Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Karen Kane, Inc., 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for plan benefits as of December 31, 2013 and 2012, and related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by Great West Life & Annuity Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Assets Held for Investment Purposes, which are the responsibility of plan management, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if any. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value as described below:

- *Variable Annuities*: Prices/unit values for Variable Annuity investment options are calculated daily by the annuity provider according to the methods described in the annuity contract.

- *Fixed Annuities:* The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

Net realized and unrealized appreciation or depreciation includes the plan's gain and losses on investments bought and sold as well as held during the year.

Purchase and sale of investments are recorded on trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital distributions are included in dividend income.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

All expenses incurred in connection with the Plan's administration were paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

1. Description of the Plan

The following description of the Karen Kane, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. The Plan document provides a more complete description of the Plan's provisions.

General - The Plan was adopted by Karen Kane, Inc. (the "Company", "Employer" and the "Plan Administrator") as of April 1, 1988. The Plan was amended as of January 1, 2003 and conforms to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA").

Eligibility - The Plan is a defined contribution plan covering all full-time employees of the Company who have at least six months of service and are age 21, or older.

Contributions - The eligible employees may elect to contribute up to 100 percent of their compensation, but not to exceed the maximum amount allowed under the section 401(k) of the Internal Revenue Code. The participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows the Employer to make discretionary matching contribution. The Company contributes 25% of participants' contribution up to 6% of base compensation. "Rollover" contributions from other qualified plans are allowed. However, the Employer does not match rollover contributions.

Plan Investment - The Plan's assets are held in trust and the plan offers investment options through Variable Annuities (holding underlying investments of mutual funds) and Fixed Annuities (holding underlying Guaranteed Investments Contracts, GICs). Plan participants may direct their contributions in 1% increments to any of these investment options. The participants select the percentage or amount of contributions to be allocated to each investment option. Participant's contributions are withheld from their paychecks and remitted to the Trustee.

Participant Accounts - Each participant's account is credited with (a) participant's contributions; (b) Employer's matching contribution, (c) Plan earnings/(losses), and (d) allocation of employer's profit sharing contribution, if any. Allocations of Employer's profit sharing contribution are based upon an employee's proportionate share of eligible earnings.

Certain fees are charged to the funds and are offset against plan investments income and losses as presented on the statements of changes of net assets available for plan benefits. The prospectuses of these funds provide details on the various types and amounts of investments fees charged to the Plan and their individual accounts.

1. Description of the Plan - Continued

Vesting - Participants are fully vested immediately for their contributions, including rollovers, plus actual earnings thereon. Vesting in the employer's contribution portion of their accounts is based on years of service. The vesting schedule in effect for the years ended December 31, 2013 and 2012 were as follows:

Years of Service	Percentage Vested
1	20
2	40
3	60
4	80
5 or more	100

Trustee - Great West Life & Annuity Insurance Company is the Plan Trustee ("Trustee") and holds the Plan assets.

Payment of Benefits - Benefits attributable to each participant become fully vested in the event of death, total disability, or normal retirement at age 65. Participants whose service terminates prior to their normal retirement age, other than by reason of death or disability, are entitled to a termination benefit based upon their vested entitlements. On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of their account, or installments over a period of time.

In addition, a participant may make withdrawals of vested benefits under certain limited circumstances, including financial hardship and participant loans.

Forfeitures - The portion of a participant's account that is not vested is forfeited when the participant's employment with the Company is terminated. These forfeitures are first used to pay administrative expenses of the Plan and then to reduce future employer contributions payable under the Plan. At December 31, 2013 and 2012 the balance in the forfeiture non-vested account amounted to $8,769 and $4,050, respectively. During the years ended December 31, 2013 and 2012, employer contributions were reduced from forfeited funds by $0 and $1,951, respectively.

Plan Termination - The Company anticipates and believes that the Plan will continue without interruption, but reserves the right to terminate the Plan in whole or in part at any time. In the event of termination of the Plan, the net assets will be allocated amongst the participants in accordance with the terms of the Plan and ERISA.

1. Description of the Plan - Continued

Risk and Uncertainties - The Plan invests in various financial investments. All such investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain financial investments, it is at least reasonably possible that changes in the values of the investments securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Notes Receivable from Participants - Loans are available to active participants who maintain an account balance under the Plan provided that the minimum loan amount is $1,000 with a maximum of $50,000 or 50% of the participant's vested account balance, whichever is less. Such loans are collateralized by the respective participant's account, with interest and principal payments being credited to the participant's account according to the then current investment choices. All loans are subject to repayment through payroll deductions over a maximum period of 5 years, except for loans to purchase primary residence, for which the period is up to 15 years. The interest rate for loans is the prime rate published in the Wall Street Journal on the date of loan approval plus two percent (both at 5.25% per annum at December 31, 2013 and 2012).

2. Information Certified by the Trustee

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule as of December 31, 2013 and 2012 and for the years then ended, that was prepared or derived from information prepared by the Trustee:

a) Statements of Net Assets Available for Plan Benefits, except for participants' loans.
b) Statements of Changes in Net Assets Available for Plan Benefits, except for contributions and deductions.
c) Supplemental schedule.

The Plan Administrator has obtained a certification from the Trustee that such information is complete and accurate.

