A. Description of Plan

The following description of the Cherry Lake Tree Farms 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who have nine months of service and have attained age 21. The Plan has entered into a group funding agreement with Hartford Life Insurance Company and is subject to the provisions of the Employee Retirement Income Security Act 1974 (ERISA).

Contributions - Participants may make voluntary salary deferral contributions up to fifteen percent of their cumulative earnings from the employer for the time they actively participate in the plan. Participants may also contribute rollover amounts from other qualified plans.

The amount of profit sharing contribution is discretionary as determined by the employer.

Participant Account - Participants direct the investment of their contributions into various pooled separate accounts or a fixed income account offered by the Plan. The fixed income account is part of Hartford Life Insurance Company's general account and is subject to the claims of Hartford Life Insurance Company's general creditors. Each participant's account is credited with the participant's contribution and allocations of the employer's contribution. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. The following schedule applies to vesting in employer contributions: 1 year, 25%; 2 years, 50%; 3 years, 100%.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from 1-5 years. Loans for the purchase of a primary residence can be made for longer periods of time. The loans are secured by an interest in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratable through monthly payroll deductions.

Forfeitures - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Non-matching contribution forfeitures are allocated among participants. Matching contribution forfeitures are used to reduce the employer's matching contribution. At June 30, 2012 and 2011, forfeited non-vested amounts totaled $43 and $42 respectively. There were no forfeitures for the year ending June 30, 2012.

Payment of Benefits - Upon retirement (with normal retirement age of 65), a participant may elect to receive either a single sum payment equal to the value of his or her account or installments. On termination of service, a participant may elect to receive a single sum payment equal to the vested value

of his or her account or rollover the account. If the account's value, excluding any rollovers, exceeds $5,000, the participant may elect to continue in the plan with the existing balance.

B. Summary of Account Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. General account transfer provisions in the Plan's contract prevent the contract from meeting the definition of fully benefit-responsive. If the pooled separate accounts were analyzed on their own, the contract would meet the definition of fully benefit-responsive. However, the Plan's custodian does not believe a reasonable method exists for determining fair value at an amount that differs from contract value for the general account. Therefore, the Plan's custodian believes contract value is the most reasonable estimate of the general account's fair value.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Plan investments consists of a guaranteed return account and pooled separate accounts which invest in mutual funds. For information regarding the valuation of these investments, see Note C below. Purchases and sales of funds are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses – Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Date of Management's Review - Subsequent events were evaluated through November 8, 2012, which is the date the financial statements were available to be issued.

C. Fair Value Measurements

Financial Accounting Standards Board's Accounting Standards Codification (FASB ASC) Topic 820, Fair Value Measurements and Disclosures (FASB ASC 820) defines fair value, requires expanded

disclosures about fair value measurements, and establishes a three-level hierarchy for fair value measurements based on the observable inputs to the valuation of an asset or liability at the measurement date. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC 820 prioritizes the inputs to the valuation techniques used to measure fair value by giving the highest priority to unadjusted quoted prices in active markets for identical assets (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The levels of fair value hierarchy applied to the Plan's investments at June 30, 2012 and 2011 are as follows:

Investment	Valuation Method	Hierarchy Level	2012	2011
Pool separate accounts	Unit value	2	1,244,725	1,201,702
Fixed (General) Account	Liquidation value	2	38,709	37,623

The June 30, 2012 Statement of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended June 30, 2012 and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Hartford Retirement Plans Group in accordance with 29 CFR 2520.103-8 of the department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

F. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

G. Tax Status

The Internal Revenue Service has determined and informed the Organization that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

H. Uncertain Tax Positions

The Plan follows the reporting and disclosure guidance for uncertainty in income taxes as defined in FASB ASC 740. The financial statement effects of a tax position taken or expected to be taken are recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. As of June 30, 2012, the Plan had no uncertain tax positions that qualify for recognition or disclosure in the financial statements. Generally, the IRS may review the returns for the past three years.

I. Risks and Uncertainties

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. Terminated Benefits

Net assets available for benefits at June 30, 2012 includes $152,924 allocated to accounts of persons who as of or prior to that date were no longer employed by the Organization and have not requested their vested account balance to be distributed.

K. Related-Party Transactions and Party In Interest Transactions

Commissions and fees were paid to the Hartford Life Insurance Company, the Plan's custodian. These transactions qualify as party in interest transactions. The Plan paid the Hartford Life Insurance Company commissions and fees of $4,361. The Plan Sponsor pays directly any other fees related to the Plan's operations.
