NOTES TO FINANCIAL STATEMENTS

TEXAS FARM PRODUCTS 401(k) PROFIT SHARING PLAN

JUNE 30, 2013

NOTE A - DESCRIPTION OF PLAN

The following brief description of the Texas Farm Products (Company) 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have ninety days of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute the Federal maximum allowed deferral limit of pretax annual compensation, as defined in the Plan. For calendar years 2013 and 2012, the maximum annual contribution allowed for each employee was $17,500 and 17,000, respectively ($23,000 and $22,500, respectively, for participants 50 or older). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent (50%) of the account balance. The loans are secured by the balance in the participant's account and bear interest at the current prime rate, as published in *The Wall Street Journal*. Principal and interest are paid ratably through payroll deductions or through other payment arrangements agreed upon by participants and Nationwide but not to exceed five years.

NOTE A - DESCRIPTION OF PLAN (continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

NOTE B - SUMMARY OF ACCOUNTING POLICIES (continued)

Payment of Benefits

Benefits are recorded when paid.

Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Company has evaluated subsequent events through January 15, 2014, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

The following presents investments that represent five percent (5%) or more of the Plan's net assets:

	2013	2012
Nationwide Money Market	$ 173,048	$ 73,836
Oppenheimer Developing Markets	*	40,301
Oppenheimer Equity Income	*	52,310
Oppenheimer Col Dividend	-0-	52,038
Vanguard Equity Income	57,685	52,095
WFA Prime Large Company Growth	-0-	51,603
Ivy Science and Tech Fund	64,674	-0-
American Century Disciplined Growth	63,161	-0-
American FDS New Economy	67,499	-0-

* Fund balance did not meet five percent (5%) threshold at June 30, 2013.

During the year ended June 30, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) appreciated in value by $103,304. Financial information relating to the Plan's investment assets held by Nationwide, included in the accompanying financial statements, is based on information certified as complete and accurate by Nationwide. That information includes investments, net appreciation in fair value of investments and interest income (See Note I).

NOTES TO FINANCIAL STATEMENTS - #4

TEXAS FARM PRODUCTS 401(k) PROFIT SHARING PLAN

JUNE 30, 2013

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2013:

	Assets at Fair Value as of June 30, 2013			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 1,009,423	$ -0-	$ -0-	$ 1,009,423
Total assets at fair value	$ 1,009,423	$ -0-	$ -0-	$ 1,009,423

	Assets at Fair Value as of June 30, 2012			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 823,190	$ -0-	$ -0-	$ 823,190
Total assets at fair value	$ 823,190	$ -0-	$ -0-	$ 823,190

NOTE E – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Nationwide. Nationwide is the custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) of fair value of investments.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

NOTE G - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTES TO FINANCIAL STATEMENTS - #6

TEXAS FARM PRODUCTS 401(k) PROFIT SHARING PLAN

JUNE 30, 2013

NOTE H- RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - DATA SUPPLIED BY THE PLAN'S CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure of ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained a certification from Nationwide, custodian of the Plan, as of and for the year ended June 30, 2013 and as of and for the period ended June 30, 2012, that the information provided to the Plan administrator is complete and accurate.

Summarized below is financial information certified to be complete and accurate by Nationwide:

- Investments, as shown in the statements of net assets available for benefits.
- Net investment appreciation/depreciation, as shown in the statement of changes in net assets available for benefits.
- Investment income, including interest income, as shown in the statement of changes in net assets available for benefits.

NOTE J - CHANGE IN PLAN YEAR END

Effective October 1, 2011, the Plan was amended to define a plan year as the twelve consecutive months beginning on July 1st and ending on June 30th. The result was a short plan year beginning on October 1, 2011 and ending on June 30, 2012. The plan year ended June 30, 2013 was the first plan year with twelve months of activity ending June 30th.
