Report of Independent Auditors

To the Participants and Administrator of the
L-3 Communications Corporation Pension Plan:

In our opinion, the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008 and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2009 and the related statement of changes in accumulated plan benefits for the year then ended, present fairly, in all material respects, information regarding the net assets available for benefits of the L-3 Communications Corporation Pension Plan (the "Plan") at December 31, 2009 and changes therein for the year then ended and its financial status as of January 1, 2009, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

EIN 13-3937436 PN 001

ACTUARIAL ASSUMPTIONS AND ACTUARIAL COST METHOD

Net investment return: 7.50%

Interest rate for determination of current liability and maximum deductible contribution:

Current Liability: 6.69% (previously, 6.43%)
Effective in 2008, as mandated by the Pension Protection Act of 2006 for eligible contractor plans, this is based on the third segment rate used to determine funding requirements for noncontractor plans. The interest rate of 6.69% is the third rate of the 24-month segmented rates ending in December 2008.

Maximum Deductible Contribution: As mandated by the Pension Protection Act of 2006 and based on recently released guidance, the interest rates used are the October 2008 full spot yield curve. The effective interest rate is 8.07%. This market-based assumption is mandated by law, based on the plan sponsor's one-time election of one of the alternative methodologies. (Prior year's rates were from the 24-month average of corporate bond yields ending in August 2007 without a phase-in from the current liability rate.)

Mortality rates:

Healthy and Disabled:

RP-2000 Combined Healthy Table (sex distinct)

Current Liability and Maximum:

The RP-2000 separate annuitant and non-annuitant tables with static projection. This assumption is one of the choices allowed by proposed regulations. (Prior year current liability assumption was similar, but based on one less year of projection.)

Attachment to 2009 Schedule B of Form 5500
Schedule B, Line 6 - Statement of Actuarial Assumptions/Methods
L-3 Communications Corporation Pension Plan
EIN 13-3937436 PN 001

The actuarial value of assets is an average of the market value of assets as of the valuation date and the adjusted market value of assets as of the preceding two years. The adjusted assets reflect expected earnings (subject to a statutory cap) and actual cash flow. The resulting value is limited to between 90% and 110% of the market value of assets. The methodology was changed from market value of assets in 2008.

Actuarial Cost method:

Projected Unit Credit

This cost method develops the annual cost or expense of the Plan in two parts: that attributable to benefits accruing in the current year, known as the normal or service cost; and that due to service earned prior to the current year, known as the actuarial accrued or past service liability. Each of these components is calculated individually for each active employee.

The normal cost is the present value of the portion of projected benefits that is attributable to service accruing in the current year. The unfunded actuarial liability reflects the difference between the portion of projected benefits attributable to service credited prior to the valuation date and assets already accumulated. The unfunded actuarial liability is paid off in accordance with a specified amortization procedure.

Under the projected unit credit cost method, if actual plan experience is close to the assumptions, the normal cost will increase each year for each employee as he or she approaches retirement age. The total contribution is made up of the sum of the individual normal costs and the amortization payment on the unfunded actuarial liability.

Employees who have not yet met the requirements for participation are not included in the valuation.

EIN 13-3937436 PN 001

SUMMARY OF PLAN PROVISIONS

This subsection summarizes the major provisions of the plan as included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Normal retirement:

Age requirement:

65

Service requirement:

5 years

Amount:

For a participant who has an hour of service on or after January 1, 2005, is equal to the sum of (1) and (2) or, if greater, the amount determined under (3):

- (1) 1.5% of the Participant's Final Average Compensation not in excess of his Covered Compensation for each Plan Year (and completed month) of Accrual Service and
- (2) 1.75% of the Participant's Final Average Compensation in excess of his Covered Compensation for each Plan Year (and completed month) of Accrual Service.
- (3) With respect to a Participant who also has an Hour of Service on December 31, 2004, the Participant's benefit determined as of December 31, 2004.

A participant's Final Average Earnings are the average Earnings for the five calendar years during the ten calendar years of Accrual Service prior to the date on which the Participant ceases to be an Employee that results in the highest average Earnings amount. If a participant has not completed five years of Accrual Service as of the date he ceases to be an Employee, his average Earnings are for the entire period (years and completed months) of such Accrual Service.

Early retirement:

Age requirement:

55

Service requirement:

10 years of eligibility service.

Amount:

Accrued normal retirement benefit reduced by 6.67% per year for the first five years prior to age 65 that benefit commence and 3.33% for the next five years.

Deferred retirement: Additional accruals to actual retirement date.

Vesting:

Age requirement: None

Service requirement: 5 years

Amount:

Accrued pension payable at age 65

Vesting percentage:

100% after 5 years of service

Pre-retirement death benefits:

Age requirement: None

Service requirement:

5 years

Amount:

50% of benefit employee would have received had he retired the day before he died and elected the joint and survivor option, payable at the earliest retirement date of the employee. Benefit is payable only to a spouse.

