NOTES

NOTE 1 DESCRIPTION OF PLAN

The following description of *West Star Aviation, Inc. 401(k) Profit Sharing Plan* (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which was adopted on January 1, 1989, by West Star Aviation, Inc. (the "Corporation"), and amended April 1, 2010, is a 401(k) and profit sharing plan covering all eligible employees of the Corporation. An employee will become eligible for participation subsequent to attaining age 18 and completing four months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to an annual maximum of 65% of eligible compensation, as defined in the Plan, or $17,500. The total of employee and employer contributions for a given year cannot exceed the lesser of $51,000 or 100% of the employee's annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Corporation may make a matching contribution on behalf of each active participant who had salary deferrals to the Plan during the Plan year. The percentage or amount shall be at the sole discretion of the Corporation. The Corporation made a matching contribution of 50% for each eligible participant's elective deferral contribution to the Plan up to 6% of a participant's eligible compensation. The Corporation made a matching contribution of $303,912 for the year ended December 31, 2013.

Each year the Corporation may make a discretionary profit sharing contribution to be determined annually based on a percentage of eligible employee salaries. Employees must have 1,000 hours of service to be eligible. The Corporation did not elect to make a discretionary profit sharing contribution for the year ended December 31, 2013.

Participants may also contribute post-tax monies up to an annual maximum of $5,500 into a Roth IRA. A participant's contribution into a Roth IRA has no bearing on the maximum amount of pre-tax contributions.

Participant Accounts

Each participant account is credited with participant contributions, Corporation matching and profit sharing contributions, if any, an allocation of the Plan's earnings, and charged an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Participants are also vested immediately in the Corporation's matching contribution account. Participants vest 10% per each of the first two years of service and 20% per year of service until they are 100% vested in profit-sharing contributions after six years of credited service.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

Participants who terminate their employment and are less than 100% vested in their profit-sharing account will forfeit the non-vested portion. Forfeitures are retained in the Plan and used first to reduce future Plan administration fees and then applied to employer contributions. For the year ended December 31, 2013, no forfeitures were used to reduce employer contributions. For the year ended December 31, 2012, forfeited funds totaling $8,832 were used to reduce employer contributions. As of December 31, 2013 and 2012, forfeitures available to the Plan totaled $732 and $200, respectively.

Participant Hardship Withdrawals

Participants may withdraw from the Plan that portion of their account resulting from salary deferrals in the event of undue financial hardship, as defined in the Plan. The maximum hardship withdrawal is the total of a participant's elected deferral and rollover accounts. Participants are suspended from making elective contributions for six months following a hardship withdrawal.

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant account and bear interest at a rate that is consistent with the provisions of the Internal Revenue Code ("IRC"), U.S. Department of Labor, and other applicable legal requirements. Principal and interest is paid ratably through payroll deductions. Loans must be repaid through payroll deductions within five years unless the loan is used for the purchase of a primary residence.

Payment of Benefits

The Plan provides for retirement benefits to begin upon retirement. Retirement age for the Plan is age 60. Under current law, payment of benefits shall commence no later than the attainment of 70 ½ years of age. Upon death and total or permanent disability of a participant while employed, the account balance becomes fully vested.

On termination of service, participants with account balances of $1,000 or less will receive a lump sum amount equal to the value of their vested account balance. The distribution will be made as soon as administratively feasible. Account balances between $1,001 and $5,000 will be rolled over directly to an IRA established by the Plan, for the participant. Participants with account balances greater than $5,000 may elect for an immediate lump sum distribution or for distributions received in substantially equal installments.

Deemed Distributions

The deemed distributions are a result of participants with outstanding loan balances exiting the Plan during the Plan year.

Investment Options

Upon enrollment in the Plan, a participant may direct employer and employee contributions to any of the applicable investment options available under the Plan.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Plan Termination

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their profit-sharing contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Plan Benefits presents the contract value of the investment contract which approximates fair value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Administrative Expenses

The administrative expenses of the Plan are paid by the Corporation and participants of the Plan.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from estimated amounts.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (quoted market prices). The Corporation determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian and insurance company. Notes receivable due from participants are valued at their outstanding balances, which approximate fair value. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 3 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level I – Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level II – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Valued at the daily closing price as reported by the fund. Pooled separate accounts held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The pooled separate accounts held by the Plan are valued at a unit value which approximates the fair value of the underlying mutual funds which are deemed to be actively traded.

Insurance company general account: Insurance company general accounts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Corporation evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

NOTE 4 INVESTMENTS AND CONCENTRATIONS OF CREDIT RISK

The following presents investments that represent 5% or more of the Plan's net assets as of December 31:

		2013	2012
Investments, at Fair Value			
Value of funds held in pooled separate accounts			
NBRGR Partners Fund	$	2,640,658	$ 2,180,955

Loomis Sayles Bond Fund		N/A	839,056

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $3,008,608 as follows:

Growth funds	$	971,101
Bond funds		54,916
Blend funds		878,271
Value funds		1,078,683
Insurance company general account		25,637
Total Appreciation	$	3,008,608

NOTE 5 CONTRACT WITH INSURANCE COMPANIES

As of December 31, 2013 and 2012, the Plan participated in a fully benefit-responsive investment contract with Transamerica under group annuity contract #998908. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, which approximates fair market value, as reported to the Plan by Transamerica. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was $1,591,936 and $1,374,412, respectively. The average yield and crediting interest rate was approximately 1.70% and 2.00% for the years ended December 31, 2013 and 2012, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed semi annually for resetting.

NOTE 5 CONTRACT WITH INSURANCE COMPANIES (CONTINUED)

Certain events limit the Plan's ability to transact at contract value with Transamerica. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 6 TAX STATUS

On March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code ("IRC") Section 401(a). The Plan has not received a determination letter specific to the Plan itself, however the Plan trustee and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has been amended since the prototype adopted by the Plan was accepted by the IRS. The Plan trustee believes that the Plan is designed and is currently operating in compliance with the applicable requirements of the code. The Plan trustee is not aware of any action or event that has occurred that might affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Corporation has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan trustee has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan trustee believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by Transamerica. Transamerica was also the Custodian of the Plan assets and therefore, these transactions qualify as party-in-interest transactions. The fees paid by the Plan for the investment management services are netted with the investment income (loss) on each investment option of the Plan for the year ended December 31, 2013.

NOTE 8 INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to be complete and accurate by Transamerica at December 31:

	2013	2012
Investments, at fair value		
Pooled separate accounts	$ 15,491,201	$ 11,852,727
Insurance company general account	1,591,936	1,374,412
Net investment income from pooled separate accounts	2,982,971	
Net investment income from insurance company general account	25,637	
Interest on notes receivable from participants	21,973	
Fees	6,916	

NOTE 9 BENEFIT OBLIGATIONS

Included in net assets available for benefits are amounts allocated to individuals who have elected to withdraw from the Plan, but who have not been paid. Plan assets allocated to these participants were $2,150,592 and $1,580,497 at December 31, 2013 and 2012, respectively.

NOTE 10 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 SUBSEQUENT EVENTS

Management has evaluated subsequent events through the audit reported date, the date which the financial statements were available to be issued and did not note any items which require disclosure.
