Geosyntec Consultants, Inc. and Subsidiaries 401(k) Retirement Plan

Report on the financial statements

We were engaged to audit the accompanying financial statements of Geosyntec Consultants, Inc. and Subsidiaries 401(k) Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note H, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2013 and 2012, and for the year ended December 31, 2013, stating that the certified information provided to the Plan administrator is complete and accurate.

NOTE A - DESCRIPTION OF PLAN

The following description of the Geosyntec Consultants, Inc. and Subsidiaries 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established under the provisions of the Internal Revenue Code (the "IRC"). The Plan covers all regular employees of Geosyntec Consultants, Inc. and Subsidiaries ("Company" or "Plan Sponsor") who have completed one month of eligible service and are age twenty and a half or older. In addition, effective January 1, 2014, the Plan was amended to automatically enroll all participants in the Plan on their first day of eligibility at a contribution rate of 5 % which will increase 1% per year until the participant reaches a 9% contribution rate. Participants may chose a different contribution rate (including 0%) at any time. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Plan Administration

Delaware Charter Guarantee and Trust Company d/b/a Principal Life Insurance Company ("Principal") is the Plan's Trustee. Principal also serves as custodian for the Plan's investments.

Contributions

Each year, participants may contribute up to 80% of pretax annual compensation, as defined in the Plan document, subject to maximum dollar limitations established by the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company matches participant contributions 100% up to the first 1% of the participant's compensation, then 50% of the next 4% and then matches 25% of the remaining contribution up to a total of 9% of covered compensation. Employee contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings. The total maximum allowable tax-deferred contribution to the Plan under the IRC for 2013 from employee sources was $17,500, plus catch-up contributions of $5,500, for employees age 50 or over.

The Company may also make discretionary contributions. These contributions are allocated as of the last day of the Plan year to each eligible participant by multiplying the contribution by the ratio of the sum of each participant's annual compensation, up to the integration level, plus two times the amount of such compensation in excess of the integration level, to the total of such amount for all eligible participants. Participants become eligible for the discretionary contribution after completing one year of service in which they worked 1,000 hours as defined by the Plan. Discretionary Company contributions were $1,902,000 for the year ended December 31, 2013, and were funded to the Plan in January 2014.

(continued)

NOTE A - DESCRIPTION OF PLAN - Continued

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of (a) the Company's discretionary contribution and (b) the Plan's earnings. In addition, each participant's account is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined.

Vesting

Participants are fully vested in their contributions plus actual earnings thereon. Participants vest in Company contributions based upon the following schedule:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Upon termination of employment, the non-vested portion of a participant's account is forfeited.

Forfeitures

Amounts forfeited by participants are used to offset required Company matching contributions. In 2013, employer contributions were reduced by $211,827 of forfeitures. At December 31, 2013 and 2012, unallocated forfeited accounts totaled $3,315 and $13,878, respectively.

Investment Options

Upon enrollment in the Plan, participants may direct their contributions plus actual earnings thereon to a registered investment fund, a common trust fund, and any pooled separate accounts at Principal. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested account balance, to a maximum of $50,000. All loans have a definite repayment period which provides for payments to be made not less frequently than quarterly, and for the loan to be amortized over a reasonable period of time, not to exceed five years.

(continued)

NOTE A - DESCRIPTION OF PLAN - Continued

Notes Receivable from Participants - Continued

Participants may be granted two loans during any one-year period, however, only one loan may be outstanding at a time. The loans are secured by the vested balances in the participant's account. Interest rates vary depending on the prime rate of interest at the date of the loan, and are fixed during the term of the loan. Loan repayments are made by payroll deductions, and as loans are repaid, the repayments are reinvested in the participants' investment accounts. Participant loans outstanding as of December 31, 2013 and 2012 were $978,452 and $948,705, respectively, and had interest rates ranging from 5.25% to 8.50%.

Payment of Benefits

Participants' vested account balances are payable upon termination, retirement, disability, death or upon request after age 59½. Pursuant to the first plan amendment, dated January 1, 2011, a participant who has attained age 59½ may withdraw any part of his vested account resulting from elective deferral, matching, discretionary and rollover contributions. A participant may make only two such withdrawals in any twelve month period. Upon termination of service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account if the vested interest has never been more than $5,000. Benefits are recorded as deductions from net assets available for benefits when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts through a common collective trust. The statements of net assets available for benefits presents the fair value of the investment in the common trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

(continued)

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and disclosure of contingent assets at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is reported when earned. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan provides for investment options in various mutual funds and common collective trusts. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Administrative Expenses

The Company pays certain administrative fees associated with the Plan. Fees relating to Plan investments will generally be allocated among the accounts of all participants in the Plan proportionately based on the value of account balances or number of participants in the Plan. Expenses specifically incurred by, or attributable to, a participant may be allocated directly to a specific participants account. Administrative functions are performed by certain employees of the Company. No such employees receive compensation from the Plan. Expenses paid by the Plan were $24,356 for the year ended December 31, 2013. Fees incurred by the Company were approximately $20,000 for 2013.

