Report on the Financial Statements

We have audited the accompanying financial statements of the Aldridge Electric, Inc. 401(K) Retirement Plan ("Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement on the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Aldridge Electric, Inc. 401(K) Retirement Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Form 5500 Schedule H, Line 4i - Schedule of Assets (Held at End of Year), referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

Year Ended December 31, 2013

NOTE A - DESCRIPTION OF PLAN AND ACCOUNTING POLICIES

The following description of the Aldridge Electric, Inc. 401(K) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan with a 401(k) salary reduction covering all employees of Aldridge Electric, Inc. (the "Plan Sponsor") and GFS Construction LLC (a wholly-owned subsidiary of Aldridge Electric, Inc.) who have three months of service, one year of service is required to be eligible for employer contributions, are age twenty-one or older, have not opted out and who are not members of a collective bargaining unit. Employees who have met the above eligibility requirements, and have not opted out, are automatically enrolled in the Plan with a deferral percentage of 3%. American United Life Insurance Company ("AUL") serves as the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

The Plan is funded by contributions from participants to the Plan through salary reductions up to 20% of annual compensation, as defined by the Plan, subject to the maximum amount deductible under the Internal Revenue Code. Participants may designate all or a portion of their salary deductions as Roth Elective Deferrals (after tax).

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan's default investment account is the OneAmerica Asset Director. The Plan Sponsor makes Safe Harbor matching contributions equal to 100% of elective deferrals that do not exceed 6% of each eligible participant's eligible compensation. An eligible participant is a participant who has one year of service and is age twenty-one or older.

The Plan Sponsor may also make a discretionary profit-sharing contribution at the option of the Plan Sponsor's board of directors. The Plan Sponsor's profit-sharing contributions are integrated with the taxable wage base to all participants during the plan year. Participants must be employed on the last day of the plan year to be eligible for any discretionary profit sharing contribution. There were no discretionary contributions for the year ended December 31, 2013.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Plan Sponsor's contributions and (b) Plan earnings (losses) and (c) charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the participant's vested account balance. The participant's account is invested directly into various options as directed by the participant. There are no non-participant directed investments.

NOTES TO FINANCIAL STATEMENTS
(Continued)

Year Ended December 31, 2013

NOTE A - DESCRIPTION OF PLAN AND ACCOUNTING POLICIES - Continued

4. Vesting

Participants are immediately 100% vested in their contributions and the Plan Sponsor's Safe Harbor matching contributions plus actual earnings thereon. Vesting in the Plan Sponsor's discretionary profit-sharing contributions plus actual earnings thereon is based on years of continuous service. The vesting schedule begins after one year of service, becoming 100% vested after five years of service.

5. Notes Receivable from Participants

Notes receivable from participants (participant loans) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions upon the terms of the plan document. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance at the time the loan is originated. Loan terms generally cannot exceed five years, but can be extended to as many as thirty years for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions. The loans bear interest from 4.5% to 8.25%, depending on the prevailing market rate at the time of the loan. The loans are secured by the balance in the participant's account.

6. Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may make an election to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments in monthly, quarterly, semi-annual, or annual amounts that may not extend beyond the earlier of the participant's life or the life expectancy of the participant. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Benefits are recorded when paid.

7. Administrative Costs

The Plan Sponsor pays certain administrative expenses of the Plan.

8. Forfeitures

Forfeitures arising from terminated employees who were not 100% vested in the Plan Sponsor's discretionary contributions are first used to pay administrative expenses and any remaining amount is used to reduce any future Plan Sponsor contributions. There was $1,195 received from forfeited nonvested accounts during the year ended December 31, 2013 that were used to pay administrative expenses.

NOTE A - DESCRIPTION OF PLAN AND ACCOUNTING POLICIES - Continued

9. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

10. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

12. Investment Valuation and Income Recognition

Investments in mutual funds are recorded at the fair value of the underlying assets. The accounts are credited with the actual earnings and realized and unrealized gains and losses on the underlying investments. The accounts are charged for withdrawals used to pay benefits. Purchases and sales of securities are recorded on a trade-date basis. The AUL Fixed Interest Account is valued at contract value, as reported to the Plan by AUL, which represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participant loans are valued at their outstanding balances, which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for additional discussion of fair value measurements.

13. Additions, Deductions, and Changes in Net Assets

Income and expenses are recorded on the accrual basis. Employer and participant contributions are recorded on the accrual basis in the plan year in which the contribution applies. Unrealized appreciation and depreciation in the fair value of the investments are included in the accompanying financial statements.

NOTE A - DESCRIPTION OF PLAN AND ACCOUNTING POLICIES - Continued

14. Fully Benefit-Responsive Investment Contracts

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by FASB ASC 946, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as any adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for these investments. No adjustment is required since the Plan sponsor believes that contract value is an approximate fair value of the contracts.

15. Subsequent Events

FASB ASC 855, *Subsequent Events*, establishes general standards of accounting for and the standard for disclosure of events that occur after the Statements of Net Assets Available for Benefit date but before financial statements are issued or are available to be issued. In particular, this standard sets forth the period after the Statements of Net Assets Available for Benefit date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements. It also identifies the circumstances under which an entity should recognize events or transactions occurring after the Statements of Net Assets Available for Benefit date in its financial statements and the disclosures that an entity should make about events or transactions that occurred after the Statements of Net Assets Available for Benefit date.

Management has determined that the proper date for evaluation of subsequent events is the date the financial statements were available to be issued, which was August 29, 2014.

