PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE 1 DESCRIPTION OF PLAN

The following description of the Rumberger, Kirk & Caldwell, Professional Association (the Firm) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of the Firm that have completed one year of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions – Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers three guaranteed interest accounts and various pooled separate accounts as investment options for participants. The Firm matches 50% on the first $2,000 a participant contributes during each plan year, provided that the participant defers a minimum of 3% of their compensation during that plan year. In addition, the Firm made contributions to eligible participants, excluding associates and of counsel attorneys, equal to 5% of their compensation, as defined, not exceeding the social security taxable wage base, plus 8% of their compensation in excess of the social security taxable wage base. In addition, the Firm contributed another 6.08275% of compensation, up to a maximum of $32,500 for its Shareholders. The Firm also contributes any amounts necessary to comply with the "Top Heavy" requirements of the Internal Revenue Code. Additional employer contributions may be made at the discretion of the Firm. For the year ended December 31, 2013, the Firm's matching and profit sharing contributions were $127,628 and $1,130,350, respectively. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts – Each participant's account is credited with the participant's contribution and the Firm's matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their deferral and matching contributions plus actual earnings thereon. Vesting in other employer contributions is based on years of continuous service. A participant begins to vest after two years (20%) and increases ratably until fully vested after six years.

NOTE 1 DESCRIPTION OF PLAN – Continued

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rates are set at the prime rate plus 1% as of the loan application date. Principal and interest is paid ratably through monthly or semi-monthly payroll deductions.

Payment of Benefits – Upon termination of service, a participant may elect to receive either a lump sum amount equal to the value of his or her vested account, or installment payments over a specified period of time subject to certain limitations.

Forfeited Accounts – At December 31, 2013 and 2012, forfeited nonvested accounts totaled $6,500 and $3,700, respectively. These accounts will be used to reduce employer contributions. At December 31, 2013 and 2012, employer contributions receivable are reduced by these amounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of American (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Certain administrative expenses of maintaining the Plan are paid by the Firm and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events – The Firm has evaluated subsequent events through June 25, 2014, the date which the financial statements were available to be issued.

NOTE 3 INFORMATION PREPARED AND CERTIFIED BY JOHN HANCOCK (UNAUDITED)

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments and interest for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the John Hancock Life Insurance Company (John Hancock).

NOTE 4 INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012:

	2013	2012
JH Lifestyle Growth	$ 4,746,820	$ 3,612,881
Fidelity ContraFund	2,869,420	2,191,548
BlackRock Global Allocation	2,520,740	1,876,260
JH Lifestyle Balanced	2,467,798	1,778,315
JH Disciplined Value	2,002,404	1,521,803

NOTE 4 INVESTMENTS – Continued

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) in pooled separate accounts appreciated in value by $6,032,447.

NOTE 5 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

Guaranteed interest accounts: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Pooled separate accounts: Valued based on the number of shares of the respective underlying fund multiplied by the closing net asset value (NAV) per share quoted by that fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, within the fair value hierarchy, the Plan's Level 2 assets at fair value as of December 31, 2013 and 2012:

	2013	2012
Guaranteed interest accounts	$ 131,438	$ 131,377
Pooled separate accounts:		
Asset allocation	9,826,232	7,603,723
Conservative	1,506,864	1,433,375
Growth	6,546,015	4,611,938
Growth & income	7,880,018	6,045,227
Aggressive growth	5,964,133	4,859,516
Income	3,321,053	3,865,552
Total pooled separate accounts	35,044,315	28,419,331
Total assets at fair value	$ 35,175,753	$ 28,550,708

At December 31, 2013 and 2012, there were no assets measured using level 1 or level 3 inputs.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

Investment type	Fair Value 2013	Fair Value 2012	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Guaranteed interest accounts	$ 131,438	$ 131,377	-	Daily	Daily
Pooled separate accounts	$ 35,044,315	$ 28,419,331	-	Daily	Daily

The guaranteed interest accounts provide for a guaranteed return of principal plus compound interest earned over a defined 3, 5, or 10-year term, less any applicable contract or participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. To achieve this, the accounts credit the participants with a calculated "composite interest rate" for the duration of the guarantee term. Contributions to these accounts are held in the John Hancock General Account.

The pooled separate accounts are made up of sub-accounts that hold different types of investments that have a variety of investment objectives. The Plan's objective is to provide Plan participants with sufficient variety of investment options to enable participants to achieve their individual goals for retirement. Participants can direct their money into the accounts of their choice.

NOTE 6 RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by John Hancock and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. John Hancock pays directly any other fees related to the Plan's operations out of a Plan Expense Reduction Account (PERA). Any amounts remaining in the PERA after paying all Plan expenses are deposited into the Plan and reallocated to eligible participant accounts. During 2013, the Plan received approximately $18,500 which is included in other income.

Certain administrative functions are performed by officers or employees of the Firm. No such officer or employee receives compensation from the Plan.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the employer contribution portion of their account.

NOTE 8 TAX STATUS

The IRS has determined and informed the Firm by a letter dated March 24, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
