In accordance with Regulation 2520.103-5 of the Department of Labor (DOL), the custodians have provided certified statements reflecting the completeness and accuracy of the following information:

(1) the total of all assets and liabilities of each separate account into which the Company has deposited money, and

(2) the value of the contracts' units in the pooled accounts.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Lincoln National Corporation or Northwestern Mutual, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedules. The following summarizes the unaudited, except to the extent discussed above, information certified by the Plan's custodians.

The fair value of investments as of December 31, 2012, as certified by the custodians:

Pooled separate accounts	$ 1,205,519
Guaranteed investment contracts	45,246
Loans to participants	19,105
	$ 1,269,870

Investment income for the year ended December 31, 2012, as certified by the custodians:

Net appreciation in fair value of investments	$ 135,801
Interest income on loans to participants	356
	$ 136,157

1. Description of Plan - continued:

b. Plan Custodians - continued:

The reconciliation of certain investment income amounts reported by the custodians to the financial statements:

Interest income on loans to participants, cash basis	$ 356
Add: interest payments receivable at year-end	23
Interest income on loans to participants, per audited financial statements	$ 379

c. Contributions:

Each year, participants may contribute up to 100% of pretax annual compensation, subject to current statutory limitations on 401(k) contributions and as defined in the Plan. Participants may also contribute rollover distributions from other qualified plans. Employees are automatically enrolled in the Plan following an employee's first entry date, unless he or she elects otherwise. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan, throughout the year, offered a combination of 39 mutual funds and 1 guaranteed investment contract as investment options for participants. The Company may make discretionary matching and/or profit sharing contributions as uniform percentages of participant contributions and participant compensation, respectively. Contributions are subject to certain limitations. No contributions were made by the Company for 2012.

At December 31, 2012, a payable of $16,855 was recorded for amounts refundable by the Plan to participants for contributions (and investment earnings thereon) made in excess of amounts allowed by the Internal Revenue Service (IRS).

d. Participant Accounts:

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses to the extent that such expenses have not been paid by the Company. Allocations are based on participant earnings, account balances, specific participant transactions, or total number of participants, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting:

Participants are immediately vested in their salary deferral contributions (including catch-up), rollover contributions, plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after 6 years of credited service.

f. Participant Loans:

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loan repayment period is not to exceed five years. The loans are collateralized by the participant's account balance and bear interest at rates commensurate with prevailing local rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions. There were outstanding loans of $19,105 as of December 31, 2012.

1. Description of Plan - continued:

g. Payment of Benefits:

On termination of service due to death, disability or retirement, a participant is entitled to receive an amount equal to the vested portion of his or her account balance in a lump sum, or in annual installments over the life expectancy of the participant or of his or her beneficiary, if applicable. For termination of service for reasons other than those discussed previously, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. In all situations where a participant has requested to receive benefit payments, a vested account balance of $1,000 or less will be distributed to the participant without consent.

h. Forfeitures:

For the year ended December 31, 2012, there were no forfeitures of non-vested account balances. Forfeitures may first be used to pay administrative expenses, with remaining forfeitures used to reduce future employer contributions. As of December 31, 2012, there was no forfeiture balance available to reduce future employer contributions.

2. Summary of Significant Accounting Policies:

a. Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits for a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully-benefit responsive contracts from fair value to contract value. The Statement of Changes in Net Assets for Benefits is prepared using the contract value basis for fully-benefit responsive investment contracts.

b. Estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition:

The Plan’s investments are reported at fair value, which is generally based on quoted market prices, except for any fully benefit-responsive investment contracts the Plan may carry, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining fair value of the Plan’s assets and liabilities, the Plan administrator utilizes information provided by the custodians, as described in Note 1b. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

2. Summary of Significant Accounting Policies - continued:

c. Investment Valuation and Income Recognition - continued:

The three levels of fair value hierarchy under Financial Accounting Standards Codification 820 are described as follows:

Level 1 – Inputs include unadjusted quoted prices for either identical or similar assets or liabilities in both active and inactive markets;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability, including inputs derived principally from or corroborated by observable market data by correlation or other means; and

Level 3 – Includes valuation methods in which unobservable inputs are used that are significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contracts – Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 2a). Because the participants transact at contact value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan administrator evaluates a variety of factors including a review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contact terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012.

