Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Participants and Administrator of the
Retirement Plan for Salaried Employees of L-3 Communications Combat Propulsion Systems:

In our opinion, the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008 and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2009 and the related statement of changes in accumulated plan benefits for the year then ended, present fairly, in all material respects, information regarding the net assets available for benefits of the Retirement Plan for Salaried Employees of L-3 Communications Combat Propulsion Systems (the "Plan") at December 31, 2009 and changes therein for the year then ended and its financial status as of January 1, 2009, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Statement by Enrolled Actuary (see instructions before signing):

To the best of my knowledge, the information supplied in this schedule and on the accompanying schedules, statements, and attachments, if any, is complete and accurate, and in my opinion each assumption, used in combination, represents my best estimate of anticipated experience under the plan. Furthermore, in the case of a plan other than a multiemployer plan, each assumption used (a) is reasonable (taking into account the experience of the plan and reasonable expectations) or (b) would, in the aggregate, result in a total contribution equivalent to that which would be determined if each such assumption were reasonable; in the case of a multiemployer plan, the assumptions used, in the aggregate, are reasonable (taking into account the experience of the plan and reasonable expectations).

ACTUARIAL ASSUMPTIONS AND ACTUARIAL COST METHOD

Net investment return: 7.5%

Interest rate for determination of Current Liability and Maximum Contributions:

Current Liability: 6.69% (previously, 6.43%)
Effective in 2008, as mandated by the Pension Protection Act of 2006 for eligible contractor plans, this is based on the third segment rate used to determine funding requirements for noncontractor plans.

Maximum Deductible Contribution: As mandated by the Pension Protection Act of 2006, the interest rates used are the October 2008 full spot yield curve. The average rates are 7.35% for payments in the first five years, 8.61% for payments in years 6-20, and 7.26% for payments thereafter. The effective interest rate is 8.22%. This market-based assumption is mandated by law, based on the plan sponsor's one-time election of one of the alternative methodologies. (Prior year's rates were from the 24-month average of corporate bond yields ending in August 2007 without a phase in from the current liability rate – 5.26%/5.82%/6.38%).

Mortality rates:

Healthy: RP 2000 Combined Healthy Table (sex distinct)

Disabled: RP 2000 Disabled Retiree Table (sex distinct)

Current Liability and Maximum: The RP2000 combined annuitant and non-annuitant tables with static projection. This assumption is one of the choices allowed by proposed regulations. (Prior year current liability assumption was similar, but based on one less year of projection.)

Average retirement age for Schedule B:	62
Probabilities Related To Spouse Option	It is assumed that 70% of male plan members and 55% of female plan members who die would leave a surviving spouse and that the male would be three years older than the female (previously, 90% for males and 65% for females).
Social Security Benefits	It is assumed that the Social Security taxable wage base will increase at the average rate of 4% per annum compound.
Expenses	$265,000 (previously, 0.5% of market value of assets at beginning of year, but not less than $50,000).
Actuarial value of assets:	Prior year's actuarial value of assets plus: 1) Net new money (Contributions - benefit payments - administrative expenses paid from the trust). 2) Expected investment return calculated from actuarial value 3) 25% of each of the previous four years' gain (loss) due to investment return greater/(less) than expected. The actuarial value of assets is further limited to not less than 80% nor greater than 120% of market value. The initial actuarial value of assets is at market as of February 25, 2005. Therefore, gains and losses from years before 2005 are disregarded in the above formula. For the maximum deductible contribution, the rules under the Pension Protection Act apply, based on the plan sponsor's election of an allowable asset averaging method. The actuarial value of assets is an average of the market value of assets as of the valuation date and the adjusted market value of assets as of the preceding two years. The adjusted assets reflect expected earnings (subject to a statutory cap) and actual cash flow. The resulting value is limited to between 90% and 110% of the market value of assets. The methodology was changed from market value of assets in 2008.