3. Investments

The fair value of investments that represent 5% or more of the Plan's net assets available for plan benefits as of December 31, is as follows:

	2013	2012
Variable Annuities:		
Maxim Bond Index 21,098 and 7,656 shares, respectively	$ 543,703	$ 203,401
SF Balanced Fund GI 22,997 and 113 shares, respectively	329,014	381,802
Royce Total Return K 16,630 and 28,590 shares, respectively	251,710	328,976
T. Rowe Price Equity Income Fund I 11,481 and 22,128 shares, respectively	235,530	350,959
Maxim Moderate Profile II 23,270 and 20,625 shares, respectively	369,805	345,619
Maxim S & P 500 Large-Cap Index Fund 23,270 and 15,786 shares, respectively	465,880	241,326
Fixed Annuities:		
Guaranteed Portfolio Fund	1,357,120	1,181,826

During 2013 and 2012, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, besides held during the year) appreciated in value by $930,911 and $500,154, respectively.

4. Fair Value Measurement

Financial Accounting Standards Board, Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosure,* established a framework for measuring fair value. Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Statement also establishes a fair value hierarchy that distinguishes between inputs based on market data from independent sources (observable inputs) and a reporting entity's internal assumptions based on the best information available when external market data is limited or unavailable (unobservable inputs). The fair value hierarchy in ASC 820 prioritizes fair value measurements into following three levels based on the nature of inputs:

4. Fair Value Measurement - Continued

Level 1
Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2
Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3
Certain inputs are unobservable, supported by little or no market activity, and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of fair value.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for plan benefits. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31:

	2013	2012
	Level 2	Level 2
Variable Annuities		
Small-Cap Funds	$ 506,759	$ 494,015
Guaranteed Lifetime Income	338,975	384,516
Bond Funds	823,783	411,742
Mid-Cap Funds	491,881	368,205
Large-Cap Funds	1,584,146	1,335,863
International Funds	779,948	666,678
Profile Series	668,979	584,542
Total Variable Annuities	5,194,471	4,245,561
Fixed Annuities	1,365,888	1,185,876
Total Assets at Fair Value	$ 6,560,359	$ 5,431,437

4. Fair Value Measurement - Continued

Level 2 Valuation Techniques

a. Variable Annuities are the quoted prices obtained for the underlying mutual fund which is then adjusted to apply the expense factor disclosed in the annuity contract. The accounting unit value is determined in a manner similar to a mutual fund Net Asset Value calculation - dividing the net assets by the number of units outstanding. Any discrepancies between the two values are resolved to ensure the recordkeeping system reflects the accurate value for the day.

b. Fixed Annuities evaluate the general financial condition of the issuer of the annuity contract that is owned by the plan sponsor as a component of validating whether the calculated contract value of the guaranteed contract is an accurate value. All of these inputs are generally considered obtainable/observable through the review of existing contracts and readily available financial information on the Websites of the issuing financial institutions.

5. Fixed Annuities

The Plan has a fully benefit - responsive i1nvestment contract with the insurance company that holds most of the Plan's investments. The insurance company maintains the contributions in the group annuity contract, which is credited with interests and charged for participant withdrawals and administrative expenses. Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the guaranteed investment contract (GIC). The guaranteed investment contract is presented on the face of the statement of net assets available for plan benefits at fair value with an adjustment, if any, to contract value in arriving at net assets available for plan benefits. The contract is considered a traditional GIC in which the fair value equals the contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The contract offers transfers, distributions and cessation options to participants. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than contract value.

5. Fixed Annuities - Continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the fully benefit-responsive investment contract at December 31, 2013 and 2012 was $1,365,888 and $1,185,876, respectively.

The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions, but may not be less than 0%. Such interest rates are determined by the issuer prior to the last day of the previous calendar quarter.

	2013	2012
Average yields		
Based on annualized earnings	1.26%	1.45%
Based on interest rate credited to participants	1.29%	1.47%

6. Benefit Obligations

Included in net assets available for plan benefits at December 31, 2013 and 2012 are vested account balances held by terminated participants of the plan aggregating $1,607,583 and $1,305,769, respectively.

7. Party-in-Interest Transactions

The Party-in-Interest transactions as of and for the years ended December 31, 2013 and 2012 are as follows:

(a) Plan holds units of Variable Annuities managed by the Custodian/Trustee of the Plan.

(b) Plan investments in Fixed Annuities at December 31, 2013 were with the Custodian/Trustee of the Plan.

(c) Administrative fees paid by the Plan to the Plan Administrator amounted to $5,598 and $3,219 for the years ended December 31, 2013 and 2012, respectively.

(d) Managed account fees paid to the Trustee of the Plan amounted to $17,158 and $14,461 for the years ended December 31, 2013 and 2012, respectively.

8. Plan Expense Account

The Plan receives certain revenue sharing payments from the investment options available in the plan and is deposited into Plan Expense Account (PEA) on a quarterly basis to pay the plan's administrative expenses. The revenue sharing amounts received are reflected in other income in the accompanying Statement of Changes in Net Assets Available for Benefits. There was no balance in PEA at December 31, 2013.

9. Income Tax Status

The Internal Revenue Service has determined, and informed the Company by a letter dated July 21, 1995, that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC") and therefore not subject to tax under present income tax law. The Plan has been amended since receiving the determination letter, however, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been Included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administration has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. Subsequent Events

There have been no other material subsequent events. Subsequent Events were evaluated through June 24, 2014, the date these financial statements were available to be issued.
