INDEPENDENT AUDITOR'S REPORT

To the Plan Trustees of the
Illinois National Bancorp 401(k) Plan
Springfield, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of Illinois National Bancorp 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013 and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Illinois National Bancorp 401(k) Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. PLAN DESCRIPTION

The following brief description of the Illinois National Bancorp 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Illinois National Bancorp, Inc. (Company) established the Plan effective as of August 1, 1999. The Plan is a defined contribution plan covering all full-time and part-time employees of the Company who have completed six months of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, subject to the maximum limit allowed under the Internal Revenue Code (IRC). The Plan permits participants who are at least 50 years of age by the end of the plan year to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Company may, at its discretion, contribute a percentage of base compensation that a participant contributes to the Plan. The Company matching contribution for 2013 was 33 1/3% of the first 6% of base compensation that a participant contributed to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. A participant must be actively employed on the last day of the plan year in order to share in the Company's matching or discretionary profit sharing contributions.

1. PLAN DESCRIPTION (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on the participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the Company's contribution portion of his or her account based on total years of continuous service with the Company. Participants vest 0% for the first three years of employment and are 100% vested after three years of service.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions.

In addition, participants may direct the trustee to invest employer contributions in available common stock of the Company. Under the provisions of the Plan, participants are allowed to purchase or sell Company stock on an annual basis. Shares are purchased at prices determined from an annual independent appraisal.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company unless under proven financial hardship. Distributions are made in cash.

Although no actual "put option" is included in the plan documents, the Company historically has made distributions to departing or nonactive participants in cash within a short timeframe; however, the Company has no obligation to continue this practice in the future. The plan document provides participants age 55 and over, who have participated in the plan for a minimum of 10 years, specific rights to divest a portion of their holdings of company common stock. No qualifying plan participants have elected to divest their company common stock holding, in accordance with this provision, for the year ended December 31, 2013.

1. PLAN DESCRIPTION (Continued)

Voting Rights

The trustee of the Plan will vote all Company stock held by it as a part of the plan assets at the direction of the plan administrator, provided that the participant or beneficiaries will be entitled to direct the trustee as to the manner in which voting rights on shares of Company stock which are allocated to his or her account are to be exercised with respect to any corporate matter which involves the voting of such shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction, and with respect to all corporate matters if, at the time of the vote thereon, the Company stock is a "registration-type" class of securities. If the participant does not timely exercise his or her right to vote Company stock, the trustee, at the direction of the plan administrator, will vote such Company stock.

Forfeitures

As of December 31, 2013 and 2012, there were unused forfeitures of $44 and $651, respectively. Forfeited balances of terminated participants' nonvested accounts are reallocated among the remaining participants in the proportion that each participant's compensation for the year bears to the total compensation of all participants for the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company. Effective April 1, 2013, distribution fees are charged directly to the participant's account and are included in administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributed to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For the year ended December 31, 2012, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. Effective July 22, 2013, Principal Life Insurance Company changed its position on fair value for some of its products.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

For the year ended December 31, 2013, the statement of changes in net assets available for benefits is prepared on a contract value basis which approximates fair value.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through September 16, 2014, which was the date that these financial statements were available for issuance. See Note 11 for discussion of a non-recognized subsequent event.

3. GUARANTEED INVESTMENT CONTRACT

The Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract in arriving at net assets available for benefits. For the year ended December 31, 2013, contract value approximates fair value and no adjustment was required. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $1,149,324 and $1,115,138, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.35%. Such rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

3. GUARANTEED INVESTMENT CONTRACT (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Below are the average yields:

	2013	2012
Based on actual earnings (1)	2.00 - 2.10%	2.10 - 2.65%
Based on interest rate credited to participants (2)	2.00 - 2.10%	2.10 - 2.65%

(1) Computed by dividing the annualized one-day actual earnings of the contract on the last day of the plan year by the fair value of the contract investments on the same date.

(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the plan year by the fair value of the contract investments on the same date.

4. INVESTMENTS

The following table presents investments. Investments that represented 5% or more of the Plan's net assets at either or both year ends are separately identified.

