INDEPENDENT AUDITORS' REPORT

To the Participants and Administrative Committee of the
Fleetwood-Fibre Packaging & Graphics, Inc.
Retirement Savings & Profit Sharing Plan
City of Industry, California

Report on the Financial Statements

We were engaged to audit the financial statements of the Fleetwood-Fibre Packaging & Graphics, Inc. Retirement Savings & Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of October 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended October 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company and Principal Trust Company (collectively referred to as "Principal"), the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from these trustees as of and for the years ended October 31, 2013 and 2012, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year), is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employment Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RETIREMENT SAVINGS & PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
OCTOBER 31, 2013

Note 1: Description of the Plan

The following description of the Fleetwood-Fibre Packaging & Graphics, Inc. Retirement Savings & Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution and profit sharing plan which was adopted by Fleetwood-Fibre Packaging & Graphics, Inc., (the "Company") effective November 1, 1996, and restated effective December 1, 2009, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all nonunion employees who have completed at least one month of credited service.

Contributions

Participants may contribute a percentage of their pretax annual compensation, as defined in the Plan, limited to the maximum deferral limitation, as defined in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company, at its discretion, may contribute employer matching and/or discretionary contributions to the Plan. It may suspend and resume the matching contribution at any time. Only participants who are actually employed on the last day of the Plan year are eligible to share in the discretionary contribution for that year. An employee must have been an active participant at any time during the plan year and at least 1,000 hours of service to be eligible for the discretionary contribution. Effective November 1, 2012, the Company reinstated the previously suspended employer match to be 50 percent of employee deferral contributions up to an initial 2 percent of gross wages. For the year ended October 31, 2013, the Company made employer matching contributions of $71,701. Effective November 1, 2013, the Company increased the employer match to be 50 percent of employee deferral contributions up to an initial 4 percent of gross wages.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Note 1: Description of the Plan (Continued)

Vesting

Participants are fully vested in their contributions plus employer matching contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested at the rate of 20 percent each year after two years of service and is considered to be 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount can be a minimum of $1,000, but cannot exceed the lesser of (a) $50,000 or (b) one-half of the participant's vested account balance under the Plan. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through payroll deductions. The loans are secured by the vested account balance in the participant's account, and a participant can only have one outstanding loan at any time.

Benefit Payments

Vested accounts of $5,000 or less will be paid out in a single lump-sum distribution at termination, retirement, or death. For vested accounts more than $5,000, a participant may elect to receive either a lump-sum distribution, or select various types of annuities, as defined in the Plan document. Additionally, under certain circumstances of financial hardship, participants are allowed to withdraw their funds from the Plan.

Forfeitures

Forfeitures of the employees' nonvested portion of the Company's contributions may be used to pay the Plan's expenses or to reduce future employer contributions. At October 31, 2013 and 2012, forfeited non-vested accounts approximated $10,000 and $24,700, respectively. Also, during the year ending October 31, 2013, employer contributions were reduced by $20,666 from forfeited non-vested accounts.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company, except for fees related to administration of participant loans, which are deducted from the applicable participants' accounts.

Note 1: Description of the Plan (Continued)

Administrative Expenses (Continued)

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as of October 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are accrued on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits in net realized and unrealized gains (losses) by each major investment type.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of October 31, 2013 and 2012. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Note 2: Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The process of preparing financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan held substantially all of its assets with one institution. In the event of the institution's failure, the Plan could be subject to losses in its unallocated guaranteed interest accounts which at October 31, 2013 and 2012, totaled $371,242 and $358,323, respectively. The Plan is also at risk of loss in any of its pooled separate accounts and investments in registered investment companies which could fail to the extent of the dollars invested in the funds.

Note 4: Information Prepared and Certified by Principal Life Insurance Company and Principal Trust Company

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Principal Life Insurance Company and Principal Trust Company.

	October 31, 2013	October 31, 2012
Investments, at Fair Value:		
Pooled Separate Accounts	$ 2,960,730	$ 3,246,660
Registered Investment Companies	12,494,267	9,902,705
Guaranteed Interest Accounts	371,242	358,323

Note 4: Information Prepared and Certified by Principal Life Insurance Company and Principal Trust Company (Continued)

Other than the fair value of the guaranteed interest accounts and the related adjustment from fair value to contract value for fully benefit responsive guaranteed interest accounts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Life Insurance Company and Principal Trust Company. The contract value of the guaranteed investment contract was certified by the Principal Life Insurance Company and Principal Trust Company.

Note 5: Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets:

	2013	2012
Pooled Separate Accounts:		
Principal Money Market Separate Account	$ 1,284,272	$ 1,247,494

JP Morgan MidCap Value R2 Fund	830,347	N/A
Columbia Small Cap Core A Fd	1,354,805	N/A

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 7: Withdrawn Participants

At October 31, 2013 and 2012 there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Note 8: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 22, 2010, that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter, however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under the present income tax law.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9: Fidelity Bond

ERISA requires that the Plan be covered by a fidelity bond. The amount of the bond must be equal to the lesser of 10 percent of the funds handled at the beginning of the year or $500,000. As of November 1, 2012, the Plan met the minimum bonding requirement.

Note 10: Parties-In Interest

The investments in pooled separate accounts and guaranteed interest accounts are managed by Principal, which is the trustee, as defined by the Plan, and; therefore, these investments qualify as party-in interest transactions. Notes receivable from participants represent loans to employees, and therefore, also qualify as party-in-interest transactions.

Note 11: Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *"Fair Value Measurements and Disclosure"*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2013 and 2012.

Pooled Separate Accounts: Valued at fair value as determined by the quoted market prices of the underlying assets, adjusted for any contractual provisions (i.e. administrative maintenance charges).

Note 11: Fair Value Measurements (Continued)

Registered Investment Companies: Valued at the net asset value of shares held by the Plan at year end. The value of mutual funds is determined by fair market value for each fund and is based upon quotations obtained from national securities exchanges and over-the-counter associations for the underlying investments in the funds.

Guaranteed Investment Contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. The guaranteed interest accounts are non-benefit responsive contracts.

Market values for each fund are valued by State Street's Princeton Financial Systems, LLC for securities, mutual funds, and mortgages.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of October 31, 2013:

	Level 1	Level 2	Level 3	Total

Note 12: Net Asset Value per Share (NAV)

The following table for October 31, 2013 and 2012 sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent):

	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled Separate Accounts:				
Large U.S. Equity	None	30 Days	None	None
Small/Mid U.S. Equity	None	Daily	None	None
Short Term Fixed Income	None	Daily	None	None

Large U.S. Equity

This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

Note 12: Net Asset Value per Share (NAV) (Continued)

Small/Mid U.S. Equity

This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

Short Term Fixed Income

This asset class is generally comprised of short-term, fixed-income investment options that are largely liquid and are designed to not lose much value. These investment options may include stable value, money market, short-term bond, and guaranteed interest accounts. They are considered to be among the least risky investment options. However, they typically have a lower rate of return than equities or longer-term fixed income investment options over long periods of time. Depending on the objectives of the investment options, they may experience price fluctuations and lose value.

Note 13: Excess Contributions Payable

ERISA requires the Plan to satisfy certain nondiscrimination provisions. For the years ended October 31, 2013 and 2012, the Plan is required to return some contributions in order to satisfy these provisions. At October 31, 2013 and 2012, the contributions payable totaled $16,591 and $6,148, respectively.

Note 14: Subsequent Events

Events occurring after October 31, 2013, have been evaluated for possible adjustment to the financial statements or disclosure as of July 15, 2014, which is the date the financial statements were available to be issued.
