UNITED TALENT AGENCY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the United Talent Agency, Inc. 401(k) Profit Sharing Plan (the "plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

(a) General

The plan is a 401(k) retirement savings plan covering all employees ("participants") of United Talent Agency, Inc. (the "company"), except those who are members of collective bargaining units and certain other administrative staff. Under the plan, participants may defer a portion of their annual compensation, but not to exceed the maximum amount as allowed by the Internal Revenue Code. The company has the right to make a discretionary matching contribution of up to 15% of annual compensation. The plan was established with an effective date of January 1, 1995, and provides for benefits upon retirement, permanent disability, death and severance from the company.

The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trust Fund is administered by the company through their contract administrator, McCready & Keene, Inc. The majority of the participants direct the investment of their accounts based on a choice of investment vehicles as approved by the trustees of the plan; certain participants fully direct the investments of their accounts.

(b) Eligibility

Employees are generally eligible to participate in the plan upon employment and the attainment of twenty-one years of age. The entry date of participation for all contributions is the first day of each month coincident with or next following the date on which eligibility requirements are met. However, employees must complete one year of continuous employment to participate in matching or other company contributions. Eligible employees may elect not to participate in the plan. Certain classes of employees are excluded from participation in the plan.

NOTE 1 - DESCRIPTION OF PLAN (continued)

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the plan's earnings, including any unrealized appreciation or depreciation on investment assets. At the end of each plan year, if the company makes a matching contribution it is allocated to employees making elective pre-tax contributions who are credited with at least 1,000 hours of service and who are employed on the last day of the plan year. Additionally, the company may make a qualified nonelective contribution ("QNEC") to the plan which is allocated to the accounts of non-highly compensated employees who were plan participants as of the beginning of the plan year.

(d) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts, plus actual earnings thereon, is based upon years of continuous service. A participant is 20% vested after two years of credited service. Vesting increases 20% every following year until fully vested after six years.

(e) Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the prevailing U.S. prime rate at the time of borrowing plus 1%. Principal and interest are repaid ratably through payroll deductions.

(f) Payment of Benefits

Upon termination of service or normal retirement age (defined as the later of when an employee reaches the age of 65 or after the first day of the first plan year in which participation commenced) benefits are paid upon request in accordance with the plan. Additionally, in the event of death, participants become 100% vested in their account balances and benefits are paid in accordance with the plan.

NOTE 1 - DESCRIPTION OF PLAN (continued)

(g) Forfeitures

When certain terminations of participation in the plan occur, the nonvested portion of the participant's account, as defined by the plan, represents a forfeiture. Forfeitures are utilized to pay administrative expenses and reduce the employer contributions for the plan year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

(c) Investment Contract with Insurance Company

The investment contract with the insurance company is equal to the principal invested plus interest earned ("contract value"). Management is of the opinion that the contract value approximates fair value.

(d) Administration Costs

The cost of legal, accounting, and actuarial services necessary to administer the plan, as well as the internal cost to compile the detailed participant data, may be paid out of the plan unless paid by the company.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

(f) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Payment of Benefits

Benefits are recorded when paid. At December 31, 2013, the amount of unpaid distributions to terminated employees was $971.

(h) Cash and Cash Equivalents

Cash and cash equivalents include cash deposits in money market accounts and highly liquid investments with original maturities of three months or less at the time of purchase.

NOTE 3 - INVESTMENTS

Common stocks, corporate bonds, and mutual funds held at brokerage accounts	750,982
	$ 2,984,519

NOTE 4 - FAIR VALUE MEASUREMENTS

The plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements

The fair value of the investment contract with insurance company is based on the amounts contributed or transferred to the account plus all accrued interest.

Level 3 Fair Value Measurements

Loans to plan participants are valued at amortized cost which approximates fair value.

The following tables set forth, by level within the fair value hierarchy, the plan's investments at fair value as of December 31, 2013 and 2012:

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The plan invests in a fully benefit-responsive stable value fund with American United Life Insurance Company ("AUL"). The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. AUL is contractually obligated to repay the principal at a specific interest rate that is guaranteed to the plan.

Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at contract value which approximates fair value (Note 2).

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value at December 31, 2013 and 2012 was $2,198,997 and $2,476,429, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but it may not be less than 1%.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

Certain events limit the plan's ability to transact at contract value with AUL. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletions of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such value event, which would limit the plan's ability to transact at contract value with plan participants, is probable.

	2013	2012
Average yields:		
Based on actual earnings	1.50%	1.50%
Based on interest rate credited to participants	1.50%	1.50%

NOTE 6 - TAX STATUS

The plan is intended to comply with the provisions of Section 401(k) and other applicable provisions of the Internal Revenue Code, and similar provisions of the California Revenue and Taxation Code. The plan has received a favorable determination letter dated March 31, 2008 from the Internal Revenue Service. The plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its discretionary contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.
