1. PLAN DESCRIPTION

The following description of the Hydro Resources 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution benefit plan covering substantially all employees of Hydro Resources Holdings, Inc. (the "Company" or "Employer"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration

John Hancock Life Insurance Company USA ("John Hancock USA") serves as Custodian and Recordkeeper of the Plan. Duties of the Custodian include, among others, receiving contributions, collecting income, reinvesting the trust fund and making payments from the trust fund as directed. The term "trust fund" refers to all assets of whatever kind of nature held from time to time by the Custodian under the trust without distinction between contributions and income.

Eligibility

Each employee may become a participant on the first entry date coinciding with, or following attainment of age 21 and completion of 6 months of service. Entry dates are the first day of January, April, July and October.

Contributions

Participants may elect voluntary salary deferral contributions withheld from their salary based on an elected percentage, subject to annual individual deferral limitations of $17,500 for 2013 under the Internal Revenue Code ("IRC"). Participants that reach age 50 by the end of the calendar year are permitted to make catch-up contributions of $5,500. Participant contributions are matched by employer contributions of 25% of the participant's contribution up to a maximum of 5% of employee's compensation. Additional contributions may be made at the Company's discretion. No discretionary contributions were made by the Company for the year ended December 31, 2013. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans. In certain situations, the Company may be required to make additional contributions to the Plan. If the Plan is top-heavy or if highly compensated employees ("HCEs") contribute to the Plan at a greater contribution rate than that of non-highly compensated employees ("NHCEs"), than what is allowable under the IRC, the

1. PLAN DESCRIPTION (continued)

Company may have to take corrective action. This action could result in either a reduction in the contributions for the HCEs or additional employer contributions, in the form of a Qualified Non-Elective Contribution to selected NHCEs under the Plan. During the Plan years ended December 31, 2013 and 2012, excess contributions amounting to $0 and $17,250 are recorded as a liability in the accompanying statements of net assets available for benefits and as a reduction of participant-directed contributions for the respective years. Participant's salary deferral and Employer matching contributions are self-directed in the investment funds of the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Employer's matching contribution, the Employer's discretionary contribution and an allocation of Plan earnings, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions and the Employer's fixed match plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of credited service. The discretionary contribution vests at a rate of 20% per year commencing after the first full year of credited service and becomes fully vested after six years of credited service or when the participant attains age 65 and 5 years of participation in the Plan or upon death or disability. A participant also becomes fully vested at early retirement, which is attainment of age 55 and 6 years of service.

Forfeited Accounts

At December 31, 2013, forfeited non-vested accounts totaled $356. At December 31, 2012, there were no forfeited non-vested accounts. These amounts will be used to reduce future Employer contributions or payment of plan expenses.

Notes from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are paid ratably through monthly payroll deductions for current employees, and remitted directly to the Trustee. Loan balances for terminated employees are payable upon termination of employment. Delinquent loans are treated as distributions based upon the terms of the Plan.

1. PLAN DESCRIPTION (continued)

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Benefit Payments

Upon termination of service due to retirement, or prior to retirement, on death, disability, resignation, discharge, or proven hardship, a participant is eligible to receive benefit payments in the amount equal to the value of the participant's vested interest in his or her account. A participant may elect to receive either a lump-sum amount equal to their account, or as a rollover to another qualified plan that shall not exceed the life expectancy of the employee or designated beneficiary.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the accounts of all participants would become fully vested. The net assets of the Plan would be allocated and distributed among the participants and beneficiaries of the Plan in proportion to their interests.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation or depreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

2. SUMMARY OF ACCOUNTING POLICIES (continued)

Benefits Payable

Benefits are recorded when paid. Accordingly, benefits payable to persons who have elected to withdraw from the Plan but not yet been paid are not accrued. At December 31, 2013 and 2012, there were no amounts payable to participants.

