NOTE 1 - PLAN DESCRIPTION

The following description of the MEDNAX Services, Inc. Thrift and Profit Sharing Plan (the "Plan") is provided for general information purposes only. More complete information regarding items such as vesting, benefit provisions and plan termination may be found in the Plan document which is available to all participants upon request.

General: The Plan is a tax qualified defined contribution plan covering substantially all employees of MEDNAX, Inc. (the "Company") and the employees of the professional associations whose operations are consolidated with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 1, 2013, the AMAET LLC Profit Sharing 401(k) Plan (the "AMAET Plan") merged into the Plan. Certain provisions of the Plan were amended to add AMAET, LLC as a predecessor employer for service eligibility and vesting, and in-service withdrawal limits. In addition, employees who were participants in the AMAET Plan on the effective date of the merger may, upon attaining age 55, withdraw employer matching contributions and non-elective employer contributions other than the safe harbor contributions.

Plan Administration: The Plan is administered by certain employees of the Company (the "Plan Administrator"). The Plan's assets are maintained by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan, for the years ended December 31, 2013 and 2012. Fidelity Investments Institutional Operations Company, Inc. is the record keeper of the Plan. American Portfolios Financial Services, Inc. served as an independent investment advisor to the Plan Administrator through September 30, 2013. BB&T Institutional Investment Advisors, Inc. was appointed to serve as an independent investment advisor to the Plan Administrator beginning on October 1, 2013.

Eligibility: An employee becomes eligible to participate in the Plan on the first day of each calendar quarter after having attained age 21.

Contributions: The Company may, at the discretion of its Board of Directors, contribute for each participant a matching contribution determined annually based on a percentage of the participant's pre-tax contributions. The Company matched up to 4% percent of the participants' eligible compensation in 2013 and 2012. In addition, the Company may also make discretionary profit sharing contributions to the Plan at amounts determined at the end of the Plan year by the Board of Directors. The Company did not make profit sharing contributions in 2013 or 2012.

Participants may elect to make voluntary pre-tax contributions up to 60 percent of eligible annual compensation including regular salary and wages, overtime pay, bonuses and commissions through payroll deductions, subject to certain Internal Revenue Code ("IRC") limitations as defined below. Such contributions are excluded from the participant's taxable income for federal income tax purposes until received as a withdrawal or distribution from the Plan. The maximum pre-tax contributions permitted for the years ended December 31, 2013 and 2012 were $17,500 and $17,000, respectively. In addition to any pre-tax contributions, participants may make after tax contributions, not to exceed 100 percent of the participant's compensation, subject to IRC Section 415 limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make catch-up contributions of up to $5,500 during the years ended December 31, 2013 and 2012.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's discretionary contributions and (b) the Plan's earnings and losses. Allocation of the Plan's earnings or losses in each investment option are made to the individual participant's account based on the ratio of each participant's current account balance in the respective investment option to total Plan participants' account balances in the respective investment option. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options: Upon enrollment in the Plan, a participant may direct contributions to the Plan into any of the available investment options.

The Plan stopped accepting new contributions and exchanges to the MEDNAX Stock Fund in 2008. Any assets in the stock fund at that time remain there unless the participant transfers them to other investment alternatives.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the portion of their accounts related to the Company's contribution plus related earnings is based on years of credited service. A participant is fully vested after three years of credited service as follows:

Years of Service	Vested Percentage
Less than 1	0%
1	30%
2	60%
3	100%

Payment of Benefits: Upon normal retirement, death, disability or termination, participants with balances equal to or exceeding $1,000, may elect to receive their vested account balance as a lump-sum distribution; or have their account balance transferred to an individual retirement account or other qualified plan. If the participants' balances are lower than $1,000, they will be automatically distributed as a lump-sum upon termination.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50 percent of their account balance or $50,000 reduced by the highest outstanding loan balance in their account during the prior twelve month period. The loans are collateralized by the balance in the participant's account and bear interest at rates ranging between 4.25% and 10.25% as determined by the Plan Administrator. Repayments of principal and interest are credited back to the participant's account through payroll deductions on at least a quarterly basis. The term of the loan must not exceed five years, except for qualified home loans, which must not exceed ten years.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Forfeitures: Forfeitures of the non-vested portion of participant's account balances related to the Company's contributions may be used to offset future Company contributions. The December 31, 2013 and 2012 employer contributions receivable is reported net of $175,000 and $250,000, respectively, in forfeitures used subsequent to year end. Forfeitures held in the Plan and available to offset future Company contributions were approximately $242,000 and $345,000 at December 31, 2013 and 2012, respectively.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and certain broker fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Broker fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other costs incurred in administering the Plan are paid by the Company which includes legal, accounting, trustee, and investment management fees. Total amounts paid by the Company during 2013 and 2012 were approximately $42,000 and $79,000, respectively.

