Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Clarins USA, Inc. 401(k) Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H - Item 4i of Assets (Held at End of Year), as of December 31, 2013, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following brief description of the Clarins USA, Inc. 401(k) Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan documents for more complete information.

General

The Plan is a voluntary defined contribution retirement savings plan available to all eligible employees, as defined in the Plan, of Clarins USA, Inc. (the "Company"). All contributions, including any employer contributions, are participant directed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute an amount not less than 1% but not more than 22% of their compensation, as defined in the Plan agreement, for the contribution period. Effective July 1, 2013, new hires are automatically enrolled in the Plan with a 2% deferral contribution rate with an option to increase or decrease their contribution rate. A participant's deferral is subject to Internal Revenue Service prescribed limits. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and an insurance company contract as investment options for participant contributions. Participant contributions are recorded in the period during which the Company makes payroll deductions from the participant's earnings.

The Company matches 50% of the participant's contribution up to a maximum of 6% of the participant's Plan compensation. The Company contributions are invested directly in the above investment options, as directed by the participant. Discretionary non-elective contributions are recorded annually. The Company made no discretionary non-elective contributions in 2013 and 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contributions, if any, and Plan earnings. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service, as defined in the Plan agreement. A participant becomes 20% vested after 1 year of service, 40% vested after 2 years of service, 60% vested after 3 years of service, 80% vested after 4 years of service, and 100% vested after 5 years of service. However, if an active participant dies prior to the normal retirement age or becomes totally disabled, the participant's account becomes 100% vested.

Payment of Benefits
On termination of service, a participant with an account balance greater than $5,000 may elect to receive either a lump-sum amount equal to the value of their account, a distribution in the form of installment payments, or a combination of both. Participants with an account balance less than $5,000 will receive a lump-sum distribution. If the distribution exceeds $1,000 and the participant does not elect to receive a rollover in an eligible retirement plan, the participant will receive a rollover in an individual retirement plan determined by the plan administrator. Distributions are subject to the applicable provisions of the Plan agreement. Benefit claims are recorded when they have been approved for payment and paid by the Plan.

Notes Receivable from Participants
Participants may borrow a minimum of $1,000 up to $50,000 or 50% of their account balance, whichever is less. Loans are due within 5 years, unless it is for the purchase of a primary residence, for which the Plan administration may permit a longer repayment period. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans at the inception of the note. For the year ended December 31, 2013, interest rates on outstanding loans ranged from 5.25% to 6.75%.

2. Summary of Significant Accounting Policies

Basis of Accounting
The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Accounting principles generally accepted in the United States of America require that the statement of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The 2013 statement of changes in net assets available for benefits is prepared on a contract value basis with respect to the investment contract.

Administrative Expenses
Administrative expenses of the Plan are paid by the Company, other than investment advisory and management fees which are deducted directly from the investment funds. In addition, certain investment related expenses have been offset with net investment income and are not readily determinable.

Investment Valuation
Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties
The Plan provides for various investment options in any combination of common/collective trusts and registered investment companies. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments and their level of uncertainty related to the changes in their value, it is at least reasonably possible that changes in values in the near term could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

3. Party-In-Interest Transactions

Personnel and facilities of the plan sponsor have been used to perform administrative functions for the Plan at no charge to the Plan. Notes receivable from participants also qualify as party-in-interest transactions.

4. Tax Status

The plan administrator has obtained a tax determination letter dated July 8, 2010 from the Internal Revenue Service stating that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan and its underlying trust are designed and are currently being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010. In addition, there are no tax related interest or penalties for periods presented in these financial statements.

5. Investments and Information Prepared and Certified by Custodian (Unaudited)

No auditing procedures were performed by the independent public accountants as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by the trustee. Based on information provided and certified by the trustee, there are no fixed income obligations, leases, or debt instruments in default or deemed uncollectible, as defined by ERISA, for the years ended December 31, 2013 and 2012.

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee:

	2013	2012
Investments, at fair value		
Common/collective trusts	$ 5,940,259	$ 6,327,360
Registered investment companies	19,236,300	14,114,514
Notes receivable - participants	$ 518,751	$ 288,117
Investment income		
Net appreciation in fair value of investments	$ 3,247,835	
Interest and dividends	776,399	
Interest on notes receivable from participants	$ 21,238	

Investments in excess of 5% of net assets available for benefits as of December 31, 2013 and 2012 are as follows:

	2013	2012
Common/collective trusts		
Morley Stable Value Fund 30	$ 3,734,428	$ 4,122,835
Northern Trust Collective Aggregate Bond Index Fund	2,205,831	2,204,525
Registered investment companies		
American EuroPacific Growth Fund Class R3	2,288,145	1,935,309
American Mutual Fund Class R3	1,764,882	1,465,630
BlackRock S&P 500 Stock Fund Class I	2,516,168	1,768,600
BlackRock Small Cap Index Fund Class A	1,838,773	1,169,805
Invesco Equity and Income Fund Class A	5,970,682	4,957,294
Massachusetts Investors Growth Stock Fund Class A	2,217,296	1,959,133

The net appreciation in fair value of investments (including gains and losses on investments bought and sold, as well as held during the year) arose substantially from registered investment companies during the year ended December 31, 2013.