Actuarial cost method:	Entry Age Normal Actuarial Cost Method
	This cost method develops the annual cost or expense of the Plan in two parts: that attributable to service accruing in the current year, known as the normal or service cost; and that due to service earned prior to the current year, known as the actuarial accrued or past service liability. Each of these components is calculated individually for each active employee.
	The normal cost is the level annual contribution, as a percentage of pay, required to be made from the employee's date of hire until his termination or retirement so that sufficient assets will be accumulated to provide his benefit. The unfunded actuarial liability reflects the difference between the portion of projected benefits attributable to service credited prior to the valuation date and assets already accumulated. The unfunded actuarial liability is paid off in accordance with a specified amortization procedure.
	Under the entry age normal cost method, if actual plan experience is close to the assumptions, the normal cost will increase each year for each employee as he or she approaches retirement age. The total contribution is made up of the sum of the individual normal costs and the amortization payment on the unfunded actuarial liability.

SUMMARY OF PLAN PROVISIONS

This subsection summarizes the major provisions of the plan as included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Effective Date	February 25, 2005

Normal Retirement

Age Requirement	65
Service Requirement	None
Amount	A monthly pension is the sum of (i) to (iv), but not less than the Minimum Benefit:

(i) Service Prior to 1/1/1964: $18.00 per year of Credited Service.

(ii) Service 1/1/1964 to 12/31/1980: 1-1/4% of final average pay per year of Credited Service.

(iii) Service 1/1/1981 to 3/31/1997: 1% of final average pay up to Covered Compensation, plus 1.65% of the excess per year of Credited Service.

(iv) Service After 3/31/1997: 1-1/3% of final average pay per year of plan membership service. Plan membership service after March 31, 1997 is limited to 40 years.

Final average pay equals the average of the highest consecutive 60 monthly salary rate received during last 120 months of plan membership.

Covered Compensation equals the average of the Social Security taxable wage bases in effect for each calendar year during the 35 year period ending in the year of termination.

Section 401(a)(17) Limit:	$230,000 (previously, $225,000)

Minimum Benefit	(i) Service Prior to 1/1/1964: $18.00 per year of Credited Service. (ii) Service 1/1/1964 to 3/31/1997: $20.00 per year of Credited Service. (iii) Service after 3/31/1997: $26.00 per year of plan membership service including that additional period during which the member would have accrued benefits but for the age and/or service requirements for eligibility to enter the Plan.
Participation	Salaried employees of L-3 Combat Propulsions who have completed one year of service. Salaried employees covered by a collective bargaining agreement may only be covered if specifically provided in such agreement. A transferred employee who was an active participant in the prior plan (General Dynamics Corporation Salaried Retirement Plan) on February 24, 2005 should automatically become an active participant.
Early Retirement	
Age Requirement:	55
Service Requirement:	5 years of continuous benefit service if service accrued prior to April 1, 1997 10 years of continuous benefit service if service accrued after March 31, 1997
Amount:	The benefit accrued to date of early retirement based on service accrued prior to April 1, 1997, reduced by 3% for each year between age 65 and the date of commencement of benefits.

The benefit accrued to date of early retirement based on service accrued after March 31, 1997, either (i) with no reduction, if benefits commence at or after age 62, or (ii) reduced by 2-1/2% for each year between age 62 and the date of commencement of benefits, if benefits commence prior to age 62.

Form of Payment

Normal Form: Single Life Annuity

Optional forms:

(a) 50% Contingent Annuitant Option (with or without Pop-Up)

(b) 66-2/3% Contingent Annuitant Option (with or without Pop-Up)

(c) 75% Contingent Annuitant Option (with or without Pop-Up)

(d) 100% Contingent Annuitant Option (with or without Pop-Up)

(e) Joint and Survivor Annuitant Option

(f) Level Income Option at Age 62 or Age 65

(g) Five Years or Ten Years Certain and Life Option

(h) Lump Sum Option (maximum $20,000)

The automatic payment option for Married Members or Married Vested Members is the 50% Contingent Annuitant Option with the spouse designated as Contingent Annuitant.