NOTE B - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with AUL. AUL maintains the contributions in a general account. The general account assets are predominately fixed-income investments (bonds, mortgages, and private placements). The average maturity for these assets is nearly 10 years, and the average duration is between five and six years.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note A-14, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value, which the Plan Sponsor believes to approximate contract value. Contract value, as reported to the Plan by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $2,102,139 and $2,245,112, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average interest rate based on actual earnings and based on the interest rate credited to participants for the guaranteed investment contract was 3.00% for the years ended December 31, 2013 and 2012, respectively.

NOTE C - FAIR MARKET VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Authoritative guidance establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value based on their observability. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

- Level 1 - Fair value is based on unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities. These generally provide the most reliable evidence and are used to measure fair value whenever available. Active markets provide current pricing data on a more frequent basis. Examples include certain U.S. Treasury securities and exchange-traded equity securities.

- Level 2 - Fair value is based on quoted prices for similar assets or liabilities in active markets, inactive markets, or model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. This level includes financial instruments that are valued by independent pricing services using models or other valuation methodologies. These models are primarily industry-standard models that consider various inputs which are observable or derived from observable information in the marketplace. Examples include certain public and private corporate securities, certain government and agency securities, and certain mortgage-backed securities.

- Level 3 - Fair value is based on valuations derived from techniques in which one or more significant inputs or significant value drivers are unobservable for assets or liabilities. Non-binding broker quotes on certain fixed maturity securities, which are utilized when pricing service information is not available, are reviewed for reasonableness by the Company, and are generally considered Level 3. Examples include certain public and private corporate securities, certain mortgage-backed securities and other less liquid securities (such as FHLBI stock and limited partnerships), and embedded derivatives resulting from certain products with guaranteed benefits.

NOTE C - FAIR MARKET VALUE MEASUREMENTS - Continued

In certain instances, the inputs used to measure fair value fall into different levels of the fair value hierarchy. In such cases, the level disclosed is based on the lowest level significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement and ultimate classification of each asset and liability requires judgement.

The methods and assumptions the Company uses to estimate fair values of assets and liabilities measured on a recurring basis are summarized below.

Mutual funds: Valued at the net asset value of shares held by the plan at year end. Includes funds that invest in various stocks and bonds and the fair value is determined based upon these accounts.

Investment contract: Fair value is the amount plan participants or plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity.

The Plan administrator determines the fair value measurement level based on consultations with the custodian of the Plan.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012.

NOTE E - NOTES RECEIVABLE FROM PARTICIPANTS

Following is a summary of participant loan activity for the years ending December 31, 2013 and 2012.

	December 31, 2013	December 31, 2012
Balance - beginning of year	$ 534,734	$ 437,544
Loans made to participants	278,762	282,981
Principal payments	(169,508)	(168,301)
Loan write-off	(16)	(6)
Offset loan principal	(13,421)	(17,484)
Balance - end of year	$ 630,551	$ 534,734

NOTE F - RELATED PARTY TRANSACTIONS

The Plan invested in certain instruments managed by the Custodian. Transactions in these investments are non-prohibited related party transactions. Commissions paid by the Plan to the custodian for investment management services amounted to $42,248 for the year ended December 31, 2013.

NOTE G - TAX STATUS

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the prototype plan, as designed, qualified for federal income tax-exempt tax status. The Plan has not individually sought a determination letter from the IRS on its qualification status, but the Plan sponsor believes this specific plan qualifies.

The Plan administrator believes the Plan is no longer subject to income tax examination for years prior to 2010.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its operations at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100 percent vested in their accounts.

NOTE I - TERMINATED PARTICIPANTS

The account value of individuals who left the Company prior to the years ended December 31, 2013 and 2012 and elected to withdraw from the Plan subsequent to the respective Plan year end was approximately $63,000 and $818,000, respectively. Under ERISA, employees who have terminated employment with the Plan Sponsor, with balances in the Plan greater than $5,000, are allowed to maintain their investments in the Plan, but are not allowed to make additional contributions. As of December 31, 2013 and 2012, these cumulative balances were approximately $2,571,000 and $3,067,000, respectively.

NOTE J - AMENDMENTS TO THE PLAN

Effective July 19, 2013, the Plan was restated to reflect the sponsoring employer adopting the American United Life Insurance Company Prototype Non-Standardized 401(k) Profit Sharing Plan and Trust. The restatement added an affiliated employer, GFS Construction, LLC, as a participating employer.

Amendment #1 to the restated Plan was signed in October 2013 with an effective date of January 1, 2014. The amendment includes the following changes:

1. Any participant covered under another qualified defined contribution plan maintained by the employer, the provisions of Plan section 4.4(6) will apply as if the other plan were a "master prototype" plan.

2. When a non-key employee is a participant in this Plan and another defined contribution plan maintained by the employer, a minimum, non-integrated contribution of 3% of each non-key employee's 415 compensation shall be made to the Aldridge Electric, Inc. 401(k) Retirement Plan.

NOTE K - SUBSEQUENT EVENTS

The contributions receivable as of December 31, 2012 were received by the Plan in February 2013.

The Plan was amended on March 24, 2014 (known as Amendment #2 to the restated Plan) and includes the following provisions:

1. Effective April 1, 2014:
    - The name of the employer and plan administrator was changed to Aldridge Group, LLC.
    - The Plan name was changed to Aldridge Group, LLC 401(k) Retirement Plan.
    - Aldridge Electric, Inc. was added as a participating employer in the plan.
    - Any hours of service with Aldridge Electric, Inc. is counted for eligibility, vesting, and contribution allocation purposes in the plan.
2. Effective January 1, 2015:
    - The plan name in Section B.f. of Appendix A will be changed from Aldridge Electric, Inc. 401(k) Retirement Plan to Aldridge Group, LLC 401(k) Retirement Plan.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
