WORDEN-MARTIN
EMPLOYEE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Worden-Martin, Inc. (the Company or Plan Sponsor) who have attained one year of service and 1,000 hours and who are at least twenty-one years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. In 2013 and 2012, the Company has chosen to match a deemed percentage of compensation that a participant contributes to the Plan according to the following tiered contribution structure:

0.25% of 1% contributed	1.25% of 5% contributed
0.50% of 2% contributed	1.50% of 6% contributed
0.75% of 3% contributed	1.75% of 7% contributed
1.00% of 4% contributed	2.00% of 8% contributed

Additional amounts may be contributed at the option of the Company's Board of Directors. The Company has chosen not to make any additional discretionary contributions to the Plan for the years ended December 31, 2013 or 2012. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting on any Company contributions is based on years of service. A participant is 100 percent vested after six years of credited service in any Company contributions.

Investment Options

Participants can direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers fifty-nine pooled separate accounts as investment options for Plan participants.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan sponsor pays some of the expenses incurred to maintain and administer the Plan and Trust.

Payment of Benefits

Benefits are recorded when paid.

On termination of service due to death, retirement, or disability, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants may request a hardship withdrawal of a portion of their account balance attributable to participant deferrals and vested employer contribution. Any hardship withdrawal is limited to the amount needed to meet the financial need.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Forfeited Accounts

Forfeited non-vested accounts are used first to cover costs of administration of the Plan and second to reduce employer-matching contributions. Any excess forfeitures shall be allocated to remaining participants' accounts. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $6,236 and $93, respectively. Forfeitures of terminated non-vested accounts allocated to cover costs of plan administration were $-0- and $50 for the years ended December 31, 2013 and 2012, respectively. Forfeitures of terminated non-vested accounts allocated to reduce employer matching contributions were $7,543 and $3,270 for the years ended December 31, 2013 and 2012, respectively.

NOTE 3 - SUMMARY OF INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan's administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

NOTE 5 - FAIR VALUE OF FINANCIAL INSTRUMENTS

Generally accepted accounting principles establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 - Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts: Valued based upon the underlying investments of units held by the Plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the report date.

NOTE 6 - INCOME TAX STATUS

The Plan has adopted a prototype plan which received an opinion letter, dated March 31, 2008, in which the Internal Revenue Service stated that the prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not requested a determination letter. The Plan administrators and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of American require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to route audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the year prior to 2010.

NOTE 7 - RELATED PARTY TRANSACTIONS

Plan investments are shares of pooled separate accounts managed by John Hancock Life Insurance Company USA, who is the custodian as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions.

The Plan paid fees to Benefit Planning Consultants (administrator service fees) of $5,027 and $5,675 in 2013 and 2012, respectively. The Plan also paid fees to John Hancock Life Insurance Company (contract administrator fees) of $-0- and $961 in 2013 and 2012, respectively. These companies are considered parties-in-interest.

NOTE 8 - TERMINATION OF PLAN

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan provides for various investment options in various combinations of investment funds. Investment funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 - SUBSEQUENT EVENTS

Management evaluated subsequent events through July 15, 2014, the date the financial statements were available to be issued. Events or transactions that provided evidence about conditions that did not exist at December 31, 2013, but arose before the financial statements were available to be issued have not been recognized in the financial statements for the year ended December 31, 2013.
