Independent Auditor's Report

To the Participants and Plan Administrator of
SISLEY COSMETICS USA
401(k) PLAN

I have audited the accompanying statements of net assets available for benefits of SISLEY COSMETICS USA 401(k) PLAN (the "Plan") as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and the changes in net assets available for benefits for the year ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America.

My audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1. Description of Plan

The following description of the SISLEY COSMETICS USA 401(k) PLAN (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Sisley Cosmetics USA, Inc. (the "Company") who are at any age and has worked at for at least 1000 hours. Once the eligibility requirements have been met, the employee may become a Participant in the Plan on the first business day of the month following the one-year anniversary of the date of hire. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

i. The Plan excludes employees covered by a collective bargaining agreement (e.g., union agreement) unless the agreement requires eligibility.

ii. The Plan excludes employees who are leased employees, Interns, Temporary Help.

Contributions - Participants may make elective contributions from 1% of their annual base compensation up to the maximum dollar amount allowed by the IRS, subject to statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary matching contributions. Matching contributions of up to 3% (50% of the employee's own contribution up to 6%) of the employees' compensation are available to participants who have completed at least one year of service. Contributions are invested into various investment options offered by the Plan in accordance with each participant's direction. Contributions are subject to certain limitations imposed by law.

Participant accounts - Each participant's account is credited with the participant's contributions and their actual investments earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions, including rollover contributions and the actual earnings thereon. Vesting in the Company's matching and discretionary contributions is based on years of continuous service. A participant is vested 20% after 2 years of service, 20% every year of service after and attains 100% vesting after six years of credited service.

Participant loans - The Plan provides that loans are available to all Plan participants on a nondiscriminatory basis. Plan participants may borrow from their fund accounts from a minimum loan amount of $1,000 up to a maximum of $50,000 or 50% of the vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable interest rate, as defined by the Plan. All loans must be repaid within 5 years (unless it is used to purchase their primary residence) and are payable through payroll withholdings. Loans must be approved by the Plan Administrator and are subject to a set of rules established by law.

Payments of benefits - On termination of service for any reason, a participant with an account balance of $5,000 or less may elect to either roll over the distribution or receive a single lump sum payout. If the participant does not to elect to roll over their distribution, their benefits will be paid out in a single lump payment. Participants with an account

balance of more than $5,000 will receive a single lump sum payment.

2. Summary of Significant Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of investments - The investments in the Plan are stated at fair market value based upon quoted prices, except for participant loans receivable which are valued at cost, which approximates fair value. Purchases and sales of investments are recorded on a trade-date basis. Any unrealized gains or losses are computed based on the differences between market and cost at the closing of the report period. Any realized gains and losses are computed based on differences between market on the date of sale and cost as of the purchase date, on a first-in, first-out basis.

Investment income - Investment income includes interest collected during the plan year and amounts accrued but not collected as of the valuation date. The investment income is determined and allocated to the Plan by Principal Life Insurance Company.

Payment of benefits - Benefits are recorded when paid.

Expenses of the plan - The administrative expenses are paid by the Plan.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Forfeited accounts - At December 31, 2013, forfeited non-vested accounts total $4,913.09, which has been included in investments. This forfeiture will be used to reduce future employer contributions.

3. Investments

The following investments represent 5% or more of the Plan's net assets:

	12/31/2013	12/31/2012
Money Market Separate Account	$ 366,737	325,647
Large Cap S&P 500 Index Separarate Account	528,960	324,196

Guaranteed Interest Unallocated contracts	666,040	585,706
Bond and Mortgage Separate Account		208,012
International EM Market Separate Account		277,452

4. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures", provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from and corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end, which are based on the fair market value of the underlying securities or investments in the funds.

Money Market funds: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Principal Life Insurance Company, the Plan trustee, suggested that Pooled Separate Account should be classified as Level 2 assets as the value was derived from pool of different securities with observable market data. The plan holds all pooled separate accounts except Guarantee Interest Contract which is Level 3 asset.

The following table sets forth by the level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013:

Description	Level 1	Level 2	Level 3	Total

Level 3 asset: Guarantee Interest Contract provides a guaranteed interest rate for a specified period of time as determined, or allowed, by the plan. The rate credited is the rate in effect on the day when each deposit is directed to the account .To simplify reporting, all rates credited during the 12-month "deposit year" are averaged into a single composite rate. There is a surrender charge when funds are withdrawn prior to their maturity. Therefore, Fair value of GIC is the contract value adjusted by the early withdrawal charge. Including GICs in Level 3 because

- GICs are not traded on an open market
- Public prices are not available for GICs

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provision set forth by ERISA.

6. Tax Status

The Company adopted a Non-Standardized Plan, which has received an opinion letter from the Internal Revenue Service dated September 24, 2001, indicating that the prototype plan document was in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has not filed for an individual determination letter. The Plan's administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. Subsequent to 2013 plan year, the company amended its plan effective March 1, 2014 to be a Prototype Standardized Profit Sharing Plan with CODA. The Company received opinion letter issued by Internal Revenue Service on March 31, 2008.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