One of the Plan's investment options is the Morley Stable Value Fund 30 (Morley), a fully benefit-responsive investment contract. Morley invests in synthetic guaranteed investment contracts (synthetic GICs) and guaranteed investment contracts (GICs). The Plan's participants invested approximately $3,712,248 with a fair value of $3,734,428 in the Morley Fund as of December 31, 2013. The Plan's participants invested approximately $4,038,969 with a fair value of $4,122,835 in the Morley Fund as of December 31, 2012.

A synthetic GIC is a wrap contract paired with an underlying investment or investments, usually a portfolio of high-quality, intermediate term fixed income securities. A synthetic GIC attempts to protect principal and accumulated interest and credits a stated interest rate for a specified period of time. Investment gains and losses are amortized over the expected duration through the calculation of the interest rate applicable to the Fund on a prospective basis (the Crediting Rate).

A traditional GIC is a group annuity contract that pays a specified rate of return for a specific period of time and guarantees a fixed return after any benefit-responsive payments are made to participants.

The Crediting Rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The Crediting Rate can be adjusted periodically but in no event is the Crediting Rate less than zero. The Crediting Rate may be impacted, amongst other things, by volatility and illiquidity in the fixed-income securities market. If the market value of the underlying investments is lower than their contract value, the Crediting Rate may be lower than the return on the underlying investments.

The average yield earned by Morley was 1.27% for the year ended December 31, 2013. The crediting interest rate was 1.39% and 1.65% as of December 31, 2013 and 2012, respectively.

6. Fair Value Disclosures

Accounting principles generally accepted in the United States of America define fair value as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value should be based on assumptions that market participants would use, including a consideration of non-performance risk.

In determining fair value, various valuation techniques are utilized and observable inputs are prioritized. The availability of observable inputs varies from instrument to instrument and depends on a variety of factors including the type of instrument, whether the instrument is actively traded, and other characteristics particular to the transaction. For many financial instruments, pricing inputs are readily observable in the market, the valuation methodology used is widely accepted by market participants, and the valuation does not require significant management discretion. For other financial instruments, pricing inputs are less observable in the marketplace and may require management judgment.

The inputs used to measure fair value are assessed using a three-tier hierarchy based on the extent to which inputs used in measuring fair value are observable in the market. Level 1 inputs include quoted prices in active markets for identical instruments and are the most observable. Level 2 inputs include quoted prices for similar assets and inputs such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are not observable in the market and include management's judgments about the assumptions market participants would use in pricing the asset. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered Investment Companies
Shares of registered investment companies held by the Plan are valued at year-end quoted market prices.

Common/Collective Trusts
Shares of the common/collective trusts are valued based on the Plan's pro rata share of the Funds' values, which are determined by the underlying market value of the securities held by the Funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following is a summary of the Plan's investments for which fair value is estimated using the net asset value per share as of December 31, 2013 and 2012:

	Fair Value at December 31	
	2013	**2012**
Common/collective trusts		
Northern Trust Collective Aggregate Bond Index Fund	$ 3,734,428	$ 2,204,525
Morley Stable Value Fund 30	2,205,831	4,122,835

There are no unfunded commitments on any of these funds, and there are no restrictions on redemptions. The above funds have varying investment strategies, and are substantially evident by the fund title.

Disclosures concerning assets measured at fair value on a recurring basis are as follows:

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions, if any, at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

8. Forfeitures

Forfeitures result from non-vested Company contributions remaining in the Plan from terminated employees. The forfeiture reserve of $55,688 and $54,972 at December 31, 2013 and 2012, respectively, is available to offset Company cash contributions or pay Plan expenses, which would be otherwise payable by the Company, in accordance with the Plan agreement.

9. Subsequent Events

Subsequent events were evaluated through July 22, 2014, which is the date the financial statements were available to be issued. Based on that evaluation, the Plan has determined that no subsequent events have occurred that require adjustment to or disclosure in the financial statements.