(continued)

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Net Appreciation in Fair Value of Investments

Net realized and unrealized appreciation of investments is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments and includes gains and losses on investments bought and sold as well as held during the year.

NOTE C - INVESTMENTS

The following table presents investments that represent five percent or more of the Plan's net assets as of December 31:

	2013	2012

NOTE D - FAIR VALUE MEASUREMENTS

The fair value framework hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds – Valued at the net asset value ("NAV") of shares held by the Plan at year-end. The mutual funds provide for daily redemptions by the Plan at reported NAVs with no advance notice requirement.

Common Collective Trust Fund – Valued based on the fair value of the collective trust's underlying investments using information reported by the investment advisor.

Guaranteed Income Account – Valued by discounting the related cash flows based on current yields of similar instruments.

Pooled Separate Accounts – Valued at fair value, as determined by the unit value reported by Principal by dividing the individual fund's net assets at fair value by the total units outstanding.

(continued)

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

(1) There are no unfunded commitments or redemption limitations or penalties for these investments.

(a) Asset class is comprised of a combination of fixed income and equity investment options. Investment options may include balanced, asset allocation, target-date, and target-risk. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

(b) Asset class comprised of investment options that invest in bonds, debt of a company or government entity. It may also include real estate options that directly own property. Typically carries more risk than short-term fixed income investment options, but less overall risk than equities. All options in this category have potential to lose value.

(c) Asset class is comprised of investment options that invest in stocks or shares of ownership in companies with their principal place of business outside the United States. Often carry more risk than US equity investment options but may have the potential for higher returns. All options in this category have potential to lose value.

(d) Asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established US Companies. These options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. All options in this category have the potential to lose value.

(e) Asset class is generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized US companies. These options typically carry more risk than larger US equity investment options but have the potential for higher returns. All investment options in this category have the potential to lose value.

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2013:

	Guaranteed Income Account
Balance, beginning of year	$ 10,257
Interest income	307
Expenses	(25)
Balance, end of year	$ 10,539

NOTE E - COMMON COLLECTIVE TRUST

The Principal Stable Value Fund (the "Fund") offers a diversified group of investments with competitive levels of yield consistent with a stable fixed-income methodology and a prudent assumption of investment risk. The Fund provides stability of returns, liquidity to pay plan benefits and a high credit quality by investing in conventional, synthetic and separate account investment contracts (collective contracts) issued by life insurance companies, banks and other financial institutions. These contracts allow for their principal value to remain stable regardless of the volatility of the financial markets. The trustee is authorized to employ the services of an investment advisor for the Fund, which is Morley Capital Management Inc., a wholly owned subsidiary of the Principal Financial Group.

Investments held by a collective investment trust are required to be reported at fair value. The statements of assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in assets available for benefits is prepared on a contract value basis. As of December 31, 2013, the Fund's contract value was $9,253,507 with a fair value of $9,309,856. As of December 31, 2012, the Fund's contract value was $8,057,708 with a fair value of $8,247,097.

The contributions are maintained in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Below is a summary of the average contract yield in the aggregate for all contracts as of December 31:

	2013	2012
Based on actual earnings	0.84%	1.28%
Based on interest rate credited to participants	0.82%	1.27%

(continued)

NOTE E - COMMON COLLECTIVE TRUST - Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Fund may terminate the investment contract with the Plan by providing 12 months advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by federal law, failure to render performance necessary to comply with the terms of the contract, Plan disqualification and failure to adopt the Plan in a reasonable period of time. Upon termination by the Fund, a market value adjustment may apply.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE G - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated November 1, 2010 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable requirement of the IRC, and that, therefore, the Plan qualifies under section 401(a) and the related trust is tax exempt as of December 31, 2013 and 2012. Therefore, no provision for taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee, has certified that the following data included in the financial statements and supplemental schedule of assets (held at end of year) is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Schedule H, Line 4i - Schedule of Assets (Held at End of Year), December 31, 2013.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information certified by the trustee to the related information included in the financial statements and supplemental schedules.

NOTE I - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts, common trust and guaranteed income contracts managed by Principal. Fees paid to Principal by the Plan for investment and administrative services were $24,356 for the year ended December 31, 2013.

NOTE J - RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:
