Note 1 - Description of the Plan

The following description of the Bonita Packing Co./Betteravia Farms New Comparability Profit Sharing 401(k) Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions. This plan is available to employees of the related companies of Bonita Packing Co., Betteravia Farms, LLC, Boni Fresh Readi-Cut Vegetables, LLC and Oceano Farming Co.

General

The plan is a defined contribution plan covering all non-union employees of the companies who have one year of service and are eighteen or older. It is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA). The effective date of the plan was July 1, 1998.

The plan was restated on January 1, 2002 to meet the requirements of the Uruguay Round Table Agreements Act (GATT), Uniformed Services Employment and Employment Rights Act (USERRA), Small Business Job Protection Act (SBJPA), The Taxpayer Relief Act of 1997 (TRA '97), the Internal Revenue Service Restructuring and Reform Act of 1998 (RRA) and the Community Renewal Tax Relief Act of 2000 (CRA) collectively known as GUST.

The plan adopted a loan policy pursuant to the terms of the plan. Loans to participants are limited to 50% of their nonforfeitable accrued balance and are restricted to certain uses. The loans are secured by an irrevocable pledge and assignment of 50% of the nonforfeitable amount of the participant's account balance under the plan.

Contributions

Each year, the company will determine the amount of profit sharing contribution, if any, that will be contributed to the plan. This contribution is discretionary and will be made at the option of the Board of Directors.

Each year, participants may contribute up to 15% of pretax annual compensation, as defined in the plan. The company matches 25% of employee contributions up to 4% of compensation.

Participant Accounts

Each participant's account is credited with the participant's allocation of (A) the employee's 401(k) deferral, (B) the companies' 401(k) matching contribution, (C) the companies' discretionary profit sharing contribution, and (D) plan earnings and losses.

Vesting

Vesting is based upon years of service. A participant is 100% vested in employer contributions after 6 years of credited service, or upon early or normal retirement age. Employee contributions are 100% vested.

Note 1 - Description of the Plan (continued)

Payment of Benefits

On termination of service, a participant will receive a lump sum amount equal to the participant's vested value of his account.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $34,689 and $63,670, respectively. These accounts will be used to reduce future employer contributions. In 2009, employer contributions were reduced by $57,461 from forfeited nonvested accounts.

Note 2 - Summary of Accounting Policies

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Plan operating expenses are absorbed by the plan sponsor.

Risks and Uncertainties

The trust provides for various investment options in any combination of stocks, bonds, fixed-income securities, mutual funds and other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain

Note 2 - Summary of Accounting Policies (continued)

investment securities, it is at least possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net available for benefits.

Date of Management's Review

Subsequent events were evaluated through October 7, 2010, which is the date the financial statements were available to be issued.

Note 3 - Investment Contract with Insurance Company

In 1998, the plan entered into an investment contract with Manulife Financial Corporation. In April 2004, Manulife Financial Corporation acquired John Hancock Financial Services, Inc. As a result of this acquisition, the Manufacturers Life Insurance Company (Manulife USA) has changed to the John Hancock Life Insurance Company (USA) (John Hancock USA) name. John Hancock maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for plan withdrawals and investment expenses charged by John Hancock. Contract assets are reported at fair value. The fair value of the investment contract at December 31, 2009 and 2008 was $10,388,387 and $8,172,879, respectively.

Note 4 - Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the custodian of the plan:

	2009	2008
Investments, at fair value	$10,176,633	$7,968,905
Investment income (loss)	$2,441,842	($3,966,970)

Note 5 - Fair Value Measurements

The plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the

Note 5 - Fair Value Measurements (continued)

plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and level 3 inputs have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value. When available, the plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the plan at year-end.

	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2009

Note 9 - Tax Status

The plan obtained its latest opinion letter on December 5, 2002 in which the Internal Revenue Service Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.