Lump sum benefits	Benefits with present value less than or equal to $1,000 are automatically cashed out. If the present value of the benefit is over $1,000 but less than or equal to $5,000, a lump sum is offered to the participant. If the present value of the benefit is over $5,000 but less than or equal to $20,000, the participant can elect the lump sum, an immediate annuity, or a deferred annuity.
Vesting	
Age Requirement:	None
Service Requirement:	5 years
Amount:	The benefit may commence prior to age 65 with a reduction of 3% for each year prior to age 65 applicable to the benefit based on service accrued prior to April 1, 1997 and on an actuarial equivalent basis applicable to the benefit based on service accrued after March 31, 1997.
Pre-retirement Death Benefit	If a member dies while eligible for early retirement or while eligible for a vested benefits and leaves a surviving spouse to whom he/she has been married for at least one year, the surviving spouse will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter and elected the 50% contingent annuitant option.
Post-retirement Death Benefit	Depends on the form of pension elected; in any event, the excess, if any, of the death benefit payable just prior to retirement over actual pension payments is paid to the beneficiary.
Pension Enhancement	Members employed prior to January 1, 1999 and retiring from active service will be entitled to a pension enhancement benefit of $94 per month, prorated for less than ten years of continuous service measured from April 1, 1997 to retirement, commencing at age 65. An additional benefit, in the same amount, will be payable when an eligible spouse attains age 65.

Report of Independent Auditors

To the Participants and Administrator of the
Retirement Plan for Salaried Employees of L-3 Communications Combat Propulsion Systems:

In our opinion, the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008 and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2009 and the related statement of changes in accumulated plan benefits for the year then ended, present fairly, in all material respects, information regarding the net assets available for benefits of the Retirement Plan for Salaried Employees of L-3 Communications Combat Propulsion Systems (the "Plan") at December 31, 2009 and changes therein for the year then ended and its financial status as of January 1, 2009, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

1. Plan Description

The following brief description of the Retirement Plan for Salaried Employees of L-3 Communications Combat Propulsion Systems (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective February 25, 2005 in connection with the acquisition of the Propulsion Systems business unit of General Dynamics by L-3 Communications Corporation (the "Company"), a wholly owned subsidiary of L-3 Communications Holdings, Inc. ("Holdings"). On that date, certain salaried participants in the General Dynamics Corporation Retirement Plan (Government) (the "Prior Plan") became participants in the Plan. The provisions of the Plan apply only to employees who terminate active employment on or after February 25, 2005.

The Plan is a non-contributory defined benefit plan. Participation in the Plan commences on the first day of the following month after completion of one year of continuous service. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is frozen with respect to new participants hired on or after January 1, 2007. As such, any employees hired on or after January 1, 2007 are not eligible to participate in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

On January 1, 2008, the Plan adopted the standards for fair value measurements. Refer to Note 6 for disclosures provided for fair value measurements of plan investments.

Investment in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the "Master Trust") administered by The Bank of New York Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the "L-3 Participating Plans"). The only investment of the Plan is its interest in the net assets of the Master Trust. The fair value of the Plan's interest in the Master Trust is determined based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of corporate equity securities, commingled trust funds and mutual funds, corporate bonds and Government and mortgage-backed securities. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Gain (Loss) from Master Trust

The net investment gain (loss) from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment gain or loss is allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan. Administrative expenses are charged to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees of the Master Trust are allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results will differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that

changes in risks in the near term would materially affect the investments and related allocation reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Subsequent Events

The Plan continues to evaluate events after the Statement of Net Assets Available for Benefits date through September 14, 2010, the date the financial statements were available to be issued.

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") and the minimum funding requirements under ERISA. Contributions from the Company required in 2009 and 2008 under the minimum funding requirements of ERISA were $806 and $1,039, respectively. Contributions are calculated using the Entry Age Normal Actuarial Cost Method. Under this method, the total actuarial liability for participants is the actuarial present value as of the valuation date of all benefits attributed by the pension benefit formula to employee service rendered prior to that date, which assumes the normal cost will remain constant as a percentage of payroll for each employee as he or she approaches retirement age. The yield (interest, dividends, and net realized and unrealized gains and losses) on investments of the Plan serves to adjust future contributions that will be required to provide for the defined level of benefits.

