INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
MacLean-Fogg Company Profit Sharing and Savings Plan
Mundelein, Illinois

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the MacLean-Fogg Company Profit Sharing and Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits of as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by BMO Harris Bank N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee held the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i – Schedule of Assets (Held at End of Year), which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of

Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

A brief description of the MacLean-Fogg Company Profit Sharing and Savings Plan (the "Plan") follows. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is funded through both employee and MacLean-Fogg Company (the "Company") contributions. Company contributions are made from current or accumulated profits. Participants in the Plan may contribute up to 75% of their annual earnings ("salary deferral contributions"), but the total annual contribution cannot exceed $17,500 (2013) and $17,000 (2012) plus an additional $5,500 for participants who have reached the age of 50 years old.

BMO Harris Bank N.A. is the trustee of the Plan. Employees have the option to invest their contributions in the Government Inflation Protection Fund, Fixed Income Fund, Vanguard Institutional Index Fund, U.S. Large Cap Fund, Small Cap Fund, American Euro-Pacific Growth Fund, DFA Emerging Markets Value 1 Fund and the BMO Employee Benefit Stable Principal Fund, based upon allocation percentages determined by participants. Annually, participants can also invest a specified dollar amount in the Aggressive Growth Fund. Participants can also elect to invest in certain target retirement funds, each of which contains specified allocations of the aforementioned funds.

A participant's election to invest their accounts or change the investments of future contributions may be made at their discretion. Changes to their investment balance options may be done six times within a rolling twelve month period, except for the Aggressive Growth Fund, which participants may elect in or out of once per year. In prior years, participants also had one-time options to invest in certain limited partnerships; currently, the Aggressive Growth Fund includes certain partnership investments. The life of the partnership investments is a minimum of 10 years. Maximum future commitments to the partnerships are immaterial at December 31, 2013. Participants' withdrawals from the non-Aggressive Growth Fund partnerships are limited to once per year (in July), provided that funds are available for distribution (the Aggressive Growth Fund purchases the partnership investments for any requested withdrawals). In prior years, participants had an option to request that a portion of their accounts be applied to purchase a term or cash value insurance policy. All premiums on insurance policies are charged against the account balance of the participant in whose name the policy was purchased. The Director of Employee Benefits at MacLean-Fogg Company is the administrator of the life insurance policies held by the Plan.

The Company contributes to the Plan on behalf of each participant an amount equal to 50% of the participants' salary deferral contributions, up to 6% of the participants' annual earnings (a "matching contribution"). The Plan provides that the Company, in its sole discretion may, but is not required to, make matching contributions to the Plan. In addition, the Company may contribute an additional discretionary amount subject to the approval of the Board of Directors (the "profit-sharing contribution"). This additional contribution is allocated to eligible participants on a pro rata basis according to each participant's earnings for the respective calendar year.

Each covered employee is eligible to participate in the Plan on the first day of the month following the date on which the employee is credited with a period of service of ninety days. An employee whose benefits are subject to a collective bargaining agreement shall be eligible to participate only if the agreement so provides. The Plan also includes an automatic enrollment feature.

Under the Plan, separate accounts are maintained to reflect the interests of each participant. One portion of the account is maintained to reflect each participant's salary deferral contributions and any income or earnings thereon. A second portion is maintained to reflect each participant's

1. Plan Description (continued)

share of Company contributions and any income or earnings attributable to those amounts. A third portion is maintained to reflect each participant's share of Company profit sharing contributions.

Effective every March 1, the Company automatically increases participant deferrals by 1% for all participants with a deferral percentage of less than 6%. Participants may opt out of this automatic increase on an annual basis.

Vesting

A participant is always 100% vested in the portion of their account attributable to their own contributions. If a participant terminates employment due to retirement, disability or death, they will also be fully vested in the portion of their account attributable to Company contributions. If a participant terminates employment before retirement for a reason other than disability or death, they will be vested in the portion of their account attributable to Company contributions as follows: twenty percent after one year of service, forty percent after two years of service, sixty percent after three years of service, eighty percent after four years of service and one hundred percent after five years of service.

Participant Loans

Participants may obtain loans from the Plan, which are limited in amount (as prescribed in the plan document so as to comply with Internal Revenue Service and Department of Labor rules and regulations), shall bear interest at a reasonable rate with substantially level amortization and payments at least quarterly, specify a repayment period not to exceed five years (15 years in the case of a loan obtained for the purchase of a principal residence) and be made only from the accounts of the participant requesting the loan (and be treated as an investment of such accounts, with interest payments on the loan being credited as earnings to those respective accounts). Upon retirement or termination, any outstanding loan balance will be treated as a participant distribution or the participant can repay the loan completely within a ninety day period.

Plan Expenses

All proper expenses of the Plan and trust administration are paid by the participants, except for associated legal expenses which have been paid by the Company.