	2013	2012
Illinois National Bancorp, Inc. common stock, 37,563 and 36,067 shares, respectively	$ 3,793,863	$ 3,282,097
Principal Fixed Income Guaranteed Option	1,149,324	1,115,138
American Funds Fundamental Inv R3 Fund*	526,150	365,658

* Balance in 2012 is less than 5% of Plan's net assets; however, is presented for comparative purposes.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,143,873 as follows:

Illinois National Bancorp, Inc. common stock	$ 375,629
Mutual funds	768,244
TOTAL	$ 1,143,873

5. FAIR VALUE MEASUREMENTS

FASB guidance on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stock: Investment in Company stock of Illinois National Bancorp, Inc. is determined by an annual independent third party appraisal. The valuation methodology was based on the weighted average of the market and income approach. The income approach is determined by discounting future benefits based on forecasts of the Company's net income. The market approach is determined by reviewing the price to book multiple and price to tangible book value multiple of public companies to estimate fair market value. Overall the Company stock is not actively traded and determined to be a Level 3 asset.

Mutual funds: Valued based upon quoted market price of each fund's underlying investments.

5. FAIR VALUE MEASUREMENTS (Continued)

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 3).

Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of Principal's methodology, the Investment Committee has various procedures in place to monitor Principal including review of performance as a company basis and review of the reports of controls on an ongoing basis.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

TOTAL	$ 3,736,312	$ -	$ 4,397,235	$ 8,133,547

The following table presents the category, fair value, redemption frequency and redemption notice period for Plan investments, the fair values of which are estimated using net asset value per share as of December 31, 2013 and 2012:

Investment	Fair Value 2013	Fair Value 2012	Redemption Frequency	Redemption Notice Period
Guaranteed investment contract:				
Principal Life Insurance Company (a)	$ 1,149,324	$ 1,115,138	Daily	None

(a) The Principal Life Insurance Company guaranteed investment contract provides for a guarantee of principal and interest based on the composite credit rating. General account assets of the custodian back these guarantees. Redemption of the entire investment contract at the plan level requires 12 months advance notice.

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the year ended December 31, 2013, there were no such transfers.

5. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013.

BALANCE, BEGINNING OF YEAR	$ 4,397,235
Interest Income	14,292
Realized gain	2,337
Unrealized gains relating to instruments held at the reporting date	434,321
Purchases	227,086
Sales	(132,084)
BALANCE, END OF YEAR	$ 4,943,187

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant observable inputs and ranges of values for those inputs.

Instrument	Fair Value	Valuation Techniques	Unobservable Input	Range
Guaranteed investment contract	$ 1,149,324	Assumed proceeds at discontinuance	Composite Crediting Rate	2.00-2.10%

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

7. INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 5, 2013, that the Plan and related trust, as then designed, are in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

7. INCOME TAX STATUS (Continued)

The Plan is subject to routine audits by taxing jurisdictions. In April 2013, the Plan was notified that it was selected for an IRS audit for the plan year ended December 31, 2011. The IRS has begun their fieldwork, however has not proposed any adjustment or assessed any penalties as of the date of the report. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. CONCENTRATION OF INVESTMENTS

Included in investments at December 31, 2013 and 2012 are shares of the Company's common stock amounting to $3,793,863 and $3,282,097, respectively. This investment represents 37% and 40% of total investments at December 31, 2013 and 2012, respectively. A significant decline in the market value of the sponsor's stock would significantly affect the net assets available for benefits.

9. RELATED PARTY TRANSACTIONS

Certain plan investments are managed by Principal Financial Group, a member of which (Principal Trust Company) serves as the custodian and, therefore, these transactions qualify as party-in-interest. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. SUBSEQUENT EVENTS

Effective January 1, 2014, the plan document was amended and restated. The amendments include allowing participants to make after-tax 401(k) deferrals and changing the eligibility requirements to allow all full-time and part-time employees of the Company who have completed 60 days of service and are age 18 or older to participate in the Plan.