Normal form of benefit:

Life annuity for unmarried participants. For married participants, a joint and 50% survivor annuity, which is actuarially equivalent to a life annuity. Actuarial equivalent is 86% adjusted for difference between age and 65 and spouse older or younger than participant.

Optional forms of benefit:

Life Annuity

Joint and 50% survivor annuity

Joint and 75% survivor annuity

Joint and 100% survivor annuity

Life Annuity with period certain guarantees of 10 or 15 years

Social Security level-income life annuity

Lump sum form of benefit: Benefits with a present value less than or equal to \$1,000 are automatically cashed out. If the present value of the benefit is over \$1,000 but less than or equal to \$5,000, a lump sum is offered to the participant. If the present value of the benefit is over \$5,000 but less than or equal to \$20,000, the participant can elect a lump sum or an annuity.

Participation:

Age requirement:

21

Service requirement:

1 year

Effective as of January 1, 2007, employees hired on or after January 1, 2007 are not eligible to participate in the plan.

Benefit credit:

From employment

Effective March 1, 2003, employees located in the Largo office will no longer accrue benefit service in the L-3 Communications Corporate Pension Plan.

Vesting credit:

From employment

Employee group covered:

Employees of the L-3 New York Corporate Office and the L-3 Communications Corporation Display Systems Division.

Earnings:

Earnings for any Plan Year shall be defined as total cash remuneration actually paid by the Employer.

Recent Plan Amendments:

Effective January 1, 2007, employees hired on or after January 1, 2007 are not eligible to participate in the Plan. All plan amendments as of January 1, 2007 (Amendment Nos. 1, 2 and 3) and January 1, 2008 (Amendment No. 4) have been reflected.

Amendment 1:

Effective January 1, 2007, the provision concerning the late retirement factors for employees who attained age 65 before 1988 is eliminated because there are no remaining participants in this category.

Amendment 2:

Effective January 1, 2007, for the purposes of determining Eligibility Service, Vesting Service and Accrual Service, a year of Service includes partial and completed months of service.

Report of Independent Auditors

To the Participants and Administrator of the
L-3 Communications Corporation Pension Plan:

In our opinion, the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008 and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2009 and the related statement of changes in accumulated plan benefits for the year then ended, present fairly, in all material respects, information regarding the net assets available for benefits of the L-3 Communications Corporation Pension Plan (the "Plan") at December 31, 2009 and changes therein for the year then ended and its financial status as of January 1, 2009, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

NOTES TO FINANCIAL STATEMENTS

1. Plan Description

The following brief description of the L-3 Communications Corporation Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective May 1, 1997 in connection with the acquisition of certain entities by L-3 Communications Corporation (the “Company”), a wholly owned subsidiary of L-3 Communications Holdings, Inc. (“Holdings”), from Lockheed Martin Corporation (“Lockheed Martin”). On that date, certain participants in the Lockheed Martin Tactical Systems, Inc. Pension Plan (the “Prior Plan”) became participants in the Plan. Lockheed Martin transferred the assets under the Prior Plan attributable to the accrued benefits of the participants. The Plan’s assets were transferred from the Prior Plan in 1997.

The Plan is a non-contributory defined benefit plan covering employees at certain locations of the Company. Participation in the Plan commences at age 21 after the completion of one year of service. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan is frozen with respect to new participants hired on or after January 1, 2007. As such, any employees hired on or after January 1, 2007 are not eligible to participate in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

On January 1, 2008, the Plan adopted the standards for fair value measurements. Refer to Note 6 for disclosures provided for fair value measurements of plan investments.

Investment in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the “Master Trust”) administered by The Bank of New York Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the “L-3 Participating Plans”). The only investment of the Plan is its interest in the net assets of the Master Trust. The fair value of the Plan’s interest in the Master Trust is determined based on the beginning of year value of the Plan’s interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of corporate equity securities, commingled trust funds and mutual funds, corporate bonds and Government and mortgage-backed securities. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

L-3 COMMUNICATIONS CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Gain (Loss) from Master Trust

The net investment gain (loss) from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment gain or loss is allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan. Administrative expenses are charged to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees of the Master Trust are allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results will differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation

reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Subsequent Events

The Plan continues to evaluate events after the Statement of Net Assets Available for Benefits date through September 17, 2010, the date the financial statements were available to be issued.

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") and the minimum funding requirements under ERISA. Contributions required from the Company in 2009 and 2008 to the Plan under the minimum funding requirements of ERISA were \$2,643 and \$1,268, respectively. Contributions are calculated using the Projected Unit Credit Actuarial Cost Method. Under this method, the total actuarial liability for participants is the actuarial present value as of the valuation date of all benefits attributed by the pension benefit formula to employee service rendered prior to that date, which assumes the normal cost will increase each year for each employee as he or she approaches retirement age. The yield (interest, dividends and net realized and unrealized gains and losses) on investments of the Plan serves to adjust future contributions that will be required to provide for the defined level of benefits.

