A Description of Plan.

The following description of the LPR Construction Company Profit Sharing Plan with 401(k) Arrangement (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1 **General.** The Plan is a defined contribution plan consisting of a 401(k) Plan and a Profit Sharing Plan. The Plan covers all full-time employees of the Company who have completed thirty days of service, are age eighteen or older, and are not covered by a collective bargaining agreement. The Plan covers employees rendering services for the employer on contracts subject to the Davis-Bacon Act, Service Contract Act, or other Federal, State, or Municipal prevailing wage laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2 **Contributions.**

Profit Sharing Plan: Each year, it is the discretion of the Company's Board of Directors to determine the amount of contribution.

401(k) Plan: Each year, participants may contribute up to the amount allowable by law of pretax annual compensation, as defined in the Plan. For the years ended December 31, 2012 and 2011, the amount was $17,000 and $16,500, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company may contribute a matching contribution equal to a percentage of each participant's contribution with the exact percentage to be determined each year by the Company. Additional amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. The Company contributions to the Plan for employees, subject to prevailing wage laws, are determined by the Company, based on rates that satisfy the wage determination issued by the governmental agency responsible for the contract.

3 **Participant Accounts.** Each participant's account is credited with the allocation of (a) the participant's contributions, (b) the Company's contributions, (c) Plan earnings, and (d) forfeitures of terminated participants' non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

A Description of Plan. (Continued)

4 **Vesting.** Participants are immediately vested in their contributions plus actual earnings thereon. The participants are vested in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon based upon a six year vesting schedule. Participants are immediately vested in contributions subject to prevailing wage laws.

5 **Investment Options.** Upon enrollment in the Plan, contributions will be allocated between accounts as directed by the participant in accordance with the investment allocation form provided by the employer. Participants may change their investment options at any time.

6 **Payment of Benefits.** Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified time period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

7 **Participant Notes Receivable.** Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the Wall Street Journal prime rate plus 1%. Principal and interest is paid ratably through weekly payroll deductions.

8 **Forfeited Accounts.** At December 31, 2012 and 2011, the balance of forfeited accounts totaled $40,076 and $32,442, respectively. The Company has the option to return forfeited accounts back to the Plan as additional contributions, to offset future employer contributions, or to be used to pay Plan expenses.

9 **Administrative Expenses.** Certain expenses of maintaining the Plan are directly paid by the Company. Administrative fees paid out of Plan assets for the years ended December 31, 2012 and 2011, were $10,804, and $28,957, respectively.

B Summary of Accounting Policies.

1 **Basis of Accounting.** The financial statements of the Plan are prepared using the accrual method of accounting.

B Summary of Accounting Policies. (Continued)

2 **Estimates.** The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3 **Investment Valuation and Income Recognition.** The investments of all of the funds, except the fully benefit-responsive investment contract, are presented at fair value based on the quoted market prices of the underlying securities within each fund at December 31, 2012 and 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fully benefit-responsive investment contract is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings less distributions.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4 **Payment of Benefits.** Benefits are recorded when paid.

5 **Subsequent Events.** In preparing its financial statements, the Company has evaluated subsequent events through August 12, 2013, which is the date the financial statements were available to be issued. The Company has not identified any material subsequent events that require reporting or disclosure.

B Summary of Accounting Policies. (Continued)

6 **Participant Notes Receivable.** Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans may be classified as distributions based upon the terms of the Plan document.

C Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

D Fair Value Measurements.

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels, and all of the Plan's investments are valued using inputs considered Level 1 and Level 2.

Level 1 Fair Value Measurements.

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of mutual funds are based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements.

The fair value of the fully benefit-responsive investment contract is based on quoted net asset values of similar assets in active markets at year-end.

D Fair Value Measurements. (Continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value, as of December 31, 2012 and 2011:

E Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

F Tax Status.

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service dated July 6, 2010, and the plan sponsor believes that the Plan continues to qualify and to operate as designed. As of December 1, 2009, a restated 401(k) Profit Sharing Plan was put into place by the Company to be in compliance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

G Profit Sharing Contribution.

During the years ended December 31, 2012 and 2011, the Board of Directors elected to not make a discretionary profit sharing contribution.

H Investment Contracts with Insurance Companies.

During 2011, the Plan entered into a fully benefit-responsive investment contract with Wells Fargo Bank, N.A. (Wells Fargo). Fidelity Management Trust Company (Fidelity) has classified this benefit-responsive investment contract as a common collective trust. Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

H Investment Contracts with Insurance Companies. (Continued)

The guaranteed investment contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants can ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by Fidelity.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011, was $561,071 and $493,901, respectively. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates were reviewed on a quarterly basis for resetting.

	2012	2011
Average Yields:		
Based on Actual Earnings	.94%	1.56%
Based on the Interest Rate Credited to Participants	1.95%	2.33%

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Wells Fargo. The plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with the Plan participants is not probable.
