Brookshire Brothers KSOP
Lufkin, Texas

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Brookshire Brothers KSOP (the Plan), which comprise the statements of net assets available for benefits as of April 27, 2013 and April 28, 2012, and the related statement of changes in net assets available for benefits for the year ended April 27, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified or provided by GreatBanc Trust Company (GreatBanc) and Delaware Charter Guarantee and Trust d/b/a Principal Trust Company (Principal), the trustees of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustees hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the trustees as of April 27, 2013 and April 28, 2012, and for the year ended April 27, 2013, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year), for the year ended April 27, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Brookshire Brothers KSOP (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: Brookshire Brothers Holding, Inc., formerly Brookshire Brothers Ltd, (Holding) established the Brookshire Brothers KSOP (KSOP) defined contribution Plan effective as of April 26, 1998 (as amended and restated April 26, 2009). The Plan operates as a leveraged ESOP and is designed to comply with the Internal Revenue Code (Code). It is also subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Effective April 26, 2009, the salary deferral accounts of the Brookshire Brothers 401(k) Plan were merged into the ESOP. Following the merger, the ESOP was amended and restated, effective April 26, 2009, to be known as the Brookshire Brothers KSOP. The KSOP was formed to administer the employer issued stock held by the ESOP and the participant directed investments previously administered through the Brookshire Brothers 401(k) Plan.

Plan assets consist of common stock of Holding (Employer Stock) and participant-directed 401(k) investment accounts. Plan accounts for participants with Employer Stock are called ESOP Accounts. During the year ended April 27, 2013, 93,561 shares of Employer Stock were distributed from the Plan to participants. During the period ending April 29, 2000, there were 600,182 shares transferred to the Plan from the Company's profit sharing plan (Profit Sharing Stock). Plan accounts for participants with Profit Sharing Stock are called Profit Sharing Accounts.

The Plan includes a participant directed 401(k) investment provision to allow employee contributions to participant directed accounts within the Plan. Each Plan year, the Company may make Matching Contributions (401(k) Match Accounts) in the form of Employer Stock or cash to match all or part of the elective contributions made of $.50 on the $1.00 up to a maximum of 6% of compensation. The match contribution of Employer Stock is valued based on prior year's Employer Stock value.

Qualifying participants receive allocations of matching contributions to their 401(k) Match Accounts in the form of Employer stock. During the year ended April 27, 2013, approximately 26,620 shares of Employer Stock were allocated to the 401(k) Match Accounts. The KSOP contribution is allocated to the eligible participants based on their eligible compensation. An employee qualifies to receive an allocation of the Company's matching contribution by making elective contributions during the Plan year and meeting the eligibility requirements for participation in the KSOP.

The borrowings by the Plan are scheduled to be repaid over a period of 20 years. As the Plan makes each payment, an appropriate percentage of stock will be released for allocation to eligible employees' accounts. The borrowing is collateralized by the unallocated shares of Employer Stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated under the KSOP.

The financial statements of the Plan for the years presented reflect separately the assets and liabilities and changes therein pertaining to:

(a) the accounts of employees with vested rights in allocated Employer Stock and Profit Sharing Stock (Allocated);
(b) Employer Stock not yet allocated to employees (Unallocated); and
(c) participant 401(k) accounts

The Plan is dependent on the Company's ability to provide contributions to the plan sufficient to service the debt of the plan (Note 10). The Company is primarily a retail grocery and petroleum chain with locations in East Texas and Western Louisiana. A significant downturn in those regions could have a material adverse affect on the Company, its stock value and its ability to repay the related debt.

Eligibility: Employees of the Company are eligible for participation for both 401(k) deferrals and for the employer contributions after completing 1,000 hours of service within twelve months of employment and attaining the age of 18 years. If not credited with 1,000 hours of service during this 12-month period, a year of eligibility service will be completed at the end of any Plan year (beginning after date of hire during which the employee is credited with at least 1,000 hours of service).

Only eligible participants who have completed a year of service during the Plan year and are actively employed on the last day of the Plan year shall be eligible to share in the discretionary contribution for the Plan year.

Notwithstanding the foregoing, eligible participants who completed a year of service during the Plan year but are not actively employed on the last day of the Plan year due to retirement (normal or late), total and permanent disability or death in the current Plan year and complete 1,000 hours during the Plan year shall share in the allocation of contributions for that Plan year.