Plan Termination: While the Company has not expressed any intent to terminate the Plan, it reserves the right at any time to amend, modify or terminate the Plan without the consent of any participant or beneficiary. In the event of such termination, the Plan provides that the participants shall become 100 percent vested in their accounts, including all employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Valuation of Investments and Income Recognition: The Plan's investments are reported at fair value as further described in Notes 3 and 4. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balance.

Payment of Benefits: Benefits are recorded when paid.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICPIANTS

Substantially all information pertaining to the Plan's investments and notes receivables from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent auditors.

The following presents the fair values of investments that represent 5 percent or more of the Plan's net assets available for benefits.

	2013	2012
Vanguard Growth Index Fund	$110,661,431	$ 84,745,260
Spartan 500 Index Fund	62,282,103	41,932,418
Vanguard Small Growth Index Fund	51,464,587	35,666,169
Spartan International Index Fund	50,262,386	37,942,228
Fidelity Retirement Money Market Fund	47,165,316	43,115,671

During the year ended December 31, 2013 and 21012, the Plan's investments (including realized gains and losses on investments purchased and sold) appreciated in value as follows:

	2013	2012
Mutual funds	$102,814,882	$ 38,264,968
MEDNAX, Inc. common stock	3,901,899	1,169,676
Self-directed brokerage account	9,151,967	9,731,736
Net appreciation	$115,868,748	$ 49,166,380

The trustee reported that the Plan earned interest and dividends totaling $16,653,051 and $12,435,454 during 2013 and 2012, respectively.

NOTE 4 - FAIR VALUE MEASUREMENTS AND DISCLOSURES

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are based upon the closing net asset value per share of the mutual fund on the day of the valuation as reflected on a national securities exchange (level 1 inputs).

Company common stock: The fair values of MEDNAX, Inc. common stock are determined by obtaining quoted prices from a nationally recognized exchange (level 1 inputs).

Self-directed brokerage account: The self-directed brokerage account is invested in mutual funds, common stock, preferred stock, U.S. Treasury securities, corporate bonds, and certificates of deposit. The fair values of the mutual fund investments are based upon the methods and assumptions previously disclosed (level 1 inputs). The fair values of the common stock are determined by obtaining quoted prices from a nationally recognized exchange (level 1 inputs). The fair values of preferred stock are determined by obtaining quoted prices from a nationally recognized exchange (level 1 inputs) and by obtaining the closing price determined based on observable market data as reported on the market in which the individual securities are traded (level 2 inputs). The U.S. Treasury securities fair values reflect the closing price reported in the active market in which the security is traded (level 1 inputs). The corporate bonds are valued based on pricing information obtained from an independent pricing vendor. The pricing vendor uses pricing models with inputs derived from market observable resources considered by management to be reliable (level 2). The certificates of deposit are valued based on observable broker quotes (level 2 inputs).

NOTE 4 - FAIR VALUE MEASUREMENTS AND DISCLOSURES (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are set forth by level, within the fair value hierarchy, below:

NOTE 5 - INCOME TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype document written by Fidelity Management & Research Company and adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. The Plan invests in shares of mutual funds issued by Fidelity Investments, an affiliate of Fidelity Management Trust Company (FMTC), the Plan trustee. Transactions in such investments and the Plan's payment of record keeping and investment management fees to FMTC and Fidelity Investments qualify as party-in-interest transactions. The Plan holds shares of MEDNAX, Inc. common stock that was previously an investment option and has not been transferred as discussed in Note 1. No dividend income was recognized during 2013 or 2012 from this related-party investment. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 1 - PLAN DESCRIPTION

The following description of the MEDNAX Services, Inc. Thrift and Profit Sharing Plan (the "Plan") is provided for general information purposes only. More complete information regarding items such as vesting, benefit provisions and plan termination may be found in the Plan document which is available to all participants upon request.

