SENTINEL 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Year Ended December 31, 2013

1. **Description of the Plan:**

The following description of Sentinel 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan provisions.

General:

The Plan is a defined contribution plan covering all employees of Sentinel Real Estate Corporation (the Company or Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute up to 25% of their pre-tax annual compensation, as defined in the Plan document, subject to certain Internal Revenue Code (IRC) limitations. Also, participants may contribute amounts representing distributions from other qualified defined benefit or defined contributions plans (rollovers). The Company contributes the lesser of 25% or $1,000 of a participant's annual contribution to the Plan. Additional qualified non-elective contributions may be made at the Company's discretion. Contributions are subject to certain limitations as described in the Plan document. Certain plan participants may elect to make "catch-up contributions" as defined under the IRC. The Plan is required to return excess contributions received during the Plan year in excess of IRC limits.

Participants' accounts:

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings or losses and administrative expenses. Allocations to participants' accounts are based upon participants' account balances. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions.

Payment of benefits:

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest or installment payments either monthly, quarterly, semi-annually, or annually. Participants whose account balances are $5,000 or less may receive a lump sum payment or have their account balance rolled over to an Individual Retirement Account. Participants may withdraw funds from their accounts who have demonstrated hardship (as defined under Internal Revenue Service Regulations).

1. **Description of the Plan** (continued):

Vesting:

Participants are immediately vested in their contributions, including rollovers, plus earnings thereon. Vesting in the Company's contributions are based on years of continuing service as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5+	100%

Notes receivable from participants:

The Plan allows participants to borrow money from their account balances and repay the loans through payroll deductions. Only one loan may be outstanding at any given time. The minimum loan amount is $1,000 and the maximum loan amount may not exceed the lesser of (a) one half of the participant's vested interest in the Plan or (b) $50,000 reduced by the excess, if any, of the highest outstanding loan balance from the Plan during the one year period ending on the day before the new loan is to be made over the current outstanding balance of loans as of the date of the new loan. The loans are secured by the balance in the participant's account and bear interest at a rate that is one percentage point above the prime rate. Principal and interest are paid ratably through biweekly payroll deductions.

2. **Summary of significant accounting policies:**

Basis of accounting:

The accompanying financial statements of the Plan are prepared under the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of estimates and risks and uncertainties:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Actual results could differ from those estimates and assumptions. The Plan, through its investment fund options, invests in various securities including U.S. Government securities, corporate debt instruments, and corporate stocks.

2. **Summary of significant accounting policies** (continued):

Use of estimates and risks and uncertainties (continued):

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that, such changes could materially affect the amounts reported in these financial statements.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for fair value measurement techniques used.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

In the Statement of Changes in Net Assets Available for Plan Benefits, the Plan presents the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Notes receivable from participants:

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Forfeited accounts:

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $248 and $8,814, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2013, employer contributions were reduced by $33,451 from forfeited nonvested accounts.

2. **Summary of significant accounting policies** (continued):

Payment of benefits:

Benefit payments to participants are recorded when paid.

Administrative expenses:

Administrative expenses of the Plan are paid by the Plan sponsor as provided in the Plan document. Expenses relating to specific participant transactions (i.e. loan set up, distributions, etc.) are charged directly against the appropriate participant's account.

3. **Fair value measurement:**

The Plan's investments are reported at fair value in the accompanying statements of net assets available for plan benefits.

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the assumptions used in valuation techniques to measure fair value. This hierarchy consists of three broad levels as described below:

Level 1 –Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities;

Level 2 – Quoted prices in active markets for similar assets and liabilities or quoted prices in less active dealer or broker markets;

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and are unobservable.

A description of the valuation methodologies used to measure Plan assets at fair value is provided below:

3. **Fair value measurement** (continued):

Level 1 fair value measurements:

Mutual Funds (including bond and stock funds) - The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. There are no restrictions as to the redemption of these investments nor does the Plan have any contractual obligations to further invest in any of the individual mutual funds.

Fidelity Brokeragelink - The fair value of this self directed brokerage account is based on the quoted values of underlying shares and money market funds held within the account. There are no restrictions as to redemption of investments nor does the Plan have any contractual obligations to further invest in this fund.

The preceding methods described may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. **Investments:**

The Plan's investments that represented five percent or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012 are as follows:

These transactions are not prohibited because they are covered by exemptions in the Department of Labor and ERISA's rules on prohibited transactions. The Company performs administrative duties with respect to the Plan at no cost to the Plan.

7. **Information certified by the trustee and custodian:**

The Plan administrator has elected the method of compliance permitted by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company has certified to the Plan administrator the following information as complete and accurate, which has been relied upon by the plan administrator in the preparation of the Plan's financial statements and related supplemental schedules in compliance with ERISA:

- The cost and fair value of investments, in the aggregate and by fund, at December 31, 2013 and 2012;

- The amount of dividend and interest income received by the Plan during the year ended December 31, 2013;

7. **Information certified by the trustee and custodian** (continued):

- The amount of net appreciation (depreciation) in the fair value of investments, individually and in the aggregate, during the year ended December 31, 2013;
- All purchases and sales of investments, including the gain or loss on sales, during the years ended December 31, 2013 and 2012;
- The investment information provided on the supplemental schedule of assets held at end of year.

8. **Federal income taxes:**

The Plan sponsor adopted a non-standardized prototype plan of the Plan recordkeeper which received an Internal Revenue Service opinion letter dated March 31, 2008. The Plan has been amended since this date. However, the Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Management evaluated the Plan's tax positions and has concluded that as of December 31, 2013 the Plan had not taken any uncertain tax positions that require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

9. **Subsequent event:**

Plan management has evaluated subsequent events through August 20, 2014, the date which the financial statements were available for issue.
