I have audited the accompanying statements of net assets available for benefits of DV Management Company, Inc. Profit Sharing Plan as of November 30, 2009 and December 31, 2008, and the related statements of changes in net assets available for benefits for the periods then ended. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audits.

I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audits provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of DV Management Company, Inc. Profit Sharing Plan as of November 30, 2009 and December 31, 2008, and the changes in net assets available for benefits for the periods then ended, in conformity with accounting principles generally accepted in the United States of America.

Vesting. Vesting by participants in the Company's contribution portion of their accounts is based on years of continuous service. A participant vests at 20% per year, starting with 3 years of continuous service and is fully vested after 7 years of continuous service.

Payment of benefits. On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's account or distribution in equal installments over a fixed number of years. Benefits are recorded when paid.

Note 2: Summary of accounting policies, continued

Investment valuation

The Plan's investments are stated at fair market value as determined by quoted market prices in an active market. All Plan assets were transferred to the 401(k) Plan before the close of business on November 17, 2009.

Date of management's review

Subsequent events were evaluated through September 10, 2010, which is the date the financial statements were available to be issued.

Estimates by management

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 3: Tax status

The Internal Revenue Service has determined and informed the Company that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan continues to operate in compliance with the applicable requirements of the IRC.

Note 4: Reconciliation of financial statements to Form 5500

Note 5: Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

SFAS No. 157, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 is used only when Level 1 or Level 2 inputs are not available.
