Contributions – Employees may contribute at least 1% of their pretax compensation through payroll deductions. Contributions can be made on a before-tax basis only and cannot exceed $16,500 in 2009. Age 50 and over participants can contribute an additional $5,500 in 2009. A participant may change his/her amount contributed to the Plan monthly. Participant contributions are made via payroll deductions and are deposited with the trustee on a semimonthly basis.

The Company may, at its discretion, make a discretionary profit-sharing contribution to the Plan for the plan year in an amount determined by the Company.

The Company will contribute a safe-harbor non-elective contribution of 3%, based on a participant's limited compensation for the plan year, to those who have completed the eligibility requirements and/or contribute to the Plan. During 2009, the Company did not make the safe-harbor contribution. Participants were notified in accordance with IRS regulations. At December 31, 2009 and 2008, there were unallocated forfeitures of $534 and $1,075, respectively.

An employee shall be eligible to participate in the allocation of employer contributions after completing one year of continuous employment during the Plan year.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of a) the Company's contribution and b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

1. Description of Plan (Cont.)

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account as described in the plan document.

Forfeitures – Forfeitures of participant balances will be allocated in the following order:

- To restore any participant's account balance that was forfeited and for which the participant has repaid his vested distribution or has made a valid claim.
- To reduce the administrative expenses of the Plan.
- To reduce the Company's discretionary or safe-harbor match.

Withdrawals – If a participant elects to withdraw money from his/her account, the purpose of the withdrawal must qualify as a "financial hardship" as defined by the Internal Revenue Code. To qualify for a financial hardship withdrawal, the participant must have obtained all distributions, other than hardship withdrawals, currently available from all plans maintained by the Company. The minimum amount of a withdrawal request is $1,000, but it must not exceed the amount required to relieve such financial hardship.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from net assets available for Plan benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments in shares of registered investment companies and common collective trusts are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Shares of common collective trusts are valued at the quoted market prices of the underlying securities. Insurance policies are stated at cash surrender value as reported by the insurance carrier.

Income Recognition – Interest income is recorded on the accrual basis.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Administrative and trustee fees related to the general administration of the Plan are paid through the Plan. All other expenses are paid by the Company. Brokerage fees are added to the acquisition costs of assets purchased and are subtracted from the proceeds of assets sold.

3. Investments

The following investments represent 5% or more of the Plan's net assets.

	December 31,	
	2009	2008
Balanced Growth Model	$ 3,296,904	$ 2,925,453
Life Insurance - Pacific Life	305,371	*

*Investment does not exceed 5%.

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Fair value:	
Common collective trusts	$ 559,516
Registered investment companies	88,000
Contract value:	
Cash surrender value of life insurance	163,764
	$ 811,280

4. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires the plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

4. Fair Value Measurements (Cont.)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The fair value of participation units held by the Plan in common collective trusts is based on their net asset values, as reported by the manager First American Bank and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The fair values of common collective trusts that invest only in securities traded on nationally recognized securities exchanges and active dealer markets are classified within Level 2 of the fair value hierarchy.

The fair value of the Plan's life insurance policies has been stated at cash surrender value as reported by the insurance carrier (Level 3 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2009:				
Registered investment companies	$ 591,625	$ 591,625	$ -	$ -
Common collective trusts	3,432,901	-	3,432,901	-
Life insurance policies	491,698	-	-	491,698
Total	$ 4,516,224	$ 591,625	$ 3,432,901	$ 491,698

4. Fair Value Measurements (Cont.)

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2008:				
Registered investment companies	$ 372,548	$ 372,548	$ -	$ -
Common collective trusts	3,029,665	-	3,029,665	-
Life insurance policies	327,934	-	-	327,934
Total	$ 3,730,147	$ 372,548	$ 3,029,665	$ 327,934

Changes in fair value of life insurance policies measured on a recurring basis using significant unobservable inputs (Level 3) for the years ended December 31, 2009 and 2008 are as follows:

	2009	2008
Beginning balance	$ 327,934	$ 362,709
Net appreciation (depreciation) in fair value	163,764	(34,775)
Ending balance	$ 491,698	$ 327,934

Gains and losses (realized and unrealized) included in changes in net assets for the years above are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

5. Information Certified by the Trustee of the Plan

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, First American Bank, the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2009 and 2008.
- Interest and dividends, net appreciation in fair value of investments, and the related investment activity as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2009.
- The information included in the supplemental schedule of assets (held at end of year) as of December 31, 2009.

6. Risks and Uncertainties

The Plan provides for investments that, in general, are exposed to various risks such as interest rates, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Insurance Policies

During 2005, certain participants purchased life insurance policies. During 2009, premiums of $62,933 and $78,676 were made to Jefferson Pilot and Pacific Life, respectively. These policies are valued at the cash surrender value of $491,698 on the statement of net assets available for benefits at December 31, 2009. The increase in the cash surrender value of $163,764 is included in net appreciation in value of investments for the year ended December 31, 2009.

8. Related Party Transactions

Certain Plan investments are shares of common collective trusts which are managed by First American Bank, the trustee of the Plan, which qualify as exempt party-in-interest transactions. Fees paid by the Plan during 2009 and 2008 for legal, accounting, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

10. Income Tax Status

The Plan has been approved by the Internal Revenue Service as qualifying under provisions of the Internal Revenue Code (the Code) and is, therefore, exempt from federal income taxes. The plan administrator and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Accordingly, no provision for income taxes is included in the Plan's financial statements.
