NOTE 1 - DESCRIPTION OF PLAN

The following description of the ALESSI 401(k) PLAN (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan sponsor is Phil's Cake Box Bakeries, Inc. dba Alessi Bakeries, (the Company). In 2013, the Company emerged from bankruptcy under Chapter 11 of the United States' Bankruptcy Code. The Company has no intentions to terminate the Plan.

General

The Plan is a defined contribution plan available to all eligible employees of the Company, who have attained the age of eighteen and have completed one year of service and completed 1,000 hours as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. On March 1, 2012, the Plan was amended to allow Roth contributions, to disallow discretionary profit sharing contributions and to require employer matching contributions equal to 50 percent of employee contributions up to a maximum of the first 3 percent of the participants' eligible compensation contributed to the Plan. On September 5, 2012, the Plan was amended to disallow employer matching contributions, effective September 1, 2012.

Contributions

Participants may elect to contribute between 1% and 88% of eligible compensation to the Plan on a pre-tax or after tax (Roth) basis, up to $17,500 and $17,000 (plus catch-up contributions, as defined by the Plan document) for the years ended December 31, 2013 and 2012, respectively. Prior to the amendment, the Company made discretionary matching contributions equal to 50 percent of employee contributions up to a maximum of the first 3 percent of the participants' eligible compensation contributed to the Plan. The Company did not make any discretionary profit sharing contributions during the years ended December 31, 2013 and 2012.

The Plan also accepts rollovers and direct transfers from other tax qualified plans.

Participants' Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's matching and profit sharing contributions and Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Company matching and profit sharing contributions vest based on years of vesting service according to the following schedule:

Years of service	Vested percentage
Less than 2 years	0%
At least 2 years but less than 3	20%
At least 3 years but less than 4	40%
At least 4 years but less than 5	60%
At least 5 years but less than 6	80%
6 or more years	100%

To receive vesting service for a Plan year, a participant must complete at least 1,000 hours of service during the Plan year.

Forfeited Accounts

Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions or to fund Plan expenses. At December 31, 2013, the Plan held forfeitures totaling $306. At December 31, 2012, the Plan had no forfeitures balance. No forfeitures were used to reduce Company contributions or to pay Plan expenses during the years ended December 31, 2013 and 2012, respectively.

Payment of Benefits

On termination of service due to death, disability, separation of service or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount or in installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Hardship Withdrawals

The Plan allows participants to withdraw a portion of their account balance in the event of immediate and heavy financial need. Any hardship withdrawal is limited to the amount needed to meet the financial need and must meet the qualification requirement under the Plan. Hardship withdrawals may only be taken if no other distributions or loans are available, and participants taking a hardship withdrawal are suspended from making any further salary deferrals for six months following the receipt of the hardship distribution.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Administrative Expenses

The Company absorbs the majority of costs related to the Plan, with the exception of certain transaction fees paid by the Plan and loan and distribution fees paid by the participant.

Notes Receivable from Participants

Under the terms of the Plan, eligible participants may borrow from their accounts a minimum loan amount of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. However, the $50,000 amount in the preceding sentence is reduced by the participant's highest outstanding loan balance during the previous one-year period. Effective January 1, 2013, the Plan was amended so that participants may only have one active loan outstanding at any time. The loans are secured by the balance in the participant's account. During the Plan years 2013 and 2012, the loans bore interest at rates between 4.25% and 5.25%. Interest rates are determined quarterly by the Plan administrator to be commensurate with local prevailing rates. Repayments of participant loans vary by participant and principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any unpaid accrued interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. Interest income earned on notes receivable from participants amounted to $551 and $843 for the years ended December 31, 2013 and 2012, respectively, and is recorded as other income in the Statements of Changes in Net Assets Available for Benefits.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan.

Plan Termination

The Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. Although the Company has not expressed any intention to terminate the Plan, if it were to do so, all participant accounts would become fully vested.

Depending on the facts and circumstances, a partial termination may be found to occur where a significant number of employees are terminated or excluded from Plan participation. In this case, only those affected will become 100% vested.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan is invested in an investment contract through a common collective trust. Contract value is calculated based on contributions plus earnings, less Plan withdrawals and administrative expenses. The Statements of Net Assets Available for Benefits should present the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value; however, for the Plan, contract value approximates fair value. The Statements of Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Actual results may differ from those estimates.

Risk and Uncertainties

The Plan provides various investment options in any combination of investment securities as elected by each participant. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on the underlying investments bought and sold as well as held during the year.

Notes receivable from participants are valued at cost, which approximates fair value.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Subsequent Events

The Plan administrator has evaluated subsequent events through **August 13, 2014**, which is the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements. There were no material subsequent events that required recognition or additional disclosure.

