LASERFICHE 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Laserfiche 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established in 1997 and has been further amended as mandated by federal law. It is a defined contribution 401(k) plan that covers eligible employees of Laserfiche/Compulink Management Center, Inc., (the "Employer" or the "Company") who have completed three months of continuous service, and are age twenty-one or older. Eligible employees may join the Plan at the beginning of each month.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration of Plan Assets

Fidelity Management Trust Company ("Fidelity") is the custodian, trustee, record-keeper, and third party administrator of the Plan. The general duties of the custodian are to hold and manage the Plan's assets, which consist of investments in registered investment companies. Fidelity receives contributions from the Company, invests cash received, allocates interest and other investment income and makes distributions to participants. Fidelity also administers the repayment of interest and principal on participant loans, which is remitted to Fidelity when withheld from the employees. The trustee is responsible for investment decisions of the Plan. The Company's Chief Financial Officer is the Plan administrator. The general duties of the administrator are to administer the Plan in accordance with Plan rules and ensure compliance of the Plan with ERISA, as amended.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Contributions

Participant contributions are based upon an elected percentage. The Plan allows participants to contribute, on a pre-tax basis, an amount subject to an annual limit of the lesser of $17,000 or 60% of eligible compensation, in accordance with Section 401(k) of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $5,500 in 2012. The Plan allows participants to make additional deferral contributions from 1% to 100% of any employer cash bonus paid during the plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and money market accounts as investment options for participants.

Participants who meet the eligibility requirements and make deferral contributions are entitled to receive discretionary matching employer contributions. The Company contributes 50% of the first 15% of base compensation that a participant contributes to the Plan.

Participant Accounts

Each participant's account is credited with the participant’s contribution and allocations of the Company’s discretionary contributions and Plan earnings (losses), and charged with administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their rollover contributions, deferral contributions, qualified nonelective contributions, and any earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of credited service. Participants vest 20% per year beginning after the second year of service and become fully vested after six years of credited service.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

On termination of service due to death, disability, retirement or termination of employment, a participant may elect to (a) receive a lump sum non-rollover distribution equal to the participant's vested interest in his or her account, (b) rollover distributions directly into an individual retirement account ("IRA") or a new employer's qualified retirement plan, (c) receive a combination of both non-rollover and rollover distributions, or (d) defer receipt of distribution until a later date.

If a participant's vested benefit is less than $1,000, a lump sum distribution from the Plan will be made by the employer without the participant's consent. Minimum required distributions will be made no later than April 1st following the calendar year in which a participant attains age 70 1/2, unless they are still employed and elect to defer minimum distributions. Withdrawals may also be made for financial hardships, which is determined pursuant to the provisions of the IRC and the plan document.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of 50% of their vested account balance, not to exceed $50,000. The loans are secured by the balance in the participant's account and bear interest at rates prevailing at the date the loan is made and is fixed over the life of the loan. Loans must be repaid over a five year period unless it is for the purchase of a principal residence, in which case the loan repayment may not extend beyond ten years from the date of the loan.

Forfeited Accounts

Forfeitures of terminated participants' non-vested accounts may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future Employer contributions. At December 31, 2012, forfeited non-vested accounts totaled $71,165. The employer contribution receivable has been reduced by this amount. A total of $97,040 of forfeited funds were used to offset 2011 Employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments, which includes the realized gains or losses and unrealized appreciation (depreciation) on those investments.

Expenses of the Plan

The Company pays certain administrative expenses of the Plan, while other expenses including loan-related fees are paid by the Plan. Management fees and other transaction costs associated with the investment options are included by the trustee in net appreciation (depreciation) in fair value of investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the Statement of Net assets Available for Benefits.

Contributions

Participant contributions are recorded in the year withheld from earnings of Plan participants. Company match and discretionary contributions are recorded in the year which they become an obligation of the Company.

Benefit Payments

Benefit payments are recorded when paid to participants.