Trust fund management: GreatBanc Trust Company (GreatBanc) is the Trustee of the stock accounts and the KSOP Administrative Committee is the Administrator of the Plan. Delaware Charter Guarantee and Trust d/b/a Principal Trust Company (Principal) is the Trustee of the 401(k) participant-directed accounts. The Trustees maintain custody of the Plan's assets and the Administrator maintains trust fund records on a Plan year basis.

Contributions: The Employer stock accounts are nonparticipant-directed and cover eligible employees of the Company. There are certain limitations on annual additions to a participant's account.

Dividend income received, if any, on Allocated and Unallocated Employer Stock may be used to repay the principal and interest on the borrowings. Shares released as a result of principal payments made with dividends earned on financed shares are allocated to participants' accounts in accordance with the Plan.

Dividends on Profit Sharing Stock, if any, will be allocated to participants with a profit sharing account and shall not be used to reduce the KSOP debt.

The Plan participants of the 401(k) directed accounts are allowed to voluntarily contribute from one to fifteen percent (1% to 15%) of their salaries to the participant-directed provision of the Plan. Participants may also contribute rollover amounts representing distributions from other qualified plans.

Participant investment options: Participants may direct their participant-directed salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time throughout the year via direct phone or internet access to Principal. Participant-directed accounts may be invested in a variety of pooled investments offered by Principal. Some of these pooled investments may be in stocks. Others may be in bonds, common collective trust or other types of investments.

Voting rights: Shares of Employer Stock Allocated to individual participants are to be voted by the participants on corporate matters involving approval or disapproval of any corporate merger or consolidation, recapitalization, liquidation, dissolution sale of substantially all assets of a trade or business or similar transaction as the Department of Treasury may prescribe in regulations. The Trustee shall vote on other corporate matters for Allocated Employer Stock and all matters for Unallocated Employer Stock.

Vesting: At the date of KSOP formation (April 26, 2009), each existing participant became 100% vested in their Employer Stock and 401(k) Matching account balances.

Participants who become eligible subsequent to KSOP formation become 100% vested upon attainment of normal retirement age, if five years of service has been achieved, or upon death or permanent disability. Plan accounts for such participants with Employer Stock vest in accordance with the following schedule.

Years of Service	Vesting Service Percentage
0-4 years	0%
5 years	100%

Subsequent to KSOP formation, 401(k) Match Accounts are 100% vested upon attainment of normal retirement age, if three years of service has been achieved, or upon death or permanent disability. Plan accounts for participants with 401(k) Match Accounts vest in accordance with the following schedule. A year of vesting service is a year in which the participant works at least 1,000 hours.

Years of Service	Vesting Service Percentage
Less than 3 years	0%
3 years	100%

Participants are immediately vested in their participant-directed 401(k) contributions plus actual earnings/losses thereon.

Distributions: The plan includes an automatic “Put Option” for KSOP Shares. This requires that Holding purchase the stock immediately upon distribution to beneficiaries at an independently determined fair market value. The plan can make discretionary cash-outs and lump sum payments of up to $50,000, amounts exceeding will be paid over an installment period; however the Company issues notes for balances exceeding $20,000. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash for KSOP Shares.

The Plan provides for payments of benefits to participants or their beneficiaries (i) upon participant's attainment of Normal Retirement Age per the Plan, (ii) in the event of total disability (as defined in the Plan), (iii) in the event of the participant's death, or (iv) in the event of termination of employment because of other reasons. The payment(s) can be in one lump sum, subject to Plan limitations, or over a period not longer than five years, with certain exceptions. Participants with balances that exceed $1,000 have the option of leaving funds invested in the Plan after termination of employment until April 1 following age 70½. Terminated employees that elect to leave funds invested in the Plan continue to share in the allocation of income earned on trust assets; however, none of the annual contributions made to the Plan are allocated to such employees. Terminated participants with balances that do not exceed $1,000 must take lump sum distributions.

Distributions from a participant's elective account may be made in one lump sum or request an annuity be purchased the term of which shall not exceed the participants life expectancy.