4. Plan Benefits

Participants are entitled to receive monthly pension benefits beginning at the normal retirement age of 65. The monthly normal retirement benefit is equal to the greater of an amount equal to 1⅓% of final average monthly salary multiplied by that period, in years and completed months, of includible Plan membership or an amount equal to $.026 multiplied by that period, in years and completed months, of Plan membership. An employee accrues one month of Plan membership for each calendar month in which he or she is an active member and receives base compensation as a salaried employee. Final Average Monthly salary is the average of the salary rates in effect on the first day of each of the 60 consecutive months of Plan membership for which an active member's salary rate was the highest out of the 120 months of Plan membership immediately preceding the date of retirement.

The Plan permits participants to retire at an early retirement date, which is the first day of any month specified by the participant following the attainment of age 55 and completion of 10 or more years of continuous service, and before reaching the age of 65 provided retirement has occurred. A participant who elects to retire on an early retirement date is entitled to a retirement benefit commencing on his or her normal retirement date in an amount equal to the accrued regular benefit determined at the early retirement date. If the participant attains the age of 62 at the date of commencement of benefits, the accrued benefit will be payable without reduction. If benefits commence prior to age 62, the accrued benefit determined at the early

retirement date will be reduced by 2½% of the normal retirement benefit for each year, with months counting as twelfths, between the first day of the month following the date of commencement of benefits and attainment of age 62.

The following presents the more significant assumptions underlying the actuarial computations as of January 1, 2009 and 2008.

Mortality basis	RP-2000 Combined Healthy Table RP2000 Disabled Retiree Table
Retirement	Retirement starting at 55, with 100% by age 70
Discount rate for the determination of the present value of accumulated plan benefits	2009 and 2008 – 7.5%

The foregoing actuarial assumptions are based upon the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may be used in determining the actuarial present value of accumulated plan benefits.

5. Master Trust

The fair value of the assets and liabilities of the Master Trust at December 31, 2009 and 2008 is presented in the table below. The Plan's percentage interest in the Master Trust was 1.7% at December 31, 2009 and December 31, 2008.

	2009	2008
Corporate equity securities	$ 607,388	$ 472,726

	$ 180,985	$ (399,368)

6. *Fair Value Measurements*

Effective January 1, 2008, the Plan adopted the standards for fair value measurements. The provisions of the standards are applicable to all of the Plan's assets and liabilities that are measured and recorded at fair value. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. The standards establish a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy defined by the standards are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets include equity securities, certain mutual funds and U.S. Treasury bonds, all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets include commingled trust funds, certain mutual funds, corporate bonds, government securities and forward contracts.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The following is a description of the valuation methodologies used for assets of the Master Trust, measured at fair value, including the general classification of such assets pursuant to the fair value hierarchy.

The fair value of *corporate equity securities* is based on quoted market prices available in active markets at the close of a trading day.

The units within the *commingled trust funds* are generally maintained at a constant fair value of approximately $1 per unit, which is determined by the fair values of the underlying securities, less the fund's liabilities, divided by the number of units outstanding.

The fair value of *mutual funds* is based on quoted Net Asset Values (NAV's) available in active markets at the close of a trading day. These funds are classified by the Company as Level 1 measurements within the fair value hierarchy. For those mutual funds that do not trade in active markets, the fair value is based on NAV's calculated by the fund manager using the closing quoted market prices of the underlying securities available in an active market. These mutual funds are classified by the Company as Level 2 measurements within the fair value hierarchy.

The fair values of the *corporate and foreign government bonds* are based on: (1) the closing price reported in an active market in which the bond is traded, (2) yields currently available on comparable bonds of issuers with similar credit ratings, or (3) a cash flows approach that maximizes observable inputs.

The fair value of *U.S. Treasury bonds* is based on quoted market prices available at the close of a trading day in an active market.

Other consists primarily of *mortgage-backed securities*. The fair value for mortgaged-backed securities is generally based on available trade information in a non-active market or dealer quotes from comparable securities.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2009 and 2008. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement.

	Fair Value Measurements Using Input Type

7. *Tax Status*

The Internal Revenue Service has determined and informed the Company by a letter dated July 28, 2008, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

8. *Related Party Transactions*

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by The Bank of New York Mellon, the Plan's trustee.

9. Termination Priorities

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.

b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.

c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.

c. All vested and non-vested benefits.

To the extent the Plan's net assets are not sufficient to fund the accumulated benefits upon Plan termination, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation, up to specified limits.