NOTE 3 - TAX STATUS OF THE PLAN

On March 31, 2008, the Internal Revenue Service issued a favorable opinion letter with respect to the qualified tax status of the Plan's prototype form under Section 401(a) of the IRC and the Plan's compliance with the requirements of ERISA. The Plan is therefore exempt from federal income taxes under the provisions of Section 501(a) of the IRC. Although the Plan has not filed for its own determination letter and it has been amended since receiving the favorable opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, an evaluation is required to be made of all Plan assets, and an allocation made to participants. All participants would become fully vested in the event of termination.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee, custodian, and recordkeeper of the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. These loans are also considered to be a party-in-interest transaction.

The records of the Plan from the trustee indicate that all party-in-interest transactions noted above have a statutory or administrative exemption.

NOTE 6 - INFORMATION CERTIFIED BY THE PLAN CUSTODIAN (UNAUDITED)

Investments in participant directed accounts, as certified by the custodian, are stated at fair value. Market prices are used to value investments. Shares of mutual funds are valued at quoted prices which represents the net asset value of shares held by the Plan. All information on the participant directed funds included in the accompanying financial statements and supplementary schedule have been prepared from information provided by the custodian. The Plan administrator has obtained certifications from the custodian that the information is complete and accurate.

NOTE 7 - INVESTMENTS

NOTE 9 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

NOTE 9 - FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money market accounts: Highly liquid instruments purchased with an initial maturity of three months or less and considered to be cash equivalents valued using Level 1 inputs.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

NOTE 9 - FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total

Assets at fair value	$ 10,118,376	$ -	$ -	$ 10,118,376

NOTE 10 - SUBSEQUENT EVENTS

The Plan evaluated all subsequent events through October 11, 2013, the date at which the financial statements were available to be issued. The Plan is not aware of any significant events that occurred subsequent to the date of the Statements of Net Assets Available for Benefits, but prior to October 11, 2013, that would have a material impact on its financial statements.

LASERFICHE 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Laserfiche 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established in 1997 and has been further amended as mandated by federal law. It is a defined contribution 401(k) plan that covers eligible employees of Laserfiche/Compulink Management Center, Inc., (the "Employer" or the "Company") who have completed three months of continuous service, and are age twenty-one or older. Eligible employees may join the Plan at the beginning of each month.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration of Plan Assets

Fidelity Management Trust Company ("Fidelity") is the custodian, trustee, record-keeper, and third party administrator of the Plan. The general duties of the custodian are to hold and manage the Plan's assets, which consist of investments in registered investment companies. Fidelity receives contributions from the Company, invests cash received, allocates interest and other investment income and makes distributions to participants. Fidelity also administers the repayment of interest and principal on participant loans, which is remitted to Fidelity when withheld from the employees. The trustee is responsible for investment decisions of the Plan. The Company's Chief Financial Officer is the Plan administrator. The general duties of the administrator are to administer the Plan in accordance with Plan rules and ensure compliance of the Plan with ERISA, as amended.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Contributions

Participant contributions are based upon an elected percentage. The Plan allows participants to contribute, on a pre-tax basis, an amount subject to an annual limit of the lesser of $17,000 or 60% of eligible compensation, in accordance with Section 401(k) of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $5,500 in 2012. The Plan allows participants to make additional deferral contributions from 1% to 100% of any employer cash bonus paid during the plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and money market accounts as investment options for participants.

Participants who meet the eligibility requirements and make deferral contributions are entitled to receive discretionary matching employer contributions. The Company contributes 50% of the first 15% of base compensation that a participant contributes to the Plan.

Participant Accounts

Each participant's account is credited with the participant’s contribution and allocations of the Company’s discretionary contributions and Plan earnings (losses), and charged with administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their rollover contributions, deferral contributions, qualified nonelective contributions, and any earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of credited service. Participants vest 20% per year beginning after the second year of service and become fully vested after six years of credited service.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

On termination of service due to death, disability, retirement or termination of employment, a participant may elect to (a) receive a lump sum non-rollover distribution equal to the participant's vested interest in his or her account, (b) rollover distributions directly into an individual retirement account ("IRA") or a new employer's qualified retirement plan, (c) receive a combination of both non-rollover and rollover distributions, or (d) defer receipt of distribution until a later date.