Retired participants generally must receive a distribution of their entire vested balance not later than the calendar year in which the participant attains age 70½.

Forfeitures: If a participant resigns or is dismissed from employment before completing the vesting period as described above, the nonvested Portion of the participant's account is forfeited at the date of termination. If the participant returns to employment after the one-year break in service but prior to five consecutive one-year breaks in service, then the amount initially forfeited will be restored to the participant's account through forfeitures and then contributions as necessary. Forfeited shares are reallocated to each participant. During 2013, 9,967 shares were forfeited, 9,269 of these shares were reallocated and 698 of these shares were reinstated. There were no unallocated forfeitures at April 27, 2013 or April 28, 2012.

Administrative expenses: Expenses incurred in the administration of the Plan may be paid from employee plan assets or directly by the Plan or Company. Administrative expenses and investment expenses paid by employee plan assets amounted to $159,522. Other administrative expenses for the 2013 plan year were paid by the Company.

Plan amendment: Effective May 1, 2011, compensation shall exclude fringe benefits, welfare benefits, and amounts paid as bonuses pursuant to Code Section 414(s) and the Regulations, there under. Compensation shall not include prizes or awards regardless of whether such prizes or awards are includible in the gross income of the Participant.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Participants who elect to diversify may elect to have the value (up to 50%) of the accounts transferred to another qualified plan.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting in all material respects.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The Plan relies significantly on the use of estimates in determining the valuation of Holding's common stock.

The Employer common stock is valued at fair value. Fair value is determined by the Trustee based on an annual independent appraisal for the Employer stock, which was $34.72 at April 27, 2013 and $32.94 at April 28, 2012.

Investment valuation and income recognition: The Plan's investments are measured at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Dividends on stock are recorded on the ex-dividend date, and purchases and sales are recorded on a trade date basis. The change in market value from year to year is reported as net appreciation/depreciation in fair value of investments, net of realized gains and losses. Realized gains and losses from security transactions are accounted for on the specific identification basis.

Fully benefit-responsive investment contracts: As described in FASB Accounting Standards Codification 962, *Plan Accounting – Defined Contribution Pension Plans*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by generally accepted accounting principles, the statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Payment of benefits: Benefits are recorded when paid.

Income taxes: Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for the years before 2009.

Fiscal year-end: The Plan's fiscal year ends on the last Saturday in April, resulting in years of either 52 or 53 weeks.

Recent accounting pronouncements: In May 2011, the FASB issued updated accounting guidance related to fair value measurements and disclosures that result in common fair value measurements and disclosures between U.S. GAAP and International Financial Reporting Standards. This guidance includes amendments that clarify the application of existing fair value measurement requirements, in addition to other amendments that change principles or requirements for measuring fair value and for disclosing information about fair value measurements. This guidance is effective for annual periods beginning after December 15, 2011. The adoption of this guidance did not have a material effect on the Plan's financial statements.

In July 2013, the FASB issued Accounting Standards Update No. 2013-09, *Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04*, which was effective upon issuance. The amendments in this ASU defer indefinitely the effective date of certain required disclosures in Update No. 2011-04 (Topic 820) of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The amendments in this Update do not defer the effective date for those certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. Update No. 2013-09 has been adopted and reflected in Note 7.

Subsequent events: The Plan management has evaluated subsequent events through February 7, 2014, the date the financial statements were available to be issued.

Note 3. Plan Termination

Subject to the repayment of the secured loan, the Company shall have the right at any time to terminate the Plan subject to the provisions of ERISA. Upon any full or partial termination, all amounts credited to the affected participants' accounts shall become 100% vested and shall not thereafter be subject to forfeiture, and all unallocated amounts shall be allocated to the accounts of all participants in accordance with the provisions of the Plan.

Note 4. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 12, 2008 that the Plan and related trust are qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. An application for a determination letter for the KSOP was filed with the Internal Revenue Service on June 21, 2010 with a letter acknowledging the receipt of the application by the Internal Revenue Service received on July 6, 2010.

