NOTE 1 - DESCRIPTION OF PLAN

The following description of the Pet Supermarket, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established effective January 1, 1997.

The Plan is a defined contribution 401(k) savings and profit sharing plan covering all employees who have completed 1,000 hours of service during a one-year time period and are age twenty one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Contributions to the Plan consist of the following:

1. Voluntary employee deferral contributions up to the maximum established by Internal Revenue Service (the "IRS").

2. Participants age 50 or older are permitted to defer "catch-up" contributions under Internal Revenue Code (the "IRC") Section 414(v) which are not to exceed a $5,000 limit.

3. Pet Supermarket, Inc. (the "Company") contributes a match contribution of 25% of salary deferrals up to 5% of compensation.

4. The Company may contribute a profit sharing contribution at the discretion of the board of directors.

5. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

Participant Accounts: Each participant's account is credited with the participant's contribution, and an allocation of (a) the Company's contributions, (b) Plan Earnings, and is charged with his or her withdrawals and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Allocations: Company matching contributions are fixed up to 25% of salary deferrals up to 5% of compensation. Discretionary non-elective contributions are allocated in the ratio that each participant's compensation bears to total eligible compensation of all participants for the Plan year. Additional non-elective contributions may be made. For 2009, no non-elective contribution was made.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participant elective contributions are 100% vested at all times.

Participants' shares of matching and non-elective contributions are subject to the following vesting schedule:

Years of Service	Percent Vested
1	0
2	20
3	40
4	60
5	100

Payment of Benefits: On termination of service, the Plan provides that the form of payment shall be either a lump sum or installment payments (annually, quarterly, or monthly) over a period of not more than the participant's assumed life expectancy (or the participant's and the participant's beneficiary's assumed life expectancies). The Plan also allows for hardship withdrawals in certain circumstances.

Forfeitures: Forfeitures are first used to pay plan expenses and then to reduce employer matching and non-elective contributions for the Plan year following the Plan year in which the forfeitures occur. At December 31, 2009 and 2008 forfeited non-vested accounts totaled approximately $3,022 and $2,406, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Any gain or loss resulting from the sale of fund units is determined as the difference between the sale proceeds and the cost of units sold. Investment income is recorded on the accrual basis.

Estimates: The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. .

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses: Certain costs incurred in the administration of the Plan have been paid by the Company.

Payment of Benefits: Benefits are recorded when paid.

Risk and Uncertainties: The Plan provides for certain investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, liquidity, market. And credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code

NOTE 4 - INVESTMENTS - UNAUDITED INFORMATION

John Hancock Life Insurance Company (U.S.A), the custodian of the Plan holds investment assets and executes transactions therein and substantially all information pertaining to the Plan's investments included in the financial statements has been certified by them. This information has not been audited by independent accountants.

The following presents the fair values of investments that represent 5% or more of the Plan's net assets available for benefits:

	2009	2008
Pooled separate accounts at estimated fair value:		
John Hancock Life Insurance Co. Lifestyle Balance	$1,009,291	$ 691,879
John Hancock Life Insurance Co. Lifestyle Growth	776,456	575,162
John Hancock Life Insurance Co. Lifestyle Aggressive	310,797	221,024
John Hancock Life Insurance Co. Money Market Fund	424,543	424,742
John Hancock Life Insurance Co. Lifestyle Moderate	254,630	153,629

The Plan's investments (including investments bought and sold, as well as held during the year) appreciated in value by $893,682 for the year ended December 31, 2009, which was all attributed to pooled separate accounts. During the year ended December 31, 2009, the Plan had interest income of $1,330.

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions bout the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Pooled separate accounts: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). Each of the pooled separate accounts invests in a single, open-ended mutual fund which is generally identified in the name of the pooled separate account. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

Investment contracts: The fair values of the Plan's investment contracts are estimated based upon the liquidation values of contracts, as determined by the contracts' termination provisions, since the contracts are not transferable (level 3 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value of reflective of future fair values. Furthermore, while the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