NOTE 3 - INFORMATION CERTIFIED BY CUSTODIANS (UNAUDITED)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. State Street Bank and Trust Company held the Plan's investment assets as of December 31, 2013 and 2012 and executed investment transactions for the year ended December 31, 2013 and for the period from March 1, 2012 to December 31, 2012. John Hancock Retirement Plan Services, the Plan's former custodian, executed investment transactions for the period from January 1, 2011 to February 29, 2012. Accordingly, the custodians have certified that the following data included in the accompanying financial statements and supplementary schedules are complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits.
- Net appreciation in fair value of investments as shown in the Statements of Changes in Net Assets Available for Benefits.
- The Supplementary Schedule of Assets (Held at End of Year) as of December 31, 2013.

NOTE 4 - FAIR VALUE MEASUREMENTS (UNAUDITED)

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability; and
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

  If the asset or liability has a specified term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies: Valued at the closing price reported on the active market on which the individual securities are traded.

Common collective trusts: Valued based on the deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (UNAUDITED) (CONTINUED)

NOTE 5 - INVESTMENTS (UNAUDITED)

Investments of the Plan were held by the Plan's custodian, State Street Bank and Trust Company, (State Street), at December 31, 2013 and 2012. The following is a detail of fund balances that represent five percent or more of the net assets available for benefits at December 31, 2013 and 2012:

* Did not represent 5% or more of the Plan's net assets at December 31, 2012.

During the years ended December 31, 2013 and 2012, the Plan's investments appreciated as follows:

	2013	2012
Pooled separate accounts	$ -	$ 22,572
Common collective trusts	16,878	2,514
Registered investment companies	30,787	1,836
	$ 47,665	$ 26,922

NOTE 6 - COMMON COLLECTIVE TRUSTS (UNAUDITED)

The Plan invested in three common collective trusts, one of which is the Invesco Stable Value Trust (the Trust), a fully benefit-responsive investment contract through the Invesco National Trust Company for Employee Benefit Plans. The Trust invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements), enters into "wrapper" contracts issued by third-parties, and invests in cash equivalents represented by shares in a money market fund.

Average yields for the year ended December 31, 2013 are as follows:

Based on actual earnings (underlying investment return)	1.22%
Based on interest rate credited to participants	1.30%

Distributions to the Trust's unit holders are declared daily from the net investment income and automatically reinvested in the Trust on a monthly basis, when paid.

NOTE 6 - COMMON COLLECTIVE TRUSTS (UNAUDITED) (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) not consented to by the wrap issuer, (2) any communications with participants to induce them to transfer assets in or out of the Trust, (3) any transfer of assets from the Trust directly to a competing investment option, (4) establishment of a plan that competes for employee contributions, (5) any change in law or regulation that could have a material adverse effect on the Trust's cash flow, or (6) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator has no knowledge that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 7 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets available for benefits per Form 5500 as of December 31, 2013 and 2012:

Participant contributions receivable	-	(2,392)
Net assets available for benefits per the Form 5500	$ 462,652	$ 379,963

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the years ended December 31, 2013 and 2012 to the net income on Form 5500:

	2013	2012
Net increase in net assets available for benefits per the financial statements	$ 80,297	$ 87,957
Participant contributions receivable	2,392	(2,392)
Net income per the Form 5500	$ 82,689	$ 85,565

NOTE 8 - PARTY-IN-INTEREST

The Plan invested in pooled separate accounts managed by John Hancock. John Hancock was the custodian, as defined by the Plan for the period from January 1, 2011 to February 29, 2012 and, therefore, these transactions qualified as party-in-interest transactions. Fees paid by the Plan to John Hancock for investment management services amounted to $867 for the year ended December 31, 2012.

NOTE 8 - PARTY-IN-INTEREST (CONTINUED)

The Plan invests in common collective trusts and registered investment companies managed by State Street. State Street is the custodian, as defined by the Plan for the year ended December 31, 2013 and the period from March 1, 2012 to December 31, 2012 and, therefore, these transactions qualify as party-in-interest transactions. There were no fees paid by the Plan to State Street for the year ended December 31, 2013. Fees paid by the Plan to State Street for investment management services amounted to $350 for the year ended December 31, 2012.

ADP was the record-keeper as defined by the Plan for the year ended December 31, 2013 and the period from March 1, 2012 to December 31, 2012 and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to ADP for record-keeping services amounted to $800 for the year ended December 31, 2013. There were no fees paid by the Plan to ADP for the year ended December 31, 2012.

EJ Reynolds was the record-keeper as defined by the Plan for the period from January 1, 2011 to February 29, 2012 and, therefore, these transactions qualify as party-in-interest transactions. There were no fees paid by the Plan to EJ Reynolds for the year ended December 31, 2012.

NOTE 9 - TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan with a cash or deferral arrangement. The Volume Submitter Plan received a favorable opinion letter on March 31, 2008, which stated that the Plan was designed in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Generally accepted accounting principles in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is not subject to income tax examinations for years prior to the year ended December 31, 2010.
