnings methods for 2012 and capitalization of normalized free cash flow for 2011. Fair value per share of the common stock was $4,774 and $4,560 at December 31, 2012 and 2011, respectively. Annually, the trustees assess and approve the fair value measurement policies and procedures. At least annually, management determines if the current valuation techniques used in the fair value measurements are still appropriate and evaluates and adjusts the unobservable inputs used in the fair value measurements based on current market conditions and third-party information. The change in 2012 was made as a result of changes in appraisers and to add a market value component to the valuation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The Company changed methodologies in calculating the fair value of Company stock in 2012. There have been no other changes in the methodologies used at December 31, 2012 or 2011.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

The amount of total gain (loss) for the period included in change in net assets attributable to the change in appreciation (depreciation) in fair value of investments relating to assets still held at the reporting date	$ (4,453)	$ 693,120

Gains/losses included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

The following table represents the Plan's Level 3 investments in limited partnerships, the valuation techniques used to measure the fair value of the investments, and the significant unobservable inputs and the ranges of values for those inputs at December 31, 2012.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Input Values
Limited Partnerships	$ 413,660	Net equity value	Limited Partnerships' net assets	$ 1,369,867,037

NOTE 5 - INVESTMENTS

Investments that represent 5% or more of the Plan's net assets at December 31, 2012 and 2011 are separately identified below, at fair value:

Identity of Party Involved	Description	2012	2011
Bluewater Constructors, Inc.	Common stock	$10,884,720	$6,931,200
Amegy Bank of Texas	Interest-bearing cash	3,011,204	3,717,351

NOTE 5 - INVESTMENTS (CONTINUED)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

Common stocks	$ 912
Mutual funds	114,090
Exchange traded funds	393
Bluewater Constructors, Inc. - common stock	693,120
Limited partnerships	(6,408)
Total	$802,107

NOTE 6 - CONCENTRATIONS OF CREDIT RISK

Financial instruments that potentially subject the Plan to concentrations of credit risk principally consist of cash. The Plan places its cash in financial institutions. At times, such cash investments may be in excess of federally insured limits.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan provides for various investments, mainly in Company common stock, other common stocks, exchange traded funds, mutual funds, and limited partnerships. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 8 - PARTY-IN-INTEREST TRANSACTION

During 2012 and 2011, the Plan invested in common stock issued by the Company. This transaction qualifies as a party-in-interest transaction. In 2012, the Plan purchased 760 shares of Company common stock from the majority stockholder of the Company for $3,260,400. The value of the purchased shares was based on an appraisal of the common stock as of July 31, 2012. These transactions are covered by an exemption from the prohibited transaction provisions of ERISA.

NOTE 9 - RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2012 and 2011:

	2012	2011
Net assets available for benefits per the financial statements	$16,245,569	$14,406,181
Benefits payable per the Form 5500	(175,673)	(763,787)
Net assets available for benefits per the Form 5500	$16,069,896	$13,642,394

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2012:

Change in net assets available for benefits per the financial statements	$1,839,388
Add: Benefits payable per the Form 5500 - December 31, 2011	763,787
Less: Benefits payable per the Form 5500 - December 31, 2012	(175,673)
Change in net assets available for benefits per the Form 5500	$2,427,502

Benefits payable are recorded on the Form 5500 for benefits that have been requested and approved for distribution prior to the plan year-end, but have not yet been distributed.

NOTE 10 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 14, 2013, the date the financial statements were available to be issued.