Administrative Expenses

All reasonable professional fee expenses incurred by the Plan are paid directly by the Company. During the year ended December 31, 2013, administrative expenses paid by the Company totaled approximately $18,000. All other administrative expenses were paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the accompanying statements of net assets available for benefits and changes therein. The Company bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investments that are exposed to various risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, and therefore could affect participants' account balances.

3. GUARANTEED INTEREST ACCOUNTS

An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. Fully benefit-responsive investment contracts are included at fair value in the investments of the Plan and are adjusted to contract value in the statements of net assets available for benefits. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Guaranteed Interest Accounts ("Accounts") guarantee the return of principal plus compound interest earned over a defined term of 3, 5 or 10 years (provided all contributions remain in the account until the end of the guarantee period). The Accounts are fully benefit-responsive and participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Accounts at contract value.

Interest rates are established on the first day of each calendar month and apply to all regular ongoing contributions made to the Accounts in that month. This is called the "new money" regular rate. At the end of each reporting year, a "composite rate" of interest is determined. The composite rate is the effective annual rate earned by all contributions to the Accounts during that reporting year. After the end of each reporting year, contributions made will continue to earn that reporting year's composite interest rate until the end of the guaranteed term. There were no valuation allowances against the contract value as of December 31, 2013 or 2012.

The average yields earned by the guaranteed investment contract for the year ended December 31, 2013 and 2012 was 1.1% and 1.3%, respectively.

4. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

4. FAIR VALUE MEASUREMENTS (continued)

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as follows:

	INVESTMENTS AT FAIR VALUE AS OF DECEMBER 31, 2013			
	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
Registered investment companies	$ 7,062,050	$ –	$ –	$ 7,062,050
Guaranteed interest accounts	–	122,999	–	122,999
Total assets at fair value	$ 7,062,050	$ 122,999	$ –	$ 7,185,049

	INVESTMENTS AT FAIR VALUE AS OF DECEMBER 31, 2012			
	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
Registered investment companies	$ 5,623,453	$ –	$ –	$ 5,623,453
Guaranteed interest accounts	–	118,549	–	118,549
Total assets at fair value	$ 5,623,453	$ 118,549	$ –	$ 5,742,002

There were no significant transfers in and/or out of the fair value categories during 2013 and 2012.

5. INFORMATION CERTIFIED AND PROVIDED BY JOHN HANCOCK LIFE INSURANCE COMPANY USA

The following is a summary of the Plan's asset information included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan administrator. The Plan administrator has obtained certifications from John Hancock Life Insurance Company USA that information provided to the Plan Administrator by the Custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

John Hancock also certified the completeness and accuracy of $857,765 of appreciation in fair value of investments and $4,968 of interest related to the aforementioned Plan assets for the year ended December 31, 2013.

6. INVESTMENTS

The following table presents the fair value of single investments in this Plan that were certified by John Hancock Life Insurance Company USA ("John Hancock USA") and represent at least 5% of the Plan's net assets available for benefits as of December 31, 2013 and/or 2012.

7. RECONCILIATION OF FINANCIAL STATEMENT TO FORM 5500

The following table reconciles net assets available for benefits in the financial statements to the Form 5500, as of December 31:

The following is a reconciliation of the net change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2013:

Net increase in net assets per the financial statements	$ 1,435,897
Less: other – prior year	(539)
Change in net assets available for benefits per the Form 5500	$ 1,435,358

8. PLAN TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated October 17, 2003 that the Plan is designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Therefore, no provision for income taxes has been included in the Plan's financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years prior to 2009.

9. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in notes receivable from participants. These transactions qualify as party-in-interest transactions as defined by ERISA. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

The Plan's investment assets represent funds invested in, or maintained by, John Hancock USA. John Hancock USA is the Custodian and Recordkeeper of Plan assets; and, therefore, these investments represent exempt party-in-interest transactions.

10. SUBSEQUENT EVENTS

The Plan Sponsor considered subsequent events through September 16, 2014, the date on which the Plan's financial statements were available for issuance, and concluded that there are no material subsequent events to report.
