An employee must be employed on the last day of the Plan year in order to be eligible to receive the Company's discretionary annual profit sharing contribution. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2 **Contributions.** Each year, participants may contribute up to 18% of pretax annual compensation as defined in the Plan, or up to the maximum annual limit as set forth by the Internal Revenue Service. For the years ended December 31, 2009 and 2008, the amount was $16,500 and $15,500, respectively. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may, at its discretion, make a contribution in an amount to be determined each Plan year, and allocated according to the Plan. Contributions are subject to certain limitations.

3 **Participant Accounts.** Each participant's account is credited with the allocation of (a) the participant's contributions, (b) the Company's contribution, (c) Plan earnings, (d) participant rollovers, and (e) forfeitures of terminated participants non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

4 **Vesting.** Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

5 **Investment Options.** Upon enrollment in the Plan, contributions will be allocated between accounts as directed by the participant in accordance with the investment allocation form provided by the employer. Participants may change their investment options at any time.

A Description of Plan. (Cont'd.)

6 **Forfeited Accounts**. At December 31, 2009 and 2008, the balance of the forfeited accounts totaled $274,011 and $194,618, respectively. The forfeiture account balance can be used to offset future employer contributions and Plan administrative expenses. During the years ended December 31, 2009 and 2008, the Company did not use any forfeitures to offset the employer match.

7 **Participant Notes Receivable.** Participants may borrow from their fund accounts a minimum of $500, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms generally range from 1-5 years, but may be extended at the discretion of the plan administrator in the case of the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%, determined at the time the loan is granted. Principal and interest is paid ratably through monthly payroll deductions.

8 **Payment of Benefits.** Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

B Summary of Accounting Policies.

1 **Investment Valuation and Income Recognition.** The Plan has adopted ASC 820 "Fair Value Measurements". The objective of ASC 820 is to establish a fair value framework (hierarchy) for valuing investments in the Plan's financial statements. The Plan's investments are stated at fair value. Mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end (Level 1 inputs). The fair value of Participants' Loans is measured using Level 3 Inputs. The valuation techniques used to determine the value of Level 3 Participants' Loans is based on amortized cost.

(The Effect of Level 3 Inputs on Net Assets or Liabilities)

	Balance at December 31, 2008	Total Gains or (Losses)	Interest Credited	Purchases, Issuances, Settlements	Balance at December 31, 2009
Participants' Loans	$1,616,447	$ -	$ -	$ 136,581	$ 1,753,028

B **Summary of Accounting Policies.** (Cont'd.)

2 **Basis of Accounting.** The financial statements of the Plan are prepared using the accrual method of accounting.

For the years ended December 31, 2009 and 2008, the Plan's 5500 Annual Return/Report of Employee Benefit Plan is prepared using the modified cash method of accounting. The following is a reconciliation of the financial statements to the Plan's 5500:

Statement of Net Assets Available for Benefits:

	2009	2008
Net Assets – per Financial Statements	$ 19,970,106	$ 15,988,659
Employer's Interest Contribution	-	(174)
Net Assets – per Form 5500	$ 19,970,106	$ 15,988,485
Participant Loans per Financial Statements	$ 1,753,028	$ 1,616,447
Deemed Distributions of Participants' Loans to Distribute per Financial Statements	(169,718)	(110,817)
Participant Loans per Form 5500	$ 1,583,310	$ 1,505,630

Statement of Changes in Net Assets Available for Benefits:

Total Additions – per Financial Statements	$ 5,673,953
Employer's Accrued Interest Contribution	174
Total Additions – per Form 5500	$ 5,674,127

3 **Estimates.** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

4 **Payment of Benefits.** Benefits are recorded when paid.

5 **Subsequent Events.** In preparing its financial statements, the Company has evaluated subsequent events through July 1, 2010, which is the date the financial statements were available to be issued.

C Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

D Tax Status.

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the plan sponsor believes that the Plan continues to qualify and to operate as designed.

E Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

AND COMPANY

July 1, 2010

To the Board of Directors of

American Furniture Warehouse 401(k) Plan.

In planning and performing our limited-scope audit of the American Furniture Warehouse 401(k) Plan, as of and for the year ended December 31, 2009 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974. Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information summarized in Note F to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses, and therefore in addition, because of inherent limitations in internal control, including the possibility of management override of controls, errors or fraud may occur and not be detected by such controls. However, as discussed below, we noted certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We do not believe that any of the significant deficiencies or combination of significant deficiencies described below constitutes a material weakness.

A significant deficiency is a deficiency or combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A significant deficiency may include deficiencies that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the organization's internal control. We consider the following deficiencies to be significant deficiencies in internal control:

Financial Statement Presentation
The company does not have the capability or expertise internally to prepare their financial statements and related footnotes in accordance with Generally Accepted Accounting Principles. Because of the Company's size and the cost/benefit of being able to do this internally, the Company has made the determination that they will rely on their auditor to advise them of new accounting standards and their effect on the Company, and to prepare the year end financial statements and disclosure in accordance with GAAP.

Participant Documentation
The Company's employee/participant files must include the appropriate documentation for 1) employees who elect not to participate in the Plan, 2) participant's initial enrollment form, 3) documentation of any participant changes to their 401(k) Plan withholdings and 4) any participant requests for distributions or loans from their 401(k) accounts. The majority of the participant files, we randomly selected for audit testing, were missing this required audit documentation.

This communication is intended solely for the information and use of the Audit Committee, the Board of Directors and others within the Company, and is not intended to be and should not be used by anyone other than these specified parties.