4. Plan Benefits

Effective January 1, 2005, for each participant who has an hour of service on or after January 1, 2005, the Plan was amended to change each participant's benefit for each plan year of accrual service to 1.5% of the participant's Final Average Earnings not in excess of his/her Covered Compensation for each Plan Year (and completed month) of accrual service, plus 1.75% of the participant's Final Average Earnings in excess of his/her covered compensation for each Plan Year of accrual service, or if greater, the participant's benefit determined as of December 31, 2004 with respect to a participant who also has an hour of service on December 31, 2004. Final Average Earnings represents the average of the earnings for the 5 calendar years during the 10 calendar years ending with the calendar year (or partial year) in which the participant ceases to be an employee that results in the highest average earnings amount. Covered Compensation represents the average of the social security wage bases for the 35 calendar years ending with the year each participant attains social security retirement age.

For the plan year ending December 31, 2004, for each participant who had an hour of service on or after January 1, 2004 but not on or after January 1, 2006, the Plan provided a benefit for each year of service of 1.5% of compensation up to the social security wage base plus 1.75% of compensation in excess of that base for each year of service. Benefits vest 100% after 5 years of service and are payable at age 65. Service in the Prior Plan is considered as service under the Plan.

The Plan permits early retirement for participants at age 55 with at least 10 years of service. The benefit may begin at the date of early retirement, reduced by 6.67% for each of the first 5 years

L-3 COMMUNICATIONS CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS - continued

prior to age 65 and 3.33% for each of the next 5 years by which commencement of benefits precedes the normal retirement date. Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension payments commence, the surviving spouse of the deceased vested participant receives benefits equal to 50% of the amount which would have been payable to the retiree under a joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree. If participants are terminated before completing 5 years of service, they forfeit the right to receive their accumulated benefits.

The following presents the more significant assumptions underlying the actuarial computations as of January 1, 2009 and 2008.

Mortality basis	RP-2000 Combined Table
Retirement	Retirement starting at 55, with 100% by age 67
Discount rate for the determination of the present value of accumulated plan benefits	2009 and 2008 – 7.5%

The foregoing actuarial assumptions are based upon the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may be used in determining the actuarial present value of accumulated plan benefits.

6. Fair Value Measurements

Effective January 1, 2008, the Plan adopted the standards for fair value measurements. The provisions of the standards are applicable to all of the Plan's assets and liabilities that are measured and recorded at fair value. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. The standards establish a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy defined by the standards are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets include equity securities, certain mutual funds and U.S. Treasury bonds, all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets include commingled trust funds, certain mutual funds, corporate bonds, government securities and forward contracts.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The following is a description of the valuation methodologies used for assets of the Master Trust, measured at fair value, including the general classification of such assets pursuant to the fair value hierarchy.

The fair value of *corporate equity securities* is based on quoted market prices available in active markets at the close of a trading day.

The units within the *commingled trust funds* are generally maintained at a constant fair value of approximately \$1 per unit, which is determined by the fair values of the underlying securities, less the fund's liabilities, divided by the number of units outstanding.

The fair value of *mutual funds* is based on quoted NAV's available in active markets at the close of a trading day. These funds are classified by the Company as Level 1 measurements within the fair value hierarchy. For those mutual funds that do not trade in active markets, the fair value is based on NAV's calculated by the fund manager using the closing quoted market prices of the underlying securities available in an active market. These mutual funds are classified by the Company as Level 2 measurements within the fair value hierarchy.

The fair values of the *corporate and foreign government bonds* are based on: (1) the closing price reported in an active market in which the bond is traded, (2) yields currently available on

L-3 COMMUNICATIONS CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS – continued
(Dollars in thousands)

comparable bonds of issuers with similar credit ratings, or (3) a cash flows approach that maximizes observable inputs.

The fair value of *U.S. Treasury bonds* is based on quoted market prices available at the close of a trading day in an active market.

Other consists primarily of *mortgage-backed securities*. The fair value for mortgaged-backed securities is generally based on available trade information in a non-active market or dealer quotes from comparable securities.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2009 and 2008. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 28, 2008, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Related Party Transactions

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by The Bank of New York Mellon, the Plan's trustee.

9. Termination Priorities

L-3 COMMUNICATIONS CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS – continued
(Dollars in thousands)

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.
- c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.
- d. All vested and non-vested benefits.

To the extent the Plan's net assets are not sufficient to fund the accumulated benefits upon Plan termination, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation, up to specified limits.
