MODERN PLATING CORPORATION 401(K)
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Modern Plating Corporation 401(k) Profit Sharing Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and was established for employees of Modern Plating Corporation ("the Company"). The Plan was amended to also include employees of Superior Coatings & Finishes, LLC, a subsidiary of the Company, effective August 1, 2006. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA"). For the purpose of this Plan, a trust has been created to receive all contributions and to pay all benefits under the Plan.

The Company has selected one employee of the Company as administrator of the Plan. Among the duties of the administrator are the maintenance of participant records, the determination of the right of any person to a benefit, and others.

AMCORE Bank, N.A. has been named trustee and is responsible for the safekeeping of the trust fund. See Note 10 for change in trustee after year end.

Participation

Participation in the Plan is extended to any individual who is in the service and employ of Modern Plating Corporation or Superior Coatings & Finishes, LLC, excluding those deemed as excluded employees. Such individuals will become eligible to make salary reduction contributions upon completion of three months of service with the Company. Upon becoming eligible, participants may enter the Plan on the following January 1, April 1, July 1, or October 1. With respect to matching contributions and discretionary profit sharing contributions, such individuals will be eligible upon completion of one year of service (1,000 hours).

Contributions

Participants' contribution
The Plan permits voluntary contributions by participants of pretax dollars up to the maximum amount as defined by certain Internal Revenue Code (IRC) limitations. Participants' elective contributions withheld from their compensation will be paid, weekly or bi-weekly depending on the participant's pay schedule, to the Plan trustee. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirteen mutual funds and a common collective fund as investment options for participants.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

Matching contribution
The Company may make a discretionary matching contribution equal to a discretionary percentage of the participant's salary deferrals. For the 2009 and 2008 Plan years, the Company contributed -0-%. Matching contributions are invested in the same options as participant contributions, at the participant's discretion.

Discretionary contribution
The Company also may fund the Plan by a discretionary profit sharing contribution. Participants must be employed on the last day of the Plan year to be eligible for an allocation of the profit sharing contribution. During the 2009 and 2008 Plan years, the Company made no discretionary contribution to the Plan. Discretionary contributions are invested in the same options as participant contributions, at the participant's discretion.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contribution, the employer's profit sharing contribution and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions plus earnings thereon. Participants' interests in their share of the Company matching and profit sharing contributions vest in accordance with the following schedule based on years of service (a 12 consecutive month period of at least 1,000 hours of service):

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

If an active participant dies prior to attaining normal retirement age, the participant's vesting percentage shall be 100%. Full vesting also occurs upon attainment of age 65 or termination of employment due to disability.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $-0- and $334, respectively. These accounts may be used to reduce future employer contributions or for payment of Plan expenses. $334 and $-0- of these accounts were used to pay Plan expenses for the Plan years ending December 31, 2009 and 2008, respectively.

Payment of Benefits

Benefits are payable to the participant upon:

a) death or retirement from the service of Employer on or after normal retirement date (age 65) or on account of disability; or

b) resignation or dismissal from the service of Employer prior to normal retirement date.

If the benefits are payable in the event of (a) above, the amount of the benefits would be equal to the then balance in the participant's accounts. However, if (b) is applicable, the benefits payable would be the total of the participant's own contributions, and the Company matching and discretionary contributions, up to the amount of participant's vested interest in the Company's contributions. If the vested benefits are less than $5,000, the balance will be distributed as either a cash distribution or rolled into an individual retirement account (IRA). If the participant does not elect a method of payment and the vested balance is greater than $1,000, it will automatically be rolled over into an IRA. Balances of $1,000 or less will be distributed in lump sums to the participant. If the balance is more than $5,000, an election to receive the benefit must be made. Benefits may be paid in either a lump-sum payment or substantially equal installments over a period of time not exceeding the participant's life expectancy or the joint life expectancy of the participant and the beneficiary.

Each participant or former participant may, in writing, designate a beneficiary or beneficiaries to whom distributions of his interest in the Trust shall be made in the event of participants' death.

In-service withdrawals are available to participants if the participant has reached the age of 59 ½ and is 100% vested in the account from which such distribution is made.

Loans to Participants

A participant may borrow the lesser of $50,000 or 50% of the participant's vested account balance, with a minimum loan balance of $1,000. Loans will only be granted if the participant has incurred a financial hardship or has a specified financial need. The loans are secured by the balance in the participant's account. Loans are repayable through payroll deductions over periods ranging up to 60 months. The interest rate is determined by the Plan Administrator based on prevailing market conditions and is fixed over the life of the note. At December 31, 2009 and 2008, interest rates on participant loans ranged from 4.25% to 9.25% and 5.75% to 9.25%, respectively.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust. Contract value for this collective trust is based on the net asset value at the fund as reported by the investment advisor. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates in preparing financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

New Accounting Standards

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*, which was primarily codified into Topic 105, *Generally Accepted Accounting Standards,* in the Accounting Standards Codification ("ASC"). This standard will become the single source of authoritative nongovernmental U.S. generally accepted accounting principles ("GAAP"), superseding existing FASB, American Institute of Certified Public Accountants ("AICPA"), Emerging Issues Task Force ("EITF"), and related accounting literature. This standard reorganizes the thousands of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. This guidance is effective for financial statements issued for reporting periods that end after September 15, 2009. This guidance impacts the Plan's financial statements and related disclosures as all references to authoritative accounting literature reflect the newly adopted codification.

Reclassifications

Certain reclassifications have been made in the prior year financial statements to conform to current year presentation.

NOTE 3 - INVESTMENTS

The Plan's administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and the supplemental schedule is complete and accurate.

a) Total participants' directed investments included in the investments in the accompanying statements of net assets available for benefits of $1,291,232 as of December 31, 2009 and $1,271,835 as of December 31, 2008.

NOTE 3 - INVESTMENTS (CONTINUED)

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 - FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial Accounting Standards Board Statement (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access;

- Level 2—Inputs to the valuation methodology include:
  - Quoted prices for similar assets and liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability:
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 - FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2009 and 2008.

- Mutual funds: Valued at the net asset value ("NAV") of the shares held by the Plan at year end. NAV is determined based on quoted prices in active markets.

- Common collective fund: The common collective fund invests in collective investments and reinvestment in one or more bank, insurance company, or synthetic invest contracts, and in short term investments which are not publicly traded. The fund is valued at the net-assets value per unit on the valuation date (December 31, 2009 and 2008). There are no redemption restrictions for Plan participants with this fund.

- Participant loans: Valued at amortized cost, which approximates fair value due to terms of the loans.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
