Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Illinois Central Companies 401(k) and Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of June 30, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended June 30, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of June 30, 2013 and 2012, and for the year ended June 30, 2013, that the information provided to the Plan Administrator by the custodian is complete and accurate to the best of their knowledge.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Member of the RSM International network of independent accounting, tax and consulting firms.

Other Matter

The supplemental schedule of assets (held at end of year) as of June 30, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Illinois Central Companies 401(k) and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Illinois Central School Bus, LLC, MAL Staffing, LLC and KB Staffing, LLC (collectively, the Company). Employees who are covered employees of the plan sponsor, excluding highly compensated employees, as defined, are eligible for the Plan after meeting 90 days of service and over 18 years of age. Eligible employees may begin deferring the first of the month following meeting eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: A participant may elect to contribute in 1 percent intervals of his/her annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may make a discretionary contribution to the Plan. All contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and receives an allocation of Company discretionary contributions, if any, plan earnings/losses and administrative expenses. Allocations are based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus the actual earnings thereon. Vesting for the Company discretionary contributions is based upon years of service as defined. Participants are 100 percent vested after three years of credited service. Participants who attain retirement age 65, or terminate employment due to death or disability, are 100 percent vested in their accounts.

Investment options: Upon enrollment in the Plan, participants direct the investment of their account balances into a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options daily.

Forfeitures: At June 30, 2013 and 2012, there was $617 and $1,040, respectively of forfeited nonvested accounts. These accounts are used to reduce Company contributions and pay administrative expenses of the Plan. In 2013, $423 forfeitures were used to correct an employee deferral error.

Payment of benefits: On termination of service, death, retirement, or at the option of the employee, a participant will receive a lump-sum distribution. Withdrawals may also be made from the Plan in cases of financial hardship.

Note 2. Significant Accounting Policies

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs.* ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management has determined that there was no effect from the provisions of ASU 2011-04 on the Plan's financial statements.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through March 17, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A.) (John Hancock)

The following is a summary of the Plan's asset and income information as of June 30, 2013 and 2012, and for the year ended June 30, 2013, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets and income is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	June 30, 2013	June 30, 2012
Shares of pooled separate accounts	$ 422,035	$ 314,521
Shares of common/collective trust, at contract value	18,013	14,305
Net appreciation in fair value of investments	45,294	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2013 and 2012.

Shares of pooled separate accounts: Primarily valued at net asset value (NAV) per share based on quoted market prices of underlying investments, except as otherwise noted below.

Shares of common/collective trust: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of June 30, 2013 and 2012:

	Assets at Fair Value as of June 30, 2013

(a) This category invests substantially all of its assets in underlying funds using an asset allocation strategy designed for investors expected to retire in the designated retirement year. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(b) This category invests primarily in fixed income and equity securities with the goal of high current income and some capital growth. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Note 4. Fair Value Measurements (Continued)

(c) This category invests primarily in inflation-indexed bonds, fixed income securities, preferred stock, and other types of debt securities with the goal of high current income. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(d) This category invests primarily in the common stock of large capitalization U.S. companies and dividend-paying common stock with the goal of growth of capital. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(e) This category invests primarily in the common stock of companies in the U.S. and foreign countries with the goal of growth of capital. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(f) This category invests primarily in a diverse portfolio of securities seeking long-term capital growth. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(g) This category invests in a Group Annuity Contract issued originally by John Hancock Life Insurance Company that seeks to preserve capital and provide stability of principal. This fund invests primarily in diversified fixed income mutual funds and separately management bond accounts run by investment subsidiaries of John Hancock Life Insurance Company and in book value stabilizing agreements offered by high quality financial institutions. Investments in this category can be redeemed immediately, can be limited to every thirty days at the discretion of the contract issuer and have a redemption notice period of twelve months, at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended June 30, 2013, there were no transfers in or out of Level 3.

Note 4. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended June 30, 2013:

	Shares of common/collective trust
Balance, beginning of year	$ 14,846
Realized gains/(losses)	-
Unrealized gains/(losses) relating to instruments still held at the reporting date	(512)
Purchases	3,915
Sales	-
Balance, end of year	$ 18,249

Note 5. Investments

The following table presents investments representing more than 5 percent of the Plan's net assets as of June 30, 2013 and 2012.

	2013	2012
Shares of pooled separate accounts:		
John Hancock Life Insurance Company Retirement Living 2015	$ 42,811	$ 31,092
John Hancock Life Insurance Company Retirement Living 2030	23,730	20,818
John Hancock Life Insurance Company Lifestyle Conservative Fund	30,744	26,259
John Hancock Life Insurance Company Lifestyle Balanced Fund	106,558	58,788
John Hancock Life Insurance Company Lifestyle Growth Fund	38,759	29,103
John Hancock Life Insurance Company Equity Income Fund	*	17,508

* Less than 5% of net assets

During 2013, the Plan's investments (including investments bought, sold and held during the year) appreciated/(depreciated) in value as follows:

Shares of pooled separate accounts	$ 45,806
Shares of common/collective trust	(512)
	$ 45,294

Note 6. Related Party Transactions

All Plan investments are managed by John Hancock. John Hancock is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid $5,379 in fees to John Hancock during the year ended June 30, 2013.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services. Other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 23, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and is being operated in accordance with the applicable requirements of the IRC.

The FASB issued guidance on accounting for uncertainty in income taxes. Management of the Company evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for the years ended before 2010.

Note 9. Risks and Uncertainties

The Plan provides for various investment options in funds which invest in any combination of stocks, bonds, fixed income securities, mutual funds and other investment activities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.
