Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Encore Electric, Inc. 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements and the supplemental schedule of assets (held at end of year) as of and for the year ended December 31, 2013.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we are not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL)Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of and for the year ended December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis of Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of Encore Electric, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which became effective October 1, 2006 and was restated January 1, 2013, is a defined contribution plan. Effective January 1, 2013, the Plan covers employees of Encore Electric, Inc. ("the Company") who have six months of eligibility service, are age eighteen or older and are not represented by a collective bargaining agreement. Employees who receive wage rate contributions based on the prevailing wage rate schedule are covered by the Plan upon becoming an employee of the Company. Prior to January 1, 2013, the Plan covered employees who had completed thirty days of eligibility service, were age eighteen or older and were not represented by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Contributions

Each year, participants may contribute a discretionary amount per pay period up to 100% of annual compensation, as defined in the Plan. Deferral contributions shall not exceed certain limits as set forth by the Internal Revenue Code ($17,500 for 2013 and $17,000 for 2012). The Internal Revenue Service adjusts this limitation each year for cost of living increases. Participants may change their contribution percentage throughout the year and may cease making contributions at any time. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants have the option to contribute pre-tax elective deferral contributions or Roth elective deferral contributions into the Plan. Participant contributions are 100% vested upon contribution into the Plan.

Effective January 1, 2013, under the restated Plan, the Company shall match participant contributions up to 3% of participant compensation and will match 50% of contributions that are between 3% and 5% of participant compensation. Matching contributions are 100% vested upon contribution into the Plan. The Company also contributes wage rate contributions equal to the fringe benefit amount determined by the Prevailing Rate Schedule. Wage rate contributions are 100% vested upon contribution into the Plan.

During 2012, the Company contributed discretionary amounts as a match of participant elective contributions for the Plan year as defined by the Plan. The amount of the match equaled such an amount as the employer deemed appropriate. In addition to matching contributions, the Plan contained a provision to comply with the Davis Bacon Wage Act under which the company contributed amounts as determined under the Act.

Rollover contributions transferred from other qualified retirement plans or from Individual Retirement Accounts are accepted as permitted by the Plan.

1. Description of Plan (continued)

Participant accounts

Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contribution, and, (b) Plan earnings. In addition, participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Effective January 1, 2013 and forward, participants are immediately 100% vested in elective deferral contributions, employer contributions and wage rate contributions plus actual earnings thereon and are not subject to a vesting schedule.

Prior to January 1, 2013, participants were immediately 100% vested in their contributions plus actual earnings thereon. Vesting in the Company's matching portion of their accounts plus actual earnings thereon was based on years of continuous service. A participant was 100% vested in the Company's matching contributions after one year of continuous service.

Forfeitures

Pursuant to the Plan, forfeitures shall be utilized to offset expenses and employer contributions. Total forfeitures used for these purposes in 2013 and 2012 were approximately $0 and $550, respectively. Total amount of non-vested assets forfeited in 2013 and 2012 were approximately $0 and $540, respectively. Total amount of forfeitures available for use for the years ended December 31, 2013 and 2012 are $0 and $550, respectively.

Notes receivable from participants

The Plan allows for loans to be taken against the vested benefits of a participant's account. The term of the loan is a maximum of five years unless the loan is for the purchase of a primary residence. A participant may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000 minus the difference of the largest unpaid loan balance during the last twelve months and the unpaid loan balance outstanding the day the loan is made. The loans are secured by the balance in the participants account. The interest rate charged for loans are determined by the Plan's third party administrator and rates are similar to commercial lending rates. Principal and interest is paid ratably through weekly payroll deductions.

As of December 31, 2013 and 2012, there were eighty and seventy-two outstanding participant loans maturing in five years or less, with principal balances of $509,061 and $461,262, respectively.

2. Summary of Significant Accounting Policies

Payment of benefits

In the event of termination of services, retirement, disability or death, a participant will receive their accumulated contributions made to the plan, the vested portion of the accumulated contributions made by the Company and the investment earnings that have accumulated on those contributions while they were in the plan. Benefits can be rolled into another qualified plan, received in a lump-sum or paid in installments over a specific period based on age at retirement. Account balances less than $1,000 at termination will be rolled to another qualified plan or paid in a lump sum. Benefits are recorded when paid.

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are held in pooled separate accounts managed Principal Life Insurance Company, an investment contract with Principal Life Insurance Company and individual mutual funds. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold and held during the year.

2. Summary of Significant Accounting Policies (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Investments

Principal Small Cap S&P 600 Index – Funds are invested in stocks of companies that comprise the S&P Small-Cap 600 Index.