General: The Plan is a tax qualified defined contribution plan covering substantially all employees of MEDNAX, Inc. (the "Company") and the employees of the professional associations whose operations are consolidated with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 1, 2013, the AMAET LLC Profit Sharing 401(k) Plan (the "AMAET Plan") merged into the Plan. Certain provisions of the Plan were amended to add AMAET, LLC as a predecessor employer for service eligibility and vesting, and in-service withdrawal limits. In addition, employees who were participants in the AMAET Plan on the effective date of the merger may, upon attaining age 55, withdraw employer matching contributions and non-elective employer contributions other than the safe harbor contributions.

Plan Administration: The Plan is administered by certain employees of the Company (the "Plan Administrator"). The Plan's assets are maintained by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan, for the years ended December 31, 2013 and 2012. Fidelity Investments Institutional Operations Company, Inc. is the record keeper of the Plan. American Portfolios Financial Services, Inc. served as an independent investment advisor to the Plan Administrator through September 30, 2013. BB&T Institutional Investment Advisors, Inc. was appointed to serve as an independent investment advisor to the Plan Administrator beginning on October 1, 2013.

Eligibility: An employee becomes eligible to participate in the Plan on the first day of each calendar quarter after having attained age 21.

Contributions: The Company may, at the discretion of its Board of Directors, contribute for each participant a matching contribution determined annually based on a percentage of the participant's pre-tax contributions. The Company matched up to 4% percent of the participants' eligible compensation in 2013 and 2012. In addition, the Company may also make discretionary profit sharing contributions to the Plan at amounts determined at the end of the Plan year by the Board of Directors. The Company did not make profit sharing contributions in 2013 or 2012.

Participants may elect to make voluntary pre-tax contributions up to 60 percent of eligible annual compensation including regular salary and wages, overtime pay, bonuses and commissions through payroll deductions, subject to certain Internal Revenue Code ("IRC") limitations as defined below. Such contributions are excluded from the participant's taxable income for federal income tax purposes until received as a withdrawal or distribution from the Plan. The maximum pre-tax contributions permitted for the years ended December 31, 2013 and 2012 were $17,500 and $17,000, respectively. In addition to any pre-tax contributions, participants may make after tax contributions, not to exceed 100 percent of the participant's compensation, subject to IRC Section 415 limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make catch-up contributions of up to $5,500 during the years ended December 31, 2013 and 2012.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's discretionary contributions and (b) the Plan's earnings and losses. Allocation of the Plan's earnings or losses in each investment option are made to the individual participant's account based on the ratio of each participant's current account balance in the respective investment option to total Plan participants' account balances in the respective investment option. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options: Upon enrollment in the Plan, a participant may direct contributions to the Plan into any of the available investment options.

The Plan stopped accepting new contributions and exchanges to the MEDNAX Stock Fund in 2008. Any assets in the stock fund at that time remain there unless the participant transfers them to other investment alternatives.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the portion of their accounts related to the Company's contribution plus related earnings is based on years of credited service. A participant is fully vested after three years of credited service as follows:

Years of Service	Vested Percentage
Less than 1	0%
1	30%
2	60%
3	100%

Payment of Benefits: Upon normal retirement, death, disability or termination, participants with balances equal to or exceeding $1,000, may elect to receive their vested account balance as a lump-sum distribution; or have their account balance transferred to an individual retirement account or other qualified plan. If the participants' balances are lower than $1,000, they will be automatically distributed as a lump-sum upon termination.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50 percent of their account balance or $50,000 reduced by the highest outstanding loan balance in their account during the prior twelve month period. The loans are collateralized by the balance in the participant's account and bear interest at rates ranging between 4.25% and 10.25% as determined by the Plan Administrator. Repayments of principal and interest are credited back to the participant's account through payroll deductions on at least a quarterly basis. The term of the loan must not exceed five years, except for qualified home loans, which must not exceed ten years.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Forfeitures: Forfeitures of the non-vested portion of participant's account balances related to the Company's contributions may be used to offset future Company contributions. The December 31, 2013 and 2012 employer contributions receivable is reported net of $175,000 and $250,000, respectively, in forfeitures used subsequent to year end. Forfeitures held in the Plan and available to offset future Company contributions were approximately $242,000 and $345,000 at December 31, 2013 and 2012, respectively.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and certain broker fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Broker fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other costs incurred in administering the Plan are paid by the Company which includes legal, accounting, trustee, and investment management fees. Total amounts paid by the Company during 2013 and 2012 were approximately $42,000 and $79,000, respectively.

