REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator
Gordon & Rees, LLP 401(k) Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Gordon & Rees, LLP 401(k) Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Charles Schwab Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Praxity MEMBER GLOBAL ALLIANCE OF INDEPENDENT FIRMS

Other Matter – 2011 Financial Statements

The financial statements of the Plan as of and for the year ended December 31, 2011, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform and they did not perform any auditing procedures with respect to the information certified by the trustee. Their report, dated October 8, 2012, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, was presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter – Supplementary Information

The schedule of assets (held at end of year) as of December 31, 2013, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplementary information.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1 – DESCRIPTION OF PLAN

The following description of Gordon & Rees. LLP 40l(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was adopted effective January 1, 1980, and was organized as a tax qualified retirement plan under Section 401(a) of the Internal Revenue Code for the benefit of the employees of Gordon& Rees, LLP (the Employer). The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

Eligibility – Employees of the Employer are eligible to participate in the Plan upon hire, and are eligible for Employer contributions once they reach age 21 and after completing one year of service, as defined in the Plan.

Contributions – Each year, participants may contribute no less than 1% and up to a maximum of 100% of pretax annual compensation, as defined in the Plan. The Plan permits Roth contributions into the Plan up to the amounts allowable under the Plan document and current income tax regulations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to regulatory limitations. Upon enrollment into the Plan, a participant may choose from a selection of mutual funds in which to invest or may self-direct his or her account balance under specific guidelines as set forth by the Plan's Advisory Committee. The Employer may elect to make discretionary matching and profit sharing contributions based on current profits, not to exceed limits as defined by ERISA and by the Plan, and as approved by the Board of Directors.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and (b) plan earnings, and charged with an allocation of Advirsory expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their 401(k) deferrals plus actual earnings thereon. Vesting in the Employer's contributions portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after 3 years of service.

Participant Loans – Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1.5%. Principal and interest are paid ratably through payroll deductions. As of December 31, 2013, the rates of interest on outstanding loans ranged from 4.75% to 9.00% with various maturities through July 2019.

Withdrawals – Hardship withdrawals can be made under certain circumstances. All other withdrawals, except for retirement, disability or death, are subject to both regular income taxes and a penalty tax, and must be approved by the Plan's Advisory Committee.

Plan Termination – Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Forfeited Accounts – At December 31, 2013 and 2012, forfeited nonvested accounts totaled $4,545 and $9,031, respectively. These accounts were reallocated to the remaining participants in accordance with the Plan provisions. Previously forfeited accounts of $9,031 were used to reduce Employer contributions in 2013.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent accounting pronouncements – In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The Plan adopted the new disclosure requirements effective January 1, 2012. Plan management adopted the ASU and it did not have a material effect on the statement of net assets available for benefits and statement of changes in net assets available for benefits.

Investment valuation – Investments are stated at fair value, as certified by the Plan's trustee, Charles Schwab Bank (Schwab). Shares of registered investment companies are valued at the net asset value of shares held by the Plan at year-end. Units held in common/collective trusts are valued at the unit value, as reported by the investment manager, using the audited financial statements of the trusts at year-end.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Payment of benefits – Benefits are recorded when distribution or withdrawal requests are received by the Plan's third party administrator.

Expenses – Significant costs of the plan administration have been absorbed by the Employer and relate to the ordinary and necessary administration of the Plan.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued.

The Plan has evaluated subsequent events through September 2, 2014, which is the date the financial statements were issued.

NOTE 3 – INVESTMENTS

Investments representing 5% or more of net assets available for benefits consisted of the following as of December 31:

	2013	2012
Vanguard 500 Index Signal	$ 10,309,057	$ 7,316,730
MetLife Annuity	10,128,459	9,454,890
Pimco Total Return Administrative	7,452,468	7,147,074
American Funds Washington Mutual R5	6,251,218	Less than 5%
Columbia Acorn FD Class Z	6,212,952	Less than 5%

NOTE 4 – FAIR VALUE MEASUREMENTS

Investments are carried at fair value, which is determined, presented, and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *Fair Value Measurements and Disclosures*. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants al the measurement date.

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Basis of Fair Value Measurement –

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Cash and cash equivalents: The value of temporary cash held in short-term investment funds is based on quoted prices for similar assets in active markets (Level 1).

Investments with quoted market prices: Where available, quoted market prices are used to value the Plan's investments (Level 1).

Money market fund: The fair value of the money market funds are based on amortized cost and inputs that may include corporate actions, Nationally Recognized Municipal Securities Information Repository martial event notices and new-issue money market rates (Level 2).

U.S. Government Agency obligations and corporate bonds: The fair value of U.S. Government Agency obligations and corporate bonds is generally determined based on a model that uses inputs such as interest-rate yield curves, cross-currency basis index spreads or country credit-spreads, which are similar to the valued bond in terms of issuer, maturity and seniority (Level 2).

Limited partnership interests: These partnerships operate in the hospitality industry (Level 3).

Life insurance contracts: The fair value of life insurance contracts are based on the cash surrender value of each contact, as stated by the issuer of the contract (Level 2).

Annuities: The fair values of annuities are based on the contract value. The contact value equals the accumulated cash contributions and interest credited to the contact, less any withdrawal (Level 2).

Collective/unit trusts: The fair value of collective/unit trust funds is based on the unit net asset value as of year-end, representing a proportionate interest in the net assets of each fund (Level 2). The net asset value must be determined upon date of sale or redemption. Sales and redemptions of units are made on such days at such unit net asset values. Redemptions can be made at the participant's request. The collective/unit trusts consist primarily of units in: MetLife GlC No. 25554.

Valuation methods, consistency: The valuation techniques used in the accompanying financial statements have been consistently applied.

Transactions and income recognition: Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when received.

The following table discloses by level, the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2013:

NOTE 5 – TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated April 6, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 7 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified to the completeness and accuracy of:

- Participant-directed investments and notes receivable from participants reflected on the statements of net assets available for benefits as of December 31, 2013 and 2012.

- Net appreciation in fair value of investments, and interest and dividends from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2013.

- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of registered investment Employer funds managed by the trustee of the Plan and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right to terminate the Plan and discontinue its contributions at any time. In the event of plan termination, participants would become 100% vested in their Employer contributions.

Gross Premium Loading Formulas

Annuities: Expense loadings vary by contract and may be "front-end" loads or "back-end" withdrawal charges. Some front-end loads grade down by amount. Some contracts may have asset based charges and/or annual contract fees. All expense charges for the Separate Account contracts are described in the Prospectuses for these accounts.

Life insurance other that term: The expense loading is a percentage of the net premium plus a per thousand charge plus a policy fee. These charges vary by plan, age, duration, and underwriting classification. All expense charges for the Separate Account contracts are described in the Prospectuses.

Term life insurance: Gross premiums are tables of Maximum Premiums and Scheduled Premiums. The tables vary by plan, age, duration, and underwriting classification. The tables have been filed with the state insurance departments.

1 Ranges from 1% to 3% depending on product and state of issue.
* 5.5% for the first 20 policy years; 4% for policy years 21 and over.