	Level 1	Level 2	Level 3	Totals
Mutual funds	$ 1,205,519	$ -	$ -	$ 1,205,519
Guaranteed investment contracts	-	-	45,246	45,246
Receivables:				
Participant contributions	5,507	-	-	5,507
Interest	23	-	-	23
Loans to participants	19,105	-	-	19,105
Total assets at fair value	$ 1,230,154	$ -	$ 45,246	$ 1,275,400

2. Summary of Significant Accounting Policies - continued:

c. Investment Valuation and Income Recognition - continued:

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	Guaranteed Investment Contracts
Balance, beginning of year	$ 56,436
Realized gains (losses)	-
Unrealized gains (losses)	-
Investment income (loss)	1,214
Fees	(1,602)
Net transfers in (out) of Level 3	(10,802)
Balance, end of year	$ 45,246

Unrealized gains (losses) from the guaranteed investment contracts are not included in the Statement of Changes in Net Assets Available for Benefits as the contracts are recorded at contract value for purposes of the net assets available for benefits.

Purchases and sales of securities are recoded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held throughout the year.

d. Participant Loans:

Loans to participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012. If a participant ceases to make loan repayments as required by the Plan, and the Plan administrator deems the participant loan to be in default, the participant loan balance may be reduced and a benefit payment recorded.

e. Payment of Benefits:

Benefits are recorded when paid.

f. Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of loans to participants, if any, are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

g. Subsequent Events;

The Plan has evaluated subsequent events through October 11, 2013, the date of the auditors' report and the date the financial statements were available to be issued.

3. Investments:

The following investments represent 5% or more of the Plan's net assets as of December 31, 2012:

VG LifeStrategy Growth SA32	$ 86,088
LVIP SSgA S&P 500 Index SA27	106,407
LVIP Del Fndtn ModeratAll SA96	127,132
SSgA Russ LC Gr Ix Non-Ln SAL9	134,741

During 2012, the Plan's investments (including investments bought, sold and held during the year) appreciated in value by $135,801.

4. Guaranteed Investment Contracts with Lincoln National Life:

In 2012, the Plan held fully benefit-responsive guaranteed investment contracts with Lincoln National Life. Lincoln National Life maintains the contributions in the general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Issuers of guaranteed investment contracts are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. The guaranteed investment contracts are presented on the face of the Statement of Net Assets Available for Benefits at fair value with an adjustment to contact value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Lincoln National Life, represents contributions made under the contracts, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2012 was $45,246. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the availability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date, if applicable, and will continue in force until all assets have been distributed or no further payments are due.

The average yields earned by the guaranteed investment contracts during 2012 are as follows:

Based on actual earnings	0.00%
Based on interest rate credited to participants	0.00%

5. Related-Party and Party-In-Interest Transactions:

During 2012, certain Plan investments were shares of mutual funds managed by Lincoln National Corporation and Northwestern Mutual. Lincoln National Corporation and Northwestern Mutual are trustees as defined by the Plan and, therefore, those transactions qualified as party-in-interest transactions. For the year ended December 31, 2012, fees paid by the Plan for those investment management services totaled $11,338.

Certain employees of the Company provide administrative and trustee services to the Plan, but receive no compensation from the Plan for such services.

6. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Reconciliation of Financial Statements to Schedule H of Federal Form 5500:

Reconciliation of net assets available for benefits as of December 31, 2012 per the financial statements to Schedule H of federal Form 5500:

Net assets available for benefits, per the financial statements	$ 1,258,545
Add: refunds of excess contributions and earnings payable, end of year	16,855
Less: contributions and interest receivable, end of year	(5,530)
Net assets available for benefits, per Schedule H of federal Form 5500	$ 1,269,870

Reconciliation of benefits paid to participants during 2012 per the financial statements to Schedule H of federal Form 5500:

Benefits paid, per the financial statements	$ 121,188
Add: (Not Applicable)	-
Less: (Not Applicable)	-
Benefits paid, per Schedule H of federal Form 5500	$ 121,188

The Plan's trustee is responsible for filing the Plan's federal form 5500. Federal Form 5500 was prepared on the cash basis of accounting for the year ended December 31, 2012.

8. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. Qualified Status:

The IRS has determined, and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although another determination letter has not been obtained since that date, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2009.

10. Prohibited or Non-Exempt Transactions:

Pursuant to 29 CFR 2510.3-102 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, amounts paid by a Plan participant or withheld by an employer from a participant's wages for contribution to the Plan are Plan assets on the earliest date that they can reasonably be segregated from the employer's general assets. No such violation of this regulation occurred during 2012.

The Company incurred an excise tax of $1,526 as a result of excess contributions made by participants during 2012. See Note 1c.
