NOTE 1 - DESCRIPTION OF PLAN

The following description of the Mesa Systems, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Mesa Systems, Inc. (the Company) who are at least 21 years old or older. Employees are eligible to participate in elective deferrals and rollover contributions in the Plan after three months of service with the Company. Additionally, an employee who has completed one year of service with the Company is eligible to participate in the Plan's Employer Discretionary Matching Contributions and Profit Sharing Contributions, subject to a vesting period. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Plan includes a deferred compensation arrangement under Internal Revenue Code Section 401(k), which allows eligible employees to make elective deferral contributions to the Plan as a percentage of their compensation.

Contributions

For the years ended December 31, 2009 and 2008, non-highly compensated employees' tax-deferred contributions were limited to 15% of eligible compensation. Highly compensated employees' elective deferral contributions were limited to 4% of eligible compensation. Under the terms of the Plan, the Company can match elective deferral contributions made by their employees to the Plan up to an agreed-upon percentage. During 2008, the Company matched up to 2% of eligible participant's contributions from January 1, 2008 through September 30, 2008, at which time the Company elected to discontinue matching. Discretionary contributions made by the Company at December 31, were $0 (2009) and $88,320 (2008).

The Plan allows for participants to rollover contributions into the Plan from another qualified plan or individual retirement account. Such rollovers are included in other contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions on the participant's behalf, and an allocation of Plan earnings. Allocations are based on participant account balances as of the beginning of the Plan year.

Vesting

Participants are immediately vested in their elective deferral contributions plus earnings thereon. Vesting in the Company's contributions plus earnings thereon is based on years of continuous service. For 2008, participants were vesting at 20% per year after the first year of service and

were 100% vested after six years of credited service for both matching and profit-sharing contributions. During 2009, the Company modified the vesting schedule for matching contributions. Effective September 1, 2009, participants were 100% vested after working two consecutive years of at least 1,000 hours per year. In addition, a participant becomes 100% vested in the Company's contributions in the event of a participant's death or disability or upon termination of the Plan.

Participant Loans
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the loan fund. The maximum loan term is five years. The loans are secured by the vested balance in the participant's account. Interest rates are determined by the trustee and Plan administrator at the time the loan is processed. The interest rate for participant loans at December 31, 2009 and 2008 was 6%.

Payment of Benefits
Upon termination of service, a participant will receive a lump-sum payment equal to the value of his or her account, provided the account does not have a value greater than $1,000. Distributions greater than $1,000 must be directly rolled over to an IRA on behalf of the terminated participants who do not select a payout option. Otherwise, the participant may elect a monthly life income annuity to be paid in monthly installments over a period not to exceed the employee's lifetime or may receive a lump-sum payment.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation
Investments are reported at fair value; fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 6).

Payment of Benefits
Benefits are recorded when paid by the third-party administrator.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 3 - TAX STATUS

The Plan obtained its latest determination letter in 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. Plan management and tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTE 6 - FAIR VALUE MEASUREMENTS

Effective January 1, 2008, the Plan adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (ASC 820). ASC 820 defines fair value, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Under ASC 820, assets and liabilities are grouped in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 – Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2 – Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobserved assumptions reflect the Plan's own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Under ASC 820, the Plan bases fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon the Plan's estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future values.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds and Money Market Funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair value measurements for assets recorded at fair value on a recurring basis at December 31, 2009 are as follows:

NOTE 8 - FORFEITURES

Forfeitures are determined at year-end and reduce the employer's contribution for the Plan year immediately following the Plan year in which the forfeiture occurs. For the years ended December 31, 2009 and 2008, no forfeitures were applied towards reducing employer contributions. The forfeitures are not considered assets available for benefits as of year-end. At December 31, unallocated forfeitures totaled $22,110 (2009) and $14,814 (2008).

NOTE 10 - RELATED PARTY TRANSACTIONS

Ascensus, Inc., the third-party administrator of the Plan, partners with Oppenheimer Funds Distributor, Inc. (Oppenheimer) as the Plan advisor; and Oppenheimer manages certain Plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental Schedule H, line 4i-Schedule of Assets (Held At End of Year).

NOTE 11 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 12 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 10, 2010, the date at which the financial statements were available to be issued, and determined that no events have occurred that require disclosure.