Note 5. Investments

The following table presents investments that represent five percent (5%) or more of the Plan's net assets:

	2013		2012	
	Allocated	**Unallocated**	Allocated	Unallocated
Number of shares	**$ 1,878,961**	**$ 625,067**	$ 1,871,162	$ 747,864
Market	**65,237,525**	**21,702,325**	61,636,077	24,634,637

Stock accounts: Allocated shares include 1,681,854 and 1,651,168 shares of KSOP Stock and 197,107 and 219,994 shares of Profit Sharing Stock at April 27, 2013 and April 28, 2012, respectively. During the year ended April 27, 2013, the Employer stock appreciated in value by $4,457,169.

During the year ended April 27, 2013, the Plan's investments (including gains and losses on investments, other than Employer stock, bought and sold during the year) appreciated in value by $1,737,788 as follows:

Pooled separate accounts	$ 1,717,554
Common collective trust	20,234
	$ 1,737,788

Note 6. Certified Investment Information

As of April 27, 2013 and April 28, 2012, GreatBanc was the Trustee for the Employer stock and Principal was the Trustee for the Plan's 401(k) participant-directed accounts.

The following is information certified by the trustees as of and for the year ending April 27, 2013:

	GreatBanc	Principal	Total
Total assets certified by the trustees:			
Employer common stock	$ 86,939,850	$ -	$ 86,939,850

Note 7. Fair Value Measurements

ASC 820, *Fair Value Measurement and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 27, 2013 and April 28, 2012.

Common stocks: Self-directed brokerage accounts include primarily investments in common stocks. These investments are valued at the closing price reported on the active market on which the individual securities are traded.

Pooled separate accounts (PSA): Valued based on the net asset value (NAV) of shares held by the Plan based on the market value of its underlying investments as determined by Principal Life Insurance Company.

Common collective trust: Valued based on the net asset value (NAV) of shares held by the Plan based on the market value of its underlying investments as determined by the trustees.

Investment in employer common stock: Valued by the trustee based on an annual independent appraisal. The appraiser utilizes a combination of a market approach and income approach to determine the fair value of the stock. The income approach uses a discounted cash flow model based on the financial statements of the Plan Sponsor, adjusted for extraordinary items. The market approach compares the Sponsor to similar companies in the same industry. Both the market approach and income approach are weighted equally and combined to determine the fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of April 27, 2013 and April 28, 2012.

	Fair Value Measurements at Reporting Date Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Commercial real estate	46,674	-	46,674	-
Collective investment trust:				
Stable value	2,221,622	-	2,221,622	-
Investment in employer common stock	86,270,714	-	-	86,270,714
Total investments at fair value	$ 105,384,331	$ 129,803	$ 18,983,814	$ 86,270,714

Changes in fair value: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changed in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended April 27, 2013, there were no transfers in or out of level 3.

Level 3 gains and losses: The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended April 27, 2013.

	Level 3 Assets Investment in Employer Stock
Balance, beginning of year	$ 86,270,714
Net appreciation in fair value of investments	4,457,169
Distributions	(3,788,033)
Balance, end of year	**$ 86,939,850**

The following table presents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value, and the significant unobservable inputs used to value the financial instruments:

Instrument	Fair Value	Valuation Techniques	Unobservable Input
Employer common stock	$ 86,939,850	Discounted cash flow (income approach)	Discount rate Projected debt free cash flows Weighted average cost of capital and terminal growth rate
		Guideline public company method (market approach)	Price multiples from comparable companies Minority interest and lack of marketability adjustments

Note 8. Fair Value of Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)

The following table sets forth additional disclosures of the Plan's investments, whose fair value is estimated using net asset value (NAV) per share (or its equivalent) as of April 27, 2013 and April 28, 2012:

	Fair Value		Unfunded	Redemption	Redemption
	2013	2012	Commitment	Frequency	Notice Period
Pooled separated accounts:					
Balanced/asset allocation (a)	**$ 14,884,300**	$ 13,279,295	-	Daily	None
Fixed income (b)	**1,360,391**	1,090,200	-	Daily	None
International equity (c)	**464,639**	445,025	-	Daily	None
Large U.S. equity (d)	**1,183,158**	882,059	-	Daily	None
Small/mid U.S. equity (e)	**1,204,623**	1,018,939	-	Daily	None
Commercial real estate (b)	**109,403**	46,674	-	Daily	None
Common collective trust (f)	**2,419,354**	2,221,622	-	Daily	None
	$ 21,625,868	$ 18,983,814			

Investments in the pooled separate accounts and common collective trust can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of the investments in the above categories has been estimated using the net asset value per share of the investments.

