NOTE A - PLAN DESCRIPTION

The following description of the Celebration Restaurant Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan's prototype plan and adoption agreement for a more complete description of the Plan's provisions.

Effective December 31, 2012, the Plan was amended changing the name of the Plan from CFL Pizza 401(k) Plan to Celebration Restaurant Group 401(k) Plan.

1. *General*

The Plan, established July 1, 2010, is a defined contribution plan covering all employees of Celebration Restaurant Group, LLC (the Company) who have been employed for one year or more, have 1,000 or more hours of service and are 21 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

2. *Contributions*

Participants may elect to make pretax contributions to the Plan up to 100% of their eligible compensation subject to the maximum amount allowed by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 before the end of the Plan year may elect to make catch-up contributions to the Plan.

The Plan provides for matching contributions at the Company's discretion. No discretionary matching contributions were made by the Company in 2012.

3. *Vesting*

Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Vesting in Company contributions, none have been made as of December 31, 2012, plus earnings thereon is based on years of service, as follows:

Years of vesting service	Vesting percentage
Less than 1	0%
1	25
2	50
3	75
4 or more	100

4. *Participant accounts*

Each participant's account is credited with the participant's contribution, the Company's matching contribution, if any, investment income (loss), and an allocation of administrative expenses. Investment income is allocated based upon the performance of the funds held in each participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - PLAN DESCRIPTION - Continued

5. *Investment options*

Participants may direct their accounts to be invested in one or any combination of various funds offered by the Plan. Participants may change their investment options at their discretion.

6. *Payment of benefits*

Participants are eligible to receive benefits upon attaining the age of 59½, retirement, death, or termination of employment. In addition, participants may elect in-service distributions, including financial hardship withdrawals, as defined by the Plan. Benefits may be paid in lump-sum amount equal to the value of the participant's vested account or in monthly installments over the participant's life, a fixed period of time or other similar options.

7. *Forfeitures*

Forfeited contributions are used to reduce the Company's contribution to the Plan or pay administrative expenses. There were no unallocated forfeitures at December 31, 2012 and 2011.

8. *Notes receivable from participants*

Participants may obtain loans in amounts of $1,000 up to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at a fixed rate similar to the rates available from commercial lending institutions for similar loans. They are repayable over a term not to exceed five years. The interest rate was 5.25% at December 31, 2012 and 2011. Principal and interest are paid ratably through payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. *Basis of accounting*

The accompanying financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits are required to present fully benefit responsive investment contracts at fair value as well as the adjustment required to adjust to contract value. The Plan invests in the Principal Stable Value Fund (SVF). As the underlying assets of the SVF are fully benefit responsive, the investment in the funds are required to be reported at fair value with an adjustment to contract value. As the fair value of the SVF approximated contract value at both December 31, 2012 and 2011, no adjustment is reflected on the statements of net assets available for benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

2. *Use of estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. *Notes receivable from participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

4. *Refundable excess contributions*

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 and 2011 excess contributions to the applicable participants in February 2013 and February 2012, respectively.

5. *Administrative expenses*

Certain administrative expenses of the Plan are paid by the Company.

6. *Investment valuation and income recognition*

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note E for discussion of fair value measurement). The fair value of the Plan's interest in the collective investment trust is based on the current market values of the underlying assets of the trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

7. *Payment of benefits*

Benefits are recorded when paid.

8. *Subsequent events*

The Plan has evaluated and disclosed subsequent events, if any, through September 27, 2013, which represents the date the financial statements were available to be issued.

NOTE C - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal Life Insurance Company (PLIC). PLIC is also the custodian for these investments, therefore these transactions qualify as party-in-interest transactions. Administrative fees paid to PLIC totaled $4,665 for the year ended December 31, 2012.

NOTE D - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2012	2011
** Inflation Protection Separate Account	$ *	$ 25,256
** Principal LifeTime 2025 Separate Account	66,197	44,632
** Principal LifeTime 2030 Separate Account	33,908	22,018
** Principal LifeTime 2035 Separate Account	40,819	24,467
** Principal LifeTime 2040 Separate Account	45,057	*
** Principal LifeTime 2045 Separate Account	63,831	41,189
** Principal Stable Value Fund	96,300	76,315

* Represents less than 5% of the Plan's net assets
** Party-in-interest transaction

NOTE E - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets.
  - Quoted prices for identical or similar assets or liabilities in inactive markets.
  - Inputs other than quoted prices that is observable for the asset or liability.
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE E - FAIR VALUE MEASUREMENTS - Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Insurance company pooled separate accounts
Valued at the net asset value (NAV) of the shares held by the Plan at year-end, which is determined based on the fair value of the underlying investments. The Financial Accounting Standards Board (FASB) issued guidance on estimating the fair value when investments are calculated using NAV per share, but do not have a readily determinable fair value. The guidance permits the use of the NAV of the investment as a practical expedient to determine the fair value.

Collective investment trusts - stable value fund
Investments in collective investment trusts that invest in fully benefit-responsive investment contracts are carried at net asset value (NAV) per unit as determined by the trust. The NAV is computed based upon the fair values of the underlying assets held by the trust. As discussed in note B1, investment contracts are required to be reported in the financial statements at fair value. An adjustment to the calculated NAV to reflect NAV based upon contract value of the underlying investments has not been made as the difference is not significant.

Shares of the collective investment trusts and insurance company pooled separate accounts are issued and redeemed daily at the NAV dollar amount per share. Investments in the funds allow for daily liquidity with no additional days notice required for redemption for participant initiated transactions. There are no unfunded commitments or restrictions on redemption.

The strategies of the collective investment trusts and insurance company pooled separate accounts are as follows:

Bond funds	Maximum total return with emphasis on current income
Balanced funds	Long-term total return
Large cap funds	Long-term capital appreciation, investing primarily in domestic equity securities of large companies
Mid cap funds	Long-term capital appreciation, investing primarily in domestic equity securities of mid-sized companies
Small cap funds	Long-term capital appreciation, investing primarily in domestic equity securities of small companies
Specialty funds	Capital appreciation and total return through real estate securities
International equity funds	Capital appreciation in foreign securities
Stable value fund	Highest level of current income while still maintaining liquidity and preserving capital

NOTE E - FAIR VALUE MEASUREMENTS - Continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

	Investments at fair value as of December 31, 2012

NOTE F - INFORMATION CERTIFIED BY CUSTODIANS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following data in the accompanying financial statements and supplemental schedules have been certified as complete and accurate by PLIC for the pooled separate accounts of the Plan and PLIC, on behalf of Union Bond and Trust, for the SVF of the Plan (collectively, the "Custodians"):

- Investments as shown in the statements of net assets available for benefits as of December 31, 2012 and 2011.
- Investment income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2012.
- Schedule H, Line 4i - schedule of assets (held at end of year), December 31, 2012, excluding notes receivable from participants.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE G - PLAN TERMINATION

Although it has expressed no intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

NOTE H - TAX STATUS

The IRS has issued a letter dated March 31, 2008, stating the form of plan adopted by the Company qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to income tax examinations for the years 2010 through 2012.

NOTE J - RISKS AND UNCERTAINTIES

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.