Plan Termination: While the Company has not expressed any intent to terminate the Plan, it reserves the right at any time to amend, modify or terminate the Plan without the consent of any participant or beneficiary. In the event of such termination, the Plan provides that the participants shall become 100 percent vested in their accounts, including all employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Valuation of Investments and Income Recognition: The Plan's investments are reported at fair value as further described in Notes 3 and 4. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balance.

Payment of Benefits: Benefits are recorded when paid.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICPIANTS

Substantially all information pertaining to the Plan's investments and notes receivables from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent auditors.

The following presents the fair values of investments that represent 5 percent or more of the Plan's net assets available for benefits.

	2013	2012
Vanguard Growth Index Fund	$110,661,431	$ 84,745,260
Spartan 500 Index Fund	62,282,103	41,932,418
Vanguard Small Growth Index Fund	51,464,587	35,666,169
Spartan International Index Fund	50,262,386	37,942,228
Fidelity Retirement Money Market Fund	47,165,316	43,115,671

During the year ended December 31, 2013 and 21012, the Plan's investments (including realized gains and losses on investments purchased and sold) appreciated in value as follows:

	2013	2012
Mutual funds	$102,814,882	$ 38,264,968
MEDNAX, Inc. common stock	3,901,899	1,169,676
Self-directed brokerage account	9,151,967	9,731,736
Net appreciation	$115,868,748	$ 49,166,380

The trustee reported that the Plan earned interest and dividends totaling $16,653,051 and $12,435,454 during 2013 and 2012, respectively.

NOTE 4 - FAIR VALUE MEASUREMENTS AND DISCLOSURES

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are based upon the closing net asset value per share of the mutual fund on the day of the valuation as reflected on a national securities exchange (level 1 inputs).

Company common stock: The fair values of MEDNAX, Inc. common stock are determined by obtaining quoted prices from a nationally recognized exchange (level 1 inputs).

Self-directed brokerage account: The self-directed brokerage account is invested in mutual funds, common stock, preferred stock, U.S. Treasury securities, corporate bonds, and certificates of deposit. The fair values of the mutual fund investments are based upon the methods and assumptions previously disclosed (level 1 inputs). The fair values of the common stock are determined by obtaining quoted prices from a nationally recognized exchange (level 1 inputs). The fair values of preferred stock are determined by obtaining quoted prices from a nationally recognized exchange (level 1 inputs) and by obtaining the closing price determined based on observable market data as reported on the market in which the individual securities are traded (level 2 inputs). The U.S. Treasury securities fair values reflect the closing price reported in the active market in which the security is traded (level 1 inputs). The corporate bonds are valued based on pricing information obtained from an independent pricing vendor. The pricing vendor uses pricing models with inputs derived from market observable resources considered by management to be reliable (level 2). The certificates of deposit are valued based on observable broker quotes (level 2 inputs).

NOTE 4 - FAIR VALUE MEASUREMENTS AND DISCLOSURES (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are set forth by level, within the fair value hierarchy, below:

NOTE 5 - INCOME TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype document written by Fidelity Management & Research Company and adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. The Plan invests in shares of mutual funds issued by Fidelity Investments, an affiliate of Fidelity Management Trust Company (FMTC), the Plan trustee. Transactions in such investments and the Plan's payment of record keeping and investment management fees to FMTC and Fidelity Investments qualify as party-in-interest transactions. The Plan holds shares of MEDNAX, Inc. common stock that was previously an investment option and has not been transferred as discussed in Note 1. No dividend income was recognized during 2013 or 2012 from this related-party investment. Notes receivable from participants also reflect party-in-interest transactions.
