ERNIE BALL, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2013 and 2012

1. Description of Plan

The following description of the **Ernie Ball Inc.** (the "Company") **401(k) Profit Sharing Plan** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - The Plan was established on January 1, 2004 as a defined contribution plan under the provision of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. The Company contracted with John Hancock Life Insurance Company to provide Plan recordkeeping, administrative and investment services, and to serve as custodian of the Plan's assets. Plan compliance and administrative services are performed by a third party administration firm. The trustees of the Plan are officers of the Company. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 ("ERISA").

Loan origination fees and asset charges on contract accounts are paid directly by Plan participants. All other administrative expenses are paid directly by the Company. Certain investment management fees and other charges paid to the custodian are offset against fund performance in the net appreciation in fair value of investments or against benefits paid to participants in the Statement of Changes in Net Assets Available for Benefits and are not, therefore, separately reflected as administrative expenses.

The Plan is exposed to credit risk in the event of default by the issuers of the investments to the extent of amounts recorded on the Statements of Net Assets Available for Benefits.

B. Eligibility - The Plan is a defined contribution plan covering all employees of the Company who are age 21 or older and have completed one year of service in which at least 1,000 hours are worked. Upon meeting the eligibility requirements, employees are eligible to enter the Plan on January 1 or July 1.

C. Contributions - Each pay period the participants may contribute either a dollar amount or percentage of their eligible annual compensation to the Plan subject to the limits allowable under the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an investment contract as investment options for the participants, which are administered by John Hancock Life Insurance Company.

At the discretion of the Board of Directors, the Company can make matching and profit sharing contributions, which are also participant directed. Participants must complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any profit sharing contributions. The Company matches 25% of employee contributions, up to 6% of eligible compensation deferred to the Plan. The matching contributions made to the Plan for the years ended December 31, 2013 and 2012 totaled $63,990 and $69,016, respectively. There were no profit sharing contributions for the years ended December 31, 2013 and 2012.

1. Description of Plan (continued)

D. Participant's Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, Plan earnings, and charged with an allocation of plan fund administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

E. Vesting - Participants are immediately vested in their voluntary contributions and roll over accounts plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. A participant is also 100% vested upon normal retirement age, death or disability.

F. Notes Receivable from Participants - Participants can borrow from their fund accounts a minimum of $500 up to a maximum of $50,000 reduced by the highest outstanding loan balance during the prior twelve months or 50% of their vested account balance. Loan terms range from 1 - 5 years at a reasonable interest rate determined by the administrator and are secured by their account balance. Interest rates range from 4.25% to 6.25% annually. Principal and interest is paid ratably through payroll deductions.

G. Payment of Benefits - Upon termination, death, disability, or retirement, a participant's account is distributed in a single lump-sum payment if the balance is less than $1,000. If the account balance is more than $1,000, the participant may choose from a number of different benefit options (some of which may require a spousal consent). In the case of death, the distribution shall be made to the participant's beneficiary.

H. Forfeited Accounts - At December 31, 2013 and 2012, forfeited accounts totaled $-0- and $2,939, respectively. These accounts will be used to reduce future employer contributions or pay for administrative expenses. Forfeitures of $16,831 were used by the Company to pay matching contributions during 2013.

2. Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

A. Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. Summary of Accounting Policies (continued)

B. Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

C. Investment Valuation and Income Recognition – The Plan's investments were held by John Hancock Life Insurance Company, the custodian. Investments are reported at fair value, as determined by the Plan's custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. Notes Receivable from Participants – Notes receivable from participants are valued at cost, which approximates fair value. Delinquent loans to participants are recorded as a distribution based upon the terms of the Plan documents.

E. Fair Value Measurement – Accounting Standards Codification ("ASC") 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level One - Inputs to valuation methodology are unadjusted prices for identical instruments in active markets that the Plan has the ability to access.
- Level Two - Inputs to valuation methodology include (a) quoted prices for identical instruments in active markets; (b) quoted prices for identical or similar instruments in markets that are not active; (c) inputs other than quoted prices that are observable for identical instrument; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level Three - Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value:

- **Pooled separate accounts:** Valued daily at the fair value of the underlying investments such as debt and equity mutual funds.
- **Collective investment trust:** Market approach valuation based on the periodic analysis of the underlying debt instruments.

F. Payment of Benefits – Benefits are recorded when paid.

3. Investments

All information disclosed in the accompanying financial statements, notes and supplemental schedule related to the Plan's investment assets and notes receivable from participants at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA by the John Hancock Life Insurance Company, the custodian for the Plan.

Collective investment trust	(1,081)	896
TOTAL	**$ 578,981**	**$ 397,774**

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The following methods are used to measure fair value that produces an amount that may not be indicative of net realizable value or reflective of future fair values.

- *Level 1 Fair Value Measurements*

  The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

- *Level 3 Fair Value Measurements*

  Market approach valuation based on periodic analysis of the underlying debt instruments.

4. Fair Value Measurements (continued)

Except for the Plan's collective investment trust contract, gains and losses (realized and unrealized) included in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013 are reported in net appreciation in fair value of the investments.

5. Related-Party Transactions

The Plan invests in shares of mutual funds managed by John Hancock Life Insurance Company, custodian and record keeper for the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Plan was established effective January 1, 2004.

The Plan has received an opinion letter from the Internal Revenue Service dated April 10, 2009 stating that the written form of the underlying volume submitter plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualifications. The plan administrator is not aware of any course of action or series of events that it believes would adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize any tax liability (asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of liability (asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Subsequent Events

The Plan has evaluated events and transactions occurring subsequent to the Statement of Net Assets Available for Benefits date of December 31, 2013 for items that should potentially be recognized or disclosed in these financial statements. The evaluation was conducted through August 19, 2014, the date these financial statements were available to be issued. No such material events or transactions were noted to have occurred.