(a) This asset class is generally comprised of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

(b) This asset class is generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non- U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. All investment options in this category have the potential to lose value.

(c) This asset class is comprised of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(d) This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(e) This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(f) This asset class is generally composed of investments in conventional, synthetic and separate account investment contracts (collective contracts) issued by life insurance companies, banks and other financial institutions. The objective of the fund is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability and predictability of returns, and liquidity to pay plan benefits and high credit quality. All investment options in this category have the potential to lose value.

Note 9. Guaranteed Investment Contracts

The Plan invests in the Union Bond & Trust Company Principal Stable Value Fund (Fund). The Fund is a collective investment trust that invests in conventional synthetic and separate account investment contracts issued by life insurance companies and banks and other financial institutions. Each contract has its own specific terms including interest rate and maturity date. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by Union Bond & Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at April 27, 2013 was $2,419,354. The crediting interest rate is based upon a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a monthly or quarterly basis for resetting.

Market value events may limit the ability of the Fund to transact at contract value with the issuer. Market value events are events or conditions that occur which are outside of the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the operations of the Fund and a financial effect on the investment contract. Such events may include but are not limited to: Fund administration is amended or changed, merger or consolidation of investors, group terminations or layoffs, implementation of an early retirement program, termination or partial termination of the Fund, failure to meet certain tax qualifications, participant communication that is designed to influence participants not to invest in the Fund, transfers to competing options without meeting the equity wash provisions of the Fund, and Plan sponsor withdrawals without the appropriate notice to the Fund and/or issuer. In the event that the Plan is terminated, there is a material adverse change to the provisions of the Plan, or the employer elects to withdraw from a contract in order to switch to a different investment provider, the amount withdrawn from the contract may be payable at fair value rather than contract value. The Plan administrator is not aware of any circumstances that would limit the ability of the Plan to transact at contract value.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 10. Loans Payable

Effective December 22, 1999, the KSOP borrowed $72,665,907 from the Company and Holding to acquire 2,746,255 shares of Holding stock. This borrowing consisted of two indirect loans, $9,900,000 from Holding and $62,765,907 from the Company both with interest rates of 6.2% and secured by the Holding stock (Holding and the Company borrowed funds from an unrelated lender). The unallocated shares are fully pledged on the debt. As payments of principal and interest are made on the loans, shares are released and allocated to participants. As of April 24, 2004, the $9,900,000 loan was paid off. The Plan uses the principal and interest method for releasing shares. Under this method, the Plan releases shares based upon the ratio of the principal and interest paid on the term note for the current fiscal year to the sum of future principal and interest payments at the beginning of the current fiscal year. The Plan released 122,797 shares for the year ended April 27, 2013.

Activity on the loan accruals is as follows:

	Principal
Balance, April 30, 2011	$ 29,828,769
Payments	(3,478,428)
Balance, April 28, 2012	26,350,341
Payments	(3,694,091)
Balance, April 27, 2013	**$ 22,656,250**

	Interest
Balance, April 28, 2012	$ -
Payments	1,633,721
Interest accrued, April 27, 2013	101,450
Interest accrued, April 28, 2012	(122,529)
Balance, April 27, 2013	**$ 1,612,642**

Maturities of the above notes are scheduled to occur as follows with final maturity scheduled for 2019:

Fiscal year ended:	
2014	$ 3,923,124
2015	4,166,358
2016	4,424,672
2017	4,699,002
2018	4,990,340
Thereafter	452,754
	$ 22,656,250

Note 11. Contributions

The Company and Holding are obligated to make contributions in cash to the Plan which, when aggregated with any Plan dividends, and other earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans.

Note 12. Plan Administration

Certain administrative functions are performed by officers and employees of the Company. No such officers or employees receive compensation from the Plan.

Note 13. Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary to the Plan or party rendering services to the Plan, the employer and certain others. As such, transactions conducted with the Company and Trustees qualify as party-in-interest transactions.

Note 14. Risks and Uncertainties

The Plan invests in various investment securities (including KSOP Stock). Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 15. Reconciliation of Financial Statements to Schedule H of Form 5500
