NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements are prepared on the accrual basis of accounting.

Cash Equivalents: All highly liquid investments with a maturity of six months or less are considered to be cash equivalents.

Investments: Investments are stated at fair value, based on quoted market values when available. The amounts shown in Note C for investments that have no quoted market price represent estimated value. Loans to participants and trust deeds are valued at cost which approximates fair value. Investments in partnership interests and real estate are recorded at estimated fair value as determined by third party appraisals. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair Value of Financial Assets and Liabilities: As of January 1, 2008 the Plan adopted FASB ASC 820-10, *Fair Value Measurements*. ASC 820-10 introduces a framework for measuring fair value and expands required disclosure about fair value measurements of certain assets and liabilities. ASC 820-10 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value, whereby level 1 uses quoted prices and active markets for identical assets or liabilities when determining fair market value; level 2 uses non active quoted prices for similar assets and liabilities that can be corroborated with market data; and level 3 uses unobservable information with little or no market data.

The Plan utilizes the active market approach (level 1) to measure fair value for its investment in corporate equity securities and mutual funds, while government and corporate bonds are measured at fair value using level 2 criteria which includes using non active quoted prices for similar assets and liabilities that can be corroborated with market data. Investments in partnership interests, real estate, and trust deeds are measured at fair value using level 3 criteria which includes appraisals and pricing models, discounted cash flow methodologies, or other techniques, for which the determination of fair value requires significant management judgment or estimation.

Investment Income: Investment income consists of interest, dividends, income from partnerships and net realized gains and losses on investments.

NOTE B - SUMMARY OF ACCOUNTING POLICIES - continued

Net Appreciation (Depreciation) in Fair Value of Investments: The net appreciation or deprecation in the fair value of investments consists of the change in the market value of investments.

Payment of Benefits: Benefits are recorded when paid.

Use of Estimates: The preparation of the Plan's financial statements requires the Plan administrator to make estimates and judgements that affect the reported statements of net assets and changes available for benefits. Such estimates relate primarily to the valuation of investments not traded on an established market. Actual results could differ from those estimates.

Reclassifications: Certain prior year amounts have been reclassified for comparative purposes.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Plan maintains its operating cash accounts at one financial institution. Accounts are insured by the Federal Deposit Insurance Corporation (FDIC insured) up to $250,000. The Plan has not experienced any loss in such accounts. As of December 31, 2009 and 2008, the uninsured balances were $335,536 and $113,436, respectively.
