NOTE 1: DESCRIPTION OF PLAN

The following description of Bay Medical Management, LLC 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 1994 to provide benefits for employees of the Bay Medical Management, LLC and the employees' beneficiaries. The Plan is administered by a committee appointed by the Plan Sponsor.

The Plan is a combined 401(k) and profit sharing plan covering all eligible employees who have attained the age of twenty-one (21) years, completed a minimum of one year of service, and have worked 1,000 hours during the year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Year

The Plan year begins January 1 and ends December 31.

Contributions

The Plan allows for the following types of contributions:

- *Employee Salary Deferral 401(k) Contributions*
  The Plan includes an elective salary deferral arrangement pursuant to Section 401(k) of the Internal Revenue Code (the Code). Upon eligibility, employees are automatically enrolled into the Plan. The automatic enrollment contribution percentage is 3%, however a participant may voluntarily contribute up to 75% of their regular wages subject to various nondiscrimination tests and limitations prescribed by the Code.

- *Employer Discretionary Matching Contributions*
  The Plan Sponsor may elect to make discretionary matching contributions. Participants must complete one year of service and be actively employed on the last day of the Plan year to be eligible to share in the discretionary matching contribution. The Plan Sponsor made matching contributions of 50% of deferrals up to a maximum of 6% of participants' compensation in 2013 and 2012.

- *Employer Discretionary Contributions*
  Each plan year, the Plan Sponsor may contribute to the Plan an amount determined by the Plan Sponsor at its discretion. Participants must complete one year of service and be actively employed on the last day of the Plan year to be eligible to share in the discretionary contribution.

- *Employee Rollover Contributions from Another Qualified Plan*
  Employees may make rollover contributions from another qualified plan.

Allocations

The Plan provides various investment fund options and allows participants to direct their investments. Investment earnings and losses are allocated to participants' accounts based on the actual earnings or losses of the investments selected. Participants' accounts are charged with an allocation of investment and Trustee fees paid by the Plan.

NOTE 1: **DESCRIPTION OF PLAN (Continued)**

Vesting
Employees are 100% vested in their elective salary deferral contributions. Employer matching and discretionary contributions vest at the rate of 20% after two years of service and 20% per year of service thereafter.

Forfeitures
Forfeitures are used to reduce employer contributions. Forfeitures of $20,420 and $18,854 were used to reduce employer contributions paid in 2013 and 2012, respectively. At December 31, 2013 and 2012, the forfeiture balance was $4,320 and $20,420, respectively.

Retirement
Normal retirement under the Plan is the later of the date on which the participant attains age 58 or the participants 5th anniversary of joining the Plan. For accounts transferred from the Bay Medical Management, LLC Pension Plan, normal retirement age is the participant's 62nd birthday.

Payment of Benefits
Payment of retirement benefits may be made at the following times under the Plan: 1) normal retirement; 2) termination of employment of the participant; 3) death of the participant; 4) upon demonstration of financial hardship; or, 5) disability of the participant. A participant may elect to receive either a lump-sum payment or installment payments.

Investment and Trustee Fees
Substantially all of the Trustee and investment fees were paid by the Plan for the years ending December 31, 2013 and 2012. All other fees are paid by the Plan Sponsor. Expenses related to specific participant transactions are charged to the respective participant's account.

Notes Receivable to Participants
Under certain circumstances, the Plan allows active participants to borrow against their accounts. Amounts borrowed cannot exceed 50% of the participant's vested balance. Borrowings bear interest and are due within a reasonable period of time not to exceed five years, or fifteen years if used to purchase a principal residence.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting
The accounts of the Plan are maintained on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment Valuation and Income Recognition
Investments in personal choice retirement accounts, mutual funds, money market funds, common collective trusts and limited partnership are stated at fair market value using quoted market prices when available. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date. Increases in the unit values of investments are reflected in each participant's self directed account. Investments, other than the limited partnership interests, are valued daily.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan payments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded when paid.

Tax Status

The Plan has obtained a determination letter dated August 12, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has determined that as of December 31, 2013 there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2010.

Reclassifications

Certain reclassifications have been made to the 2012 financial statements to conform to the 2013 financial statement presentation. These reclassifications had no effect on previously reported net assets available for benefits.

NOTE 3: **INFORMATION CERTIFIED BY THE TRUSTEE**

	$ 10,491,591	$ 5,770,676

NOTE 5: **FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB) ASC 820 provides a framework for measuring fair value. That framework provides a three-tier hierarchy that prioritizes the inputs to valuation techniques used for measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted prices for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, model-based valuation techniques for which all significant assumptions are observable in the market, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Personal Chose Retirement Accounts: Primarily include cash, interest bearing cash, common and preferred stocks, corporate bonds, mutual funds and unit investment trusts and are valued at the net asset values of shares held by the Plan.

Money Market Account: Underlying short term investments with quoted prices in active markets to preserve the value of the investment at $1.00 per share.

Common Collective Trusts: Valued at the NAV of units of the collective trusts. The NAV, as provided by the custodians, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE 5: **FAIR VALUE MEASUREMENTS (Continued)**

Limited Partnership Interests: Generally include many factors in arriving at the fair value of the partnership interest including, comparable values of similar investments, estimated sales value, the nature and status of the investment, and estimated values provided by general partners and third parties.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

NOTE 6: **PLAN TERMINATION**

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants shall be 100% vested in their accounts.

NOTE 7: **RISKS AND UNCERTAINTIES**

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8: **RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS**

Certain Plan investments include shares of personal choice retirement accounts (individual brokerage accounts), mutual funds, common collective trusts, and money market funds managed by Charles Schwab. Charles Schwab Bank is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management and advisory services are recorded in net appreciation in fair value of investments. Fees for certain administrative expenses are paid to Schwab Retirement Plan Services, Inc., the record keeper and third party administrator of the Plan. Notes receivable from participants are considered party-in-interest transactions. These investments and transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

NOTE 9: **SUBSEQUENT EVENTS**

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 15, 2014, the date the financial statements were available to be issued, and management has determined that no subsequent events have occurred that should be disclosed.