Principal U.S. Property – Funds are invested in commercial real estate holdings that return both lease income and appreciation of the real estate's market value.

Participants may change their investment options daily and may suspend at any time.

4. Fair Value Measurements

The Plan has adopted Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") Topic 820, *Fair Value Measurements and Disclosures*. FASB ASC Topic 820 establishes a single authoritative definition of fair value and sets a hierarchy for measuring fair value. The adoption of FASB ASC Topic 820 has no impact on the Plan's accounting policies for investments, but requires additional disclosures about fair value measurement. The hierarchy for measuring fair value prioritizes the inputs to valuation techniques used to measure fair value and gives the highest priority to unadjusted quoted prices for securities traded in active markets (level 1) and the lowest priority to unobservable inputs (level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

4. Fair Value Measurements (continued)

The hierarchies for measuring fair value under FASB ASC Topic 820 are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include a) quoted prices for similar assets or liabilities in active markets; b) quoted prices for identical or similar assets or liabilities in inactive markets; c) inputs other than quoted prices that are observable for the asset or liability; and d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

As required by FASB ASC Topic 820, the Plan's portfolio investments as of December 31, 2013 were classified as follows, based on the lowest level of input that is significant to the fair value measurement:

Description	Level 1	Level 2	Level 3	Totals
Guaranteed interest investment contract	$ -	$ -	$ 215,033	$ 215,033
Collective investment trust	-	51,778	-	51,778
Mutual funds	2,049,083	-	-	2,049,083
Pooled separate accounts	-	11,881,088	-	11,881,088
	$ 2,049,083	$ 11,932,866	$ 215,033	$ 14,196,982

As required by FASB ASC 820, the Plan's portfolio investments as of December 31, 2012 were classified as follows, based on the lowest level of input that is significant to the fair value measurement:

Description	Level 1	Level 2	Level 3	Totals
Guaranteed interest investment contract	$ -	$ -	$ 201,509	$ 201,509
Mutual funds	1,269,004		-	1,269,004
Pooled separate accounts	-	9,617,993	-	9,617,993
	$ 1,269,004	$ 9,617,993	$ 201,509	$ 11,088,506

4. Fair Value Measurements (continued)

Total portfolio investments of the Plan classified within level 3 total $215,033 and $201,509 as of December 31, 2013 and 2012, respectively, which consist of the Plan's guaranteed interest investment contract. Such amounts represent approximately 2% of the Plans' net assets available for benefits as of December 31, 2013 and 2012.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2013 and 2012.

Guaranteed interest investment contract – Fair value is the amount plan participants would receive were they to withdraw their funds prior to maturity of the contract for an event other than death, disability, termination or retirement. This fair value represents contract value adjusted to reflect current market rates to the extent that such rates exceed crediting rates.

Collective investment trust – Fair value is determined based on net asset value (NAV) per share/unit on the valuation date. Accrued interest, if any, on the underlying investments is added to the fair value of the investments for presentation purposes.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts – Individual pooled separate accounts invest in a single mutual fund. The fair value of the underlying mutual fund is a publicly quoted pricing input (level 1) and is used in determining the net asset value (NAV) of the pooled separate account, which is not publicly quoted. The NAV serves as a practical expedient to estimate the fair value of the pooled separate account and the pooled separate accounts may be redeemed at NAV as of the measurement date. Most of the security prices are obtained from the Interactive Data Corporation (IDC) pricing service.

4. Fair Value Measurements (continued)

As required by FASB ASC 820, the following is a reconciliation of the changes in the fair value of the Plan's level 3 investment assets for the year ended December 31, 2013:

	Guaranteed Interest Account	Total
Balance, December 31, 2012	$ 200,903	$ 200,903
Total losses realized and unrealized	(4,013)	(4,013)
Interest	1,958	1,958
Purchases	77,872	77,872
Sales	(61,686)	(61,686)
Balance, December 31, 2013	$ 215,034	$ 215,034
Total unrealized losses	$ (4,013)	$ (4,013)

In addition to quoted market prices in active markets, valuation techniques for level 3 inputs for the Guaranteed Interest Account were based on the amount participants would receive currently if they were to withdraw funds prior to maturity for an event other than death, disability, termination or retirement. This value represents contract value adjusted to reflect current market interest rates to the extent that current market rates exceed the contract crediting rates.

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013.

	Fair Value	Unfunded Commitments	Redemption Freqency (if currently eligible)	Redemption Notice Period
Pooled separate accounts	$ 11,881,088	N/A	Daily	7 days to 270 days
Collective trusts	$ 51,778	N/A	Daily	30 days

4. Fair Value Measurements (continued)

Fair Value of Investments in Entities that Use NAV (continued)

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2012.

