Carroll Distributing Company Employee Benefit Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN

The following description of Carroll Distributing Company Employee Benefit Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of Carroll Distributing Company ("the Company"), who worked more than 1,000 hours during the Plan year, have completed one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation as defined in the Plan and subject to ERISA limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers numerous pooled separate accounts and a stable value fund as investment options for participants. The Company makes discretionary matching contributions each year equal to 50% of each individual participant deferral up to 6% of participants' gross wages. The Company may also elect at the discretion of its Board of Directors to make additional discretionary employer contributions. For the year ended December 31, 2013, the Company made total employer contributions of $141,833. Contributions are subject to certain limitations.

3. Forfeitures

Forfeitures are used to reduce employer contributions. Forfeited nonvested accounts totaled $0 for years ending December 31, 2013 and 2012, respectively. During 2013 and 2012, forfeited nonvested accounts used to reduce employer matching contributions were $0 and $1,631, respectively.

4. Participant accounts

Each participant's account is credited with the participant's contribution and Company contributions, as well as an allocation of a) Plan earnings and b) administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN (continued)

5. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A year of service is earned when a participant works more than 1,000 hours in a calendar year. A participant begins to vest after they have completed two years of service (20%) and will be fully vested after six years of service.

6. Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 2% above the prime rate, as defined. Principal and interest are paid ratably through payroll deductions.

7. Payment of benefits

On termination of service, attainment of retirement age, death, disability or hardship, benefits equal to the value of the participant's vested interest in his or her account are paid in a lump-sum amount.

8. Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For the year ended December 31, 2013, the estimated fair value approximates the contract value and no adjustment was required.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

1. Basis of accounting (continued)

For the year ended December 31, 2012, the difference between the fair value and the contract value is shown on the statement of net assets available for benefits as a reconciling item from the fair value of the net assets and the net assets available for benefits.

2. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management and the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

3. Investments, valuation, and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant life insurance policies are valued at cash surrender values as reported by the insurance carrier. There were no significant differences between cash surrender value and fair value at December 31, 2013 and 2012. Net appreciation includes the Plan's increases in the cash surrender values on insurance policies held during the year.

4. Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

5. Payment of benefits

Benefits are recorded when paid.

NOTE C - INVESTMENTS

John Hancock Life Insurance Company, the trustee, holds the Plan's investments and executes investment transactions. The following is a summary of the Plan's financial information that is included in the financial statements, accompanying notes and supplemental schedule of assets held for investment purposes, based on information certified by the trustee and agents on behalf of the trustee as complete and accurate in accordance with Section 2520.103-5 of the Department Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As directed by the plan administrator, this information is unaudited. The information certified includes total investments of $6,576,786 and $5,446,834 at December 31, 2013 and 2012, respectively, and net related investment income and market value gains of $856,457 for the year ended December 31, 2013. The trustee also certifies the notes receivable from participants.

Investments that represent 5% or more of the Plan's net assets are separately identified as follows:

	2013	2012
John Hancock Lifestyle Fund - Balanced Portfolio	$ 4,848,446	$ 4,007,891

The Plan's investments, including investments bought, sold and held during the year, appreciated in value during the year ended December 31, 2013 as follows:

Pooled separate accounts	$ 853,725
Interest on stable value fund	$ 2,732
Increase in cash surrender value of life insurance policies	$ 364

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

NOTE D - FAIR VALUE MEASUREMENTS (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets • quoted prices for identical or similar assets or liabilities in inactive markets • inputs other than quoted prices that are observable for the asset or liability • inputs that are derived principally from or corroborated by observable market data by correlation or other means If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts: The fair value of pooled separate accounts is based on quoted net asset value (NAV) of the shares held by the Plan at year-end. The fair values held in the pool of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Life Insurance Policies: Valued based upon reported cash surrender values as provided by the insurance carrier.

NOTE D - FAIR VALUE MEASUREMENTS (continued)

Stable Value Fund: Valued at the NAV of units of an insurance collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31.

2013

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31.

	Life Insurance

Balance, December 31, 2012	17,598
Increase in cash surrender value	364

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2013, there were no transfers into or out of Level 3 except for participant directed transfers as noted above.

NOTE D - FAIR VALUE MEASUREMENTS (continued)

Fair Value of Investments in Entities that Use Net Asset Value

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2013 and 2012, respectively.

2013	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate accounts	$ 6,372,656	n/a	Daily	n/a
Stable value fund	$ 204,130	n/a	Daily	up to 30 days

2012	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate accounts	$ 5,191,307	n/a	Daily	n/a
Stable value fund	$ 264,982	n/a	Daily	up to 30 days

NOTE E - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments at the reporting date are shares of mutual funds and stable value funds that are managed by John Hancock. John Hancock is the custodian, as defined by the Plan, and therefore these transactions qualify as Party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations. Total administrative expenses were $3,938 for the year ended December 31, 2013.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE G - INCOME TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan adheres to the provisions of FASB ASC 740, *Income Taxes*, which establishes rules for recognizing and measuring tax positions taken in an income tax return, including disclosures of uncertain tax positions (UTPs). FASB ASC 740 mandates that companies evaluate all material income tax positions for periods that remain open under applicable statutes of limitation, as well as positions expected to be taken in future returns. The UTP rules then impose a recognition threshold on each tax position. A Plan can recognize an income tax benefit only if the position has a "more likely than not" (i.e. more than 50 percent) chance of being sustained on the technical merits. For the years ended December 31, 2013 and 2012, the Plan has taken no material tax positions on its applicable tax filings that do not meet the more likely than not threshold. As a result, no amount for UTPs has been included in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities, which are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The attached financial statements report notes receivables from participants as a receivable to the Plan, while Form 5500 reports these balances as a general investment on Schedule H.