If a participant's vested benefit is less than $1,000, a lump sum distribution from the Plan will be made by the employer without the participant's consent. Minimum required distributions will be made no later than April 1st following the calendar year in which a participant attains age 70 1/2, unless they are still employed and elect to defer minimum distributions. Withdrawals may also be made for financial hardships, which is determined pursuant to the provisions of the IRC and the plan document.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of 50% of their vested account balance, not to exceed $50,000. The loans are secured by the balance in the participant's account and bear interest at rates prevailing at the date the loan is made and is fixed over the life of the loan. Loans must be repaid over a five year period unless it is for the purchase of a principal residence, in which case the loan repayment may not extend beyond ten years from the date of the loan.

Forfeited Accounts

Forfeitures of terminated participants' non-vested accounts may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future Employer contributions. At December 31, 2012, forfeited non-vested accounts totaled $71,165. The employer contribution receivable has been reduced by this amount. A total of $97,040 of forfeited funds were used to offset 2011 Employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments, which includes the realized gains or losses and unrealized appreciation (depreciation) on those investments.

Expenses of the Plan

The Company pays certain administrative expenses of the Plan, while other expenses including loan-related fees are paid by the Plan. Management fees and other transaction costs associated with the investment options are included by the trustee in net appreciation (depreciation) in fair value of investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the Statement of Net assets Available for Benefits.

Contributions

Participant contributions are recorded in the year withheld from earnings of Plan participants. Company match and discretionary contributions are recorded in the year which they become an obligation of the Company.

Benefit Payments

Benefit payments are recorded when paid to participants.

NOTE 3 - TAX STATUS OF THE PLAN

On March 31, 2008, the Internal Revenue Service issued a favorable opinion letter with respect to the qualified tax status of the Plan's prototype form under Section 401(a) of the IRC and the Plan's compliance with the requirements of ERISA. The Plan is therefore exempt from federal income taxes under the provisions of Section 501(a) of the IRC. Although the Plan has not filed for its own determination letter and it has been amended since receiving the favorable opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, an evaluation is required to be made of all Plan assets, and an allocation made to participants. All participants would become fully vested in the event of termination.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee, custodian, and recordkeeper of the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. These loans are also considered to be a party-in-interest transaction.

The records of the Plan from the trustee indicate that all party-in-interest transactions noted above have a statutory or administrative exemption.

NOTE 6 - INFORMATION CERTIFIED BY THE PLAN CUSTODIAN (UNAUDITED)

Investments in participant directed accounts, as certified by the custodian, are stated at fair value. Market prices are used to value investments. Shares of mutual funds are valued at quoted prices which represents the net asset value of shares held by the Plan. All information on the participant directed funds included in the accompanying financial statements and supplementary schedule have been prepared from information provided by the custodian. The Plan administrator has obtained certifications from the custodian that the information is complete and accurate.

Total contributions per Form 5500	$ 1,437,274

NOTE 9 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

NOTE 9 - FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money market accounts: Highly liquid instruments purchased with an initial maturity of three months or less and considered to be cash equivalents valued using Level 1 inputs.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

NOTE 9 - FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual funds				
Stock/equity funds	$ 9,509,572	$ -	$ -	$ 9,509,572
Bond/fixed income funds	986,026	-	-	986,026
Money market funds	1,451,899	-	-	1,451,899
Assets at fair value	$ 11,947,497	$ -	$ -	$ 11,947,497

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

Bond/fixed income funds	769,693	-	-	769,693

Assets at fair value	$ 10,118,376	$ -	$ -	$ 10,118,376

NOTE 10 - SUBSEQUENT EVENTS

The Plan evaluated all subsequent events through October 11, 2013, the date at which the financial statements were available to be issued. The Plan is not aware of any significant events that occurred subsequent to the date of the Statements of Net Assets Available for Benefits, but prior to October 11, 2013, that would have a material impact on its financial statements.