	Fair Value	Unfunded Commitments	Redemption Freqency (if currently eligible)	Redemption Notice Period
Pooled separate accounts	$ 9,617,993	N/A	Daily	7 days to 270 days

5. Investment Contract with Insurance Company

Guaranteed Interest Investment Contract

The Plan entered into a non-benefit responsive investment contract with Principal Life Insurance Company. The contract offers a fixed interest investment option, the Guaranteed Interest Account, and a number of variable investment options held by Principal Life Insurance Company in pooled separate accounts. Participants investing in the pooled separate accounts can select the investment options that reflect their individual investment style and risk tolerance. A distribution from the Guaranteed Interest Account for termination, death, disability or retirement will be paid at contract value; however, there is a possible surrender charge if funds are withdrawn prior to their maturity. If the Plan withdraws or transfers funds prior to their maturity, the Plan would receive fair market value. Fair market value represents contract value adjusted to reflect current market interest rates to the extent that current market rates exceed contract crediting rates.

Contributions allocated to the Guaranteed Interest Account earn interest at the rate in effect on the day when each deposit is directed into the account. All rates credited during a twelve month period are averaged into a single composite rate.

Collective Trust

The Plan invests in a collective investment fund ("the Fund"), Morley Stable Value V Fund, for which Union Bond and Trust Company is the trustee and investment manager. The Fund is a collective investment fund for collective investment in contracts issued by insurance companies that are designed for stability of principal.

5. Investment Contract with Insurance Company (continued)

Collective Trust (continued)

Investments held by a collective investment trust are required to be reported at fair value; however, because the underlying investment contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective trust assets as contract value is the amount the participants would receive if they were to initiate transactions relating to the Fund. As such, the Morley Stable Value V Fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at the net assets available for benefits. Contract value represents invested principal plus accrued interest thereon.

Market value events may limit the ability of the stable value fund to transact at contract value with the Plan. Such events include: Fund administration amendments or changes, merger or consolidation of investors, group terminations, implementation of an early retirement program, termination of the Fund, failure to meet certain tax qualifications, participant communication designed to influence participants not to invest in the Fund, transfers to competing options without meeting the equity wash provisions of the Fund and Plan sponsor withdrawals without the appropriate notice to the Fund. The Plan administrator believes that any event that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

6. Tax Status

Compliance

Effective, January 1, 2013 the Plan was restated and as of the date of these financial statements, the Plan has not yet received a determination letter from the IRS regarding the Plan. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Internal Revenue Service has determined and informed Principal Life Insurance Company, the Plan's third party administrator, by a letter dated July 22, 2003 that the prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The plan was amended effective January 2, 2008 to allow employees to make Roth elective deferral contributions. Participant contributions include pre-tax elective deferral contributions, as permitted by §401(k) of the Internal Revenue Code and Roth elective deferral contributions, which reflect after-tax dollars. Pre-tax earnings deferrals are subject to federal income taxes when distributed to participants. After-tax earnings deferred into a Roth 401(k) account are not subject to federal income taxes when distributed to participants. Earnings from the Plan's investments are not taxable to the participants until partial or complete distribution of such earnings is made. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Tax Status (continued)

Uncertain tax positions

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. Reconciliation of Financial Statement to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2013 and 2012 and the related Form 5500:

	2013	2012
Net assets available for benefits per Form 5500	$ 14,749,811	$ 11,549,362
December contributions received in January	30,272	17,633
Adjustment to contract value	(169)	-
Other expense	-	406
Net assets available for benefits per the financial statements	$ 14,779,914	$ 11,567,401

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their total accounts.

9. Information Prepared and Certified by Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest, dividends, interest income on notes receivable from participants, administrative expenses, benefits paid to participants and other expenses for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Trust Company, the trustee of the Plan.

10. Risks and Uncertainties

The Plan is required by FASB ASC Topic 825, *Financial Instruments,* to disclose significant concentrations of credit risk regardless of the degree of such risk. At December 31, 2013 and 2012, the financial instruments that potentially subject the Plan to a concentration of credit risk consist principally of investments.

The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rates, credit, and overall market volatility risk. Due to the level of risk associated with investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that such change could materially affect participants' account balances and amount presented in the statements of net assets available for benefits.

11. Party-In-Interest and Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Principal Life Insurance Company, the asset custodian of the Plan as of December 31, 2013 and 2012. These transactions qualify as exempt party-in-interest transactions.

12. Subsequent Events

Subsequent events have been evaluated by management as of the date of these financial statements. This date represents the date the financial statements were available to be issued.
