VERSAILLES UNION EMPLOYEES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE A--DESCRIPTION OF PLAN

The following brief description of the Versailles Union Employees 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

General: Effective January 1, 1998, Kuhlman Electric Corporation (the Company) adopted the Plan for the benefit of eligible union employees of the Company at the Versailles plant location. The Plan is subject to the provisions of Titles I, II and III of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is also subject to the Collective Bargaining Agreement effective February 27, 2000 with the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) and its affiliated Local No. 1772. The Company ceased significant operations at the Versailles plant location effective June 30, 2009. Effective December 31, 2009, the Plan was merged into the ABB Personal Retirement Income and Savings Management Plan for Certain Represented Employees of ABB Inc. and remaining Plan assets were transferred (see Note H).

Contributions: Each eligible employee may elect to have their employer make before-tax contributions to the Plan on their behalf through payroll deductions. Subject to the annual limitations established and adjusted from time to time by the Internal Revenue Service, the amount of before-tax contributions may be from 1% to 20% of compensation, in multiples of 1%, as the participant shall designate.

A participant may also make after-tax contributions to the Plan. Such after-tax contributions shall be in such amounts that the totals of after-tax contributions do not exceed 10% of compensation, and the amount of before-tax and after-tax contributions do not exceed 20% of a participant's compensation. After-tax contributions may be made alone or in addition to before-tax contributions and are not eligible for company matching contributions.

The Company may make a matching contribution to the Plan on behalf of each participant who makes before-tax contributions. For the 2009 Plan year, the Company contributed an amount equal to 20% of the participant's contribution up to 3% of their compensation, plus 15% of the participant's contribution between 3% and 6% of their compensation.

The Company will also make a long service contribution in the amount of \$275 per year beginning with the Plan year after a participant attains 31 years of credited company service, as defined in the union bargaining agreement. The Company will also contribute \$275 to the account of employees (covered by the Collective Bargaining Agreement) who were hired on or after February 28, 1994 and have two or more years of service with the Company as of each March 1st. Contributions will continue to be made annually (each March 1st or as soon thereafter as possible) as long as the individual is an employee of the Company and covered by the union bargaining agreement.

The Company may also make an additional discretionary contribution to the Plan. Eligible participants, as defined in the Plan, who made before-tax contributions in any one quarter of the fiscal year to which this discretionary contribution applies would be eligible to receive an allocation. The allocation of the contribution is to be made on a pro-rata basis among the eligible participants based upon the number of quarters during the Plan year in which that participant made before-tax contributions. There was no additional discretionary company contribution for the 2009 Plan year.

NOTES TO FINANCIAL STATEMENTS--CONTINUED

NOTE A--DESCRIPTION OF PLAN--CONTINUED

Participant Accounts: Each participant account shall be credited with the applicable contributions, earnings, losses, expenses and distributions. As defined in the Plan, earnings and losses shall be allocated based upon the ratio that the participant account bears to the total of all participant accounts.

Vesting: A participant shall always be 100% vested in their entire account balance.

Loans to Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 (as defined in the Plan) or 50% of their account balance. Loan repayment terms are not to exceed 5 years unless utilized for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest, as determined by the administrative committee. Principal and interest is paid ratably through payroll deductions, however, lump sum payoffs are permitted. Interest rates in effect during the 2009 Plan year for loans outstanding ranged from 3.25% to 9%.

Plan Benefits: Upon a participant's retirement (age 65), death, or other termination of employment with the Company, the participant or their beneficiary, as the case may be, shall be entitled to a distribution of the vested value of their accounts, subject to the provisions of the Plan. The distribution shall be in a lump sum entirely in cash.

A participant who has attained the age of 59 ½ may elect to withdraw all or a portion of the value of such participant's accounts.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

FASB Codification: In June 2009, the Financial Accounting Standards Board (FASB) issued SFAS No. 168, entitled The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (GAAP). In substance, SFAS No. 168 makes the FASB Accounting Standards Codification (ASC) the sole source of authoritative accounting technical literature for nongovernmental entities. All accounting guidance that is not included in the ASC now is considered to be non-authoritative. The ASC is effective for interim and annual reporting periods ending after September 15, 2009. The Plan adopted the ASC upon issuance, with no material impact to the financial statements.

NOTES TO FINANCIAL STATEMENTS--CONTINUED

December 31, 2009 and 2008

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--CONTINUED

Fair Value Measurements and Disclosures: In April 2009, the FASB issued guidance that reaffirms that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. It also emphasizes the need to use judgment in determining if a formerly active market has become inactive and in determining fair values when the market has become inactive. This guidance also expands disclosures and requires that major category for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. This guidance is effective for periods ending after June 15, 2009. The adoption did not have a material impact on the Plan's financial statements.

In September 2009, the FASB issued guidance which provides a practical expedient for measuring the fair values of Plan investments in a limited number of entities that calculate a net asset value per share (such as hedge funds, private equity funds, funds of funds, and certain collective trusts, and pooled separate accounts). This guidance also requires additional disclosures of the attributes of these investments. The guidance is effective for periods ending after December 15, 2009. The adoption did not have a material impact on the Plan's financial statements.

Valuation of Investments and Income Recognition: The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. The Plan offers a common/collective trust option, the Fidelity Managed Income Portfolio (MIP), which is a common/collective trust that invests in fully benefit-responsive investment contracts. The statement of net assets available for benefits at December 31, 2008 presents the fair value of the investment in the common/collective trust as well as the adjustment of the investment from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Management fees and operating expenses charged to the Plan for investments in the common/collective trust and mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan's management evaluated subsequent events through July 20, 2010, the date on which the financial statements were available to be issued and no additional disclosures were required.

NOTE D--FAIR VALUE MEASUREMENTS

The Plan adopted the fair value provisions of the ASC effective January 1, 2008. These provisions define fair value as the price that would be received to sell the asset or paid to transfer the liability to a market participant. They also establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include the following categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data, such as quoted prices for similar assets or liabilities or model-derived valuations.
- Level 3: Unobservable inputs that are not corroborated by market data. These inputs reflect a company's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Mutual Funds: These investments are valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is derived by the quoted prices of the underlying investments.

Common/Collective Trust: These investments are valued at the net asset value (NAV) of units held by the Plan at year end provided by Fidelity. The NAV is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Loans to Participants: Loans to participants are valued at their outstanding balances which approximates fair value.
