1. Description of the Plan

The following description of the Cherokee Information Services, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Cherokee Information Services, Inc. (the "Employer") who are at least 21 years old, except for leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Plan allows for discretionary matching and profit sharing contributions. Employees are eligible for discretionary employer contributions commencing on January 1 or July 1 after completing 1,000 hours of service. In addition, participants must complete at least 1,000 hours of service during the Plan year and be employed on the last day of the Plan year to receive an allocation of any discretionary profit sharing contribution. During 2012, the Employer contributed a discretionary matching contribution of 25 percent of the first 15 percent of compensation that a participant contributed to the Plan. There were no discretionary profit sharing contributions for the Plan year ended December 31, 2012. Contributions are subject to certain limitations.

Investment options: Participants may direct the investment of their account balance into various investment options offered by the Plan. The Plan currently offers 53 pooled separate accounts and various guaranteed interest accounts as investment options for participants. Participants may change their investment directions at any time, subject to such restrictions and procedures as established by the recordkeeper, Plan and Employer.

Participant accounts: Each participant's account is credited with the participant's contributions, the Employer's discretionary matching contributions, if any, as well as allocations of the Employer's discretionary profit sharing contribution, if any, and Plan earnings. Investment earnings and losses are allocated based upon the investment performance of each investment in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer contributions is based on years of continuous service of at least 1,000 hours per year. A participant is 20 percent vested after two years of service is completed, and vests an additional 20 percent per year until full vesting after six years.

Forfeited accounts: At December 31, 2012 and 2011, forfeited nonvested accounts totaled $0 and $624, respectively. These accounts will be used first to pay Plan expenses, then to reduce future Employer contributions. During 2012, $38,369 of forfeited accounts were used to reduce Employer contributions and no accounts were used to pay Plan expenses.

Payment of benefits: Benefits are payable upon retirement at the later of age 65 or the 5th anniversary of the participant's plan entry date, disability, death, or termination of employment. Hardship withdrawals and in-service withdrawals at normal retirement age are also permitted, subject to provisions described in the Plan document. Benefits are payable in lump sum payments.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate comparable to other lending institutions. Principal and interest are paid through payroll deductions.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Employer. Transaction expenses, such as loan and distribution administration fees, are charged directly to the participant's account and are included in administrative expenses.

2. Significant accounting policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Excess contributions payable: Excess contributions payable to participants represents amounts originally contributed by or on behalf of participants that must be returned to the participants for the Plan to comply with the Internal Revenue Service nondiscrimination requirements. These amounts are recorded as a liability with a corresponding reduction to contributions.

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan has evaluated subsequent events for disclosure in these financial statements through January 15, 2014, which is the date the financial statements were available to be issued.

3. Certified information

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.), the insurance company, has certified as to the completeness and accuracy of all investment balances, related investment activity, notes receivable from participants, and related interest income from notes receivable from participants reflected in the accompanying financial statements and supplemental schedules, summarized as follows:

	2012	2011
Total investments	$ 9,545,171	$ 8,421,382
Notes receivable from participants	$ 42,538	$ 51,840

Guaranteed interest accounts	6,476

At December 31, 2012 and 2011, the individual investments that represented five percent or more of the Plan's net assets were as follows:

	2012	2011
Oppenheimer Developing Markets	$ **686,323**	$ 639,392
Lifestyle Balanced	**1,076,359**	911,599

Lifestyle Aggressive	**685,388**	538,563

* Indicates investment did not exceed five percent of net assets at this date.

4. Fair value measurements

The Plan reports its assets at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

The fair value of the units of pooled separate accounts is based on the net asset value ("NAV") on the last business day of the Plan year provided by the entity holding the accounts. The NAV is used as a practical expedient to estimate fair value and is determined by John Hancock Life Insurance Company (U.S.A.) based on the fair value of the underlying assets in the accounts, less liabilities.

The Guaranteed Interest Accounts ("GIA") provide a guaranteed interest rate for a specific period of time and invest in a General Account of John Hancock Life Insurance Company (U.S.A.). Due to the fact that the GIA do not provide for full repayment of principal and interest for certain withdrawals and transfers, the GIA are not considered to be fully-benefit responsive and are, therefore, reported at fair value. John Hancock Life Insurance Company (U.S.A.) estimates fair value by calculating a market value adjustment based on the difference between the current interest rate that would be earned by GIA with the same risk factors and the actual interest rate being earned by the Plan's GIA.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value of assets is as follows:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Asset allocation	$ -	$4,007,525	$ -	$ 4,007,525
Aggressive growth	-	1,783,112	-	1,783,112
Conservative	-	325,575	-	325,575
Growth	-	1,208,211	-	1,208,211
Growth and income	-	1,260,011	-	1,260,011
Income	-	642,175	-	642,175
Total pooled separate accounts	-	9,226,609	-	9,226,609
Guaranteed interest accounts	-	318,562	-	318,562
Total assets at fair value	$ -	$9,545,171	$ -	$ 9,545,171

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Asset allocation	$ -	$3,090,234	$ -	$ 3,090,234
Aggressive growth	-	1,714,872	-	1,714,872
Conservative	-	447,093	-	447,093
Growth	-	1,099,010	-	1,099,010
Growth and income	-	1,153,440	-	1,153,440
Income	-	585,935	-	585,935
Total pooled separate accounts	-	8,090,584	-	8,090,584
Guaranteed interest accounts	-	330,798	-	330,798
Total assets at fair value	$ -	$8,421,382	$ -	$ 8,421,382

The investment objective of the growth and aggressive growth accounts is the long term growth of capital. Income accounts seek to maximize the return on investment. Asset allocation accounts seek a mix of growth of capital and reinvestment of income. Growth and income accounts seek long term growth of capital and income. The conservative account seeks maximum current income consistent with preservation of principal and liquidity by investing in high quality money market instruments.

Investments in all pooled separate accounts can be redeemed immediately at the current net asset value. There are no withdrawal limits, redemption frequency limits or redemption notice periods. There were no unfunded commitments for these investments as of December 31, 2012 and 2011.

5. Risks and uncertainties

The Plan provides for investments in various securities that are exposed to risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in future statements of net assets available for benefits.

6. Tax status

The Internal Revenue Service has determined and informed the Plan administrator by letter dated July 2, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan administrator evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken.

7. Party-in-interest transactions

Certain Plan investments are managed by affiliates of John Hancock Life Insurance Company (U.S.A.). John Hancock Life Insurance Company (U.S.A.) is the insurance company and recordkeeper as defined by the Plan. These transactions qualify as exempt party-in-interest transactions.

During 2012, the Company failed to remit to the insurance company certain employee contributions totaling $564 within the period prescribed by Department of Labor regulations. These delinquent remittances are considered nonexempt party-in-interest transactions.

8. Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

9. Reconciliation to Form 5500

The following is a reconciliation of amounts in the financial statements to Form 5500 as of December 31, 2012 and 2011 and for the year ended December 31, 2012:

10. Subsequent events

During 2013, the Employer lost a significant contract and as a result terminated the employees working on this contract. These terminations resulted in a partial plan termination. The affected terminated participants became 100 percent vested in all accounts.

The Plan was amended effective October 1, 2013 to allow credit for service with OST Global Solutions in satisfying the eligibility requirement to receive discretionary employer contributions.
