A Name of plan PENSION PLAN FOR CERTAIN UNION EMPLOYEES OF U.S. FOODSERVICE OF BUFFALO, INC.		B Three-digit plan number (PN) ▶ 019
C Plan sponsor's name as shown on line 2a of Form 5500 U.S. FOODSERVICE, INC.		D Employer Identification Number (EIN) 36-3642294

Complete Schedule I if the plan covered fewer than 100 participants as of the beginning of the plan year. You may also complete Schedule I if you are filing as a small plan under the 80-120 participant rule (see instructions). Complete Schedule H if reporting as a large plan or DFE.

Part I Small Plan Financial Information

Report below the current value of assets and liabilities, income, expenses, transfers and changes in net assets during the plan year. Combine the value of plan assets held in more than one trust. Do not enter the value of the portion of an insurance contract that guarantees during this plan year to pay a specific dollar benefit at a future date. Include all income and expenses of the plan including any trust(s) or separately maintained fund(s) and any payments/receipts to/from insurance carriers. Round off amounts to the nearest dollar.

1 Plan Assets and Liabilities:		(a) Beginning of Year	(b) End of Year
a Total plan assets	1a	259943	291019

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan: Pension Plan for Certain Union
Employees of U.S. Foodservice of Buffalo, Inc.
EIN/PN: 36-3642294/019

Schedule SB, Line 24 – Change in actuarial assumptions

The interest rate election was changed from full yield curve to full yield curve with 2 look-back months. Per the *Employee Plan News, March 2009, Special Edition* released by the IRS, the use of the monthly yield curve for January 2009 or any one of the four months immediately preceding January 2009 would not be challenged by the IRS for a calendar year plan with a January 1, 2009 valuation date.

There were no other changes in the non-prescribed actuarial assumptions since the January 1, 2008 valuation.

Plan: Pension Plan for Certain Union
Employees of U.S. Foodservice of Buffalo, Inc.
EIN/PN: 36-3642294/019

Schedule SB, Line 25 – Change in method

Beginning with the 2009 valuation, expected expenses are added to the normal cost and the asset method was changed from the market value to the average of the adjusted market value over the last two years preceding the valuation date with semi-annual determination dates.

Asset methods

We used financial data submitted by the trustee as of January 1, 2009 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value over the last two years preceding the valuation date with semi-annual determination dates. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset valuation method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value of assets that is greater than market.

Participant methods

We used the participant data supplied by the plan sponsor. We have reviewed the data and have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all potential plan participants as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

Schedule SB, Part V – Statement of actuarial assumptions/methods

- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- **IRC Sections 415(b):** The limitations of IRC Sections 415(b) have been incorporated into our calculations.
- **Benefit restrictions:** Benefit restrictions (if applicable) are ignored in this valuation.

Minimum funding method

Target liability for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's accrued liability is the present value of benefits based on credited service and average pay as of the beginning of the plan year, and an individual's normal cost is the present value of the benefit deemed to accrue in the plan year. If multiple decrements are used, the accrued liability and the normal cost for an individual are the sum of the component accrued liabilities and normal costs associated with the various anticipated separation dates.
- The plan's target normal cost is the sum of the individual normal costs, and the plan's funding target liability is the sum of the accrued liabilities for all participants under the plan.

Maximum deductible contribution method

Maximum funding calculations include the excess of the accrued liability computed using the projected unit credit method over the minimum funding target liability. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation is as follows:

- An individual's projected accrued liability is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the accrued liability for an individual is the sum of the component accrued liabilities associated with the various anticipated separation dates.
- The plan's projected funding target liability is the sum of the projected accrued liabilities for all participants under the plan.

Method changes since prior valuation

Beginning with the 2009 valuation, expected expenses are added to the normal cost, and the asset method was changed from the fair market value to the average of the adjusted market value over the last two years preceding the valuation date with semi-annual determination dates.