Forfeited Accounts

Effective January 1, 2012, forfeited nonvested accounts are used by the Company to reduce employer contributions for the then current plan year or to pay reasonable administrative expenses of the Plan. In prior years, forfeitures were allocated to participants as additional contributions. Forfeitures for 2013 and 2012 totaled approximately $88,000 and $57,000, respectively.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets of a defined-contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate transactions under the terms of the Plan. The Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, where applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Investment Transactions

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. See note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments sold as well as held during the year. The Plan invests temporary cash in money market accounts with BMO Harris Bank N.A.

Subsequent Events

The Plan has evaluated subsequent events through September 16, 2014, the date the financial statements were available to be issued.

3. Termination of the Plan

The Company has established the Plan with the intention that the Plan will be permanent. The Company has reserved the right, however, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of Employee Retirement Income Act of 1974 ("ERISA"). In the event the Plan is discontinued, all participants' accounts shall become fully vested and nonforfeitable after proportionate adjustments of the participants' accounts to reflect expenses, earnings and other allocations to the date all assets of the Plan will be distributed. Each participant or beneficiary, as the case may be, is entitled to receive any amounts credited to their accounts in the Plan, provided, however, that the Company and BMO Harris Bank N.A. are not required to effect such distribution until written evidence of approval of such termination and distribution has been received from the Commissioner of the Internal Revenue Service ("IRS").

4. Financial Data Certified by the Trustee

The following summary of the Plan's financial information as shown in the Statements of Net Assets Available for Plan Benefits and the Statements of Changes in Net Assets Available for Plan Benefits and the financial information appearing in Schedule H - Line 4i have been derived from information prepared and certified as complete and accurate by BMO Harris Bank N.A., the trustee, in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Investment income for the years ended December 31, 2013 and 2012 was as follows:

	2013	2012
Interest	$ 536,190	$ 652,384
Dividends	1,462,452	1,362,629
Income from life insurance and other	142,693	28,533

5. Unallocated Investment Contract

The Plan has a deposit in an unallocated investment contract held by Prudential Retirement Insurance and Annuity Company. The credited interest rate and average yield on the deposit at and for the years ended December 31, 2013 and 2012 were as follows:

	Credited Interest Rate on Account	Average Yield
2013	4.50%	4.40%
2012	5.05%	4.93%

Prior to the beginning of each calendar year, Prudential notifies the Plan administrator of the annual rate of credited interest which will be applied to the amounts held in the guaranteed deposit account during the next calendar year. Interest is credited to the account on a monthly basis, as provided in the contract.

6. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

6. Fair Value Measurements (continued)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/collective trusts: Valued at fair value as determined by the fund.

Guaranteed investment contract: Valued at contract value, which approximates fair value as determined by the insurance company.

Limited Partnerships: Valued at fair value as determined by the general partner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

7. BMO Employee Benefit Stable Principal Fund

The common/collective trust investment is the BMO Employee Benefit Stable Principal Fund, which is a fully benefit responsive fund. Contributions are maintained in a pooled account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses charged by the Trustee.

Since the fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. Contract value, as reported by the Trustee, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fund could be limited in its ability to transact with issuers at contract value if the fund raises its risk profile or is subjected to an extended period of significant cash outflow. The Trustee maintains strong risk parameters and works with its issuers before any risk parameter changes are contemplated. The Trustee maintains cash, internal cash flow and a maturity ladder of investments to offset cash withdrawals. Further, the Trustee may limit withdrawals in order to maintain sufficient liquidity. Therefore, the probability of the fund losing its access to contract value transactions is remote.

All issuer transactions are guaranteed at contract value unless the fund is found to have acted negligently, fraudulently or with intent to mislead the issuer.

The average yield and crediting interest rates on the contract were 2.15% and 1.84%, respectively, for the year ended December 31, 2013, and 2.41% and 2.46%, respectively, for the year ended December 31, 2012. The basis and frequency of determining the crediting interest rate is done on a daily basis. There were no limitations or guarantees on the contract at December 31, 2013 and 2012.

8. Tax Status

The Plan obtained its latest determination letter on January 13, 2012, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

The Plan provides for various investment options in any combination of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

10. Related Party and Party In Interest Transactions

Certain Plan investments (the BMO Employee Benefit Stable Principal Fund and the BMO Prime Money Market) are managed by BMO Harris Bank N.A., the trustee of the Plan. BMO Harris N.A. also serves as the recordkeeper of the Plan. These are related party and party-in-interest transactions. Fees incurred from BMO Harris Bank N.A. (which are paid by the Plan) are included in administrative expenses in the Statements of Changes in Net Assets Available for Benefits.

11. Plan Mergers

In 2013 and 2012 the Company acquired interests in several companies, including Engineered Plastics Corporation and Foresight Products, LLC. Mergers of the 401(k) plans of these entities totaled approximately $ 273,000 and $2,610,000 in 2013 and 2012, respectively.
