Notes to Financial Statements
Years Ended December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Megastar Financial Corp. 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of the Company who have completed 1 year of service and who meet the Plan's eligibility requirements. The Plan excludes from eligibility those employees who are non-resident aliens and union employees. The Plan is subject to the provisions of ERISA.

Plan Administrator

The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Trustee and recordkeeping services are provided by Frontier.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of: (a) the Company's contribution, (b) Plan earnings, and (c) participant forfeitures, and can be charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participants are vested immediately in their contribution plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after 6 years of credited service. If a participant terminates employment the non-vested portion forfeited by the employee is used to reduce Company contributions or pay Plan administration fees. At December 31, 2013 and 2012, the Plan did not have any forfeited non-vested accounts.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.00%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Maturity dates range from July 2014 to July 2025. Principal and interest is paid ratably through monthly payroll deductions.

Contributions

Eligible participants may contribute up to 100% of eligible compensation limited to $17,500 in 2013 and $17,000 in 2012. Eligible participants who are age 50 or more may make an additional catch-up contribution up to $5,500 in 2013 and 2012. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Company matching contributions are discretionary. Participants direct the investment of their contributions into the various investment options offered by the Plan, which includes cash equivalents and mutual funds.

Payment of Benefits

On termination of service for account balances less than $1,000, a lump-sum distribution may be made at the Company's discretion. For account balances greater than $1,000, the participant may elect to receive a lump-sum distribution of the vested balance, periodic installments or annuity distribution. For the account balances less than $5,000, where the participant does not elect either to receive or to roll over the distribution, the Plan trustee will establish an IRA rollover account for the benefit of the participant. Account balances can be distributed prior to termination or retirement age for hardship claims, death or disability as defined in the Plan agreement.

The normal retirement age under the Plan is 65.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Administration Fees

Significant costs of Plan administration are absorbed by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates

The preparation of financial statements are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States. This requires the Plan to make estimates and assumptions that affect the reported amounts of assets, liabilities, net assets available for benefits, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Although the Plan uses its best estimates and judgments, actual results could differ from these estimates as future confirming events occur.

Cash Equivalents

The Plan considers all unrestricted, highly-liquid investments with an initial maturity of 90 days or less to be cash equivalents.

Guaranteed Investment Contract

The guaranteed investment contract is a fully benefit-responsive contract; therefore, the contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfers of all or a portion of their investment at contract value.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document. At December 31, 2013 and 2012, there were no delinquent notes receivable from participants.

Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned and dividends are recorded on the ex-dividend date. Capital gain distributions are included in investment income. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Plan determines the fair values of its assets and liabilities based on a fair value hierarchy that includes three levels of inputs that may be used to measure fair value. The three levels are defined as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. An active market is a market in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

Level 2 inputs are those other than quoted prices that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs reflect the Plan's own financial model using assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The following methods and assumptions were used to estimate the fair value of assets:

(a) Cash and cash equivalents and investments at fair value are stated at fair value as determined by quoted market prices of the underlying investments and are classified as Level 1.

(b) The guaranteed investment contract is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Guaranteed investment contracts are classified as Level 3.

NOTE 3 - INVESTMENTS

The following investments represent 5% or more of the Plan's net assets as of December 31,

NOTE 4 - GUARANTEED INVESTMENT CONTRACT

The Plan invests in a fully benefit-responsive guaranteed investment contract with the Trustee. The Trustee maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract values for credit risk of the contract issuers. The fair value of the investment contract at December 31, 2013 and 2012 was $583,685 and $783,044, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are set by contractual agreement. The guaranteed investment contract does not permit Frontier to terminate the agreement prior to the scheduled maturity date.

Based on Actual Earnings	0.85%	1.09%

The amounts are also included in the Plan's statements of net assets available for benefits as refund of excess contributions at December 31, 2013 and 2012.

NOTE 7 - INFORMATION CERTIFIED BY TRUSTEE

The Plan's investments are currently held in safekeeping with Frontier. Investments are in accordance with the policy set by the Plan's administrator or by subsequent policy amendments. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rule and Regulations for Reporting and Disclosure under ERISA. Accordingly, Frontier has certified the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, the related investment activity reflected in the statement of changes in net assets available for benefits for the years then ended, and the supplemental Schedule H - Line 4(i) - Schedule of Assets (Held At End Year) as of December 31, 2013.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan terminations, participants have a 100% non-forfeitable interest in their accounts, including Company contributions.

NOTE 9 - TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that the Plan is qualified and the related trust is tax-exempt.

NOTE 9 - TAX STATUS (CONTINUED)

Generally accepted accounting principles requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2010.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
