PROFIT SHARING AND SAVINGS PLAN

Notes to Financial Statements
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Newport Diversified, Inc. Profit Sharing and Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General - The Plan is a defined contribution plan. The Plan covers all employees of Newport Diversified, Inc. (the Company) who are at least 21 years of age, have completed at least one year of "eligibility service" and have worked at least one thousand (1,000) hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

FASB Codification - The Financial Accounting Standards Board (FASB) sets generally accepted accounting principles (GAAP) that the Plan follows to ensure consistent reporting of financial condition, results of operations, and cash flows. In June 2009, the FASB established the FASB Accounting Standards Codification (Codification) as the sole source of authoritative GAAP.

The Codification does not change how the Plan accounts for its transactions or the nature of the related disclosures made. The change was made effective by the FASB for periods ending on or after September 15, 2009. The adoption of the Codification did not impact the Plan's financial position and results of operations. The Plan has updated these financial statements to reflect the guidance in the Codification.

Contributions - Participant's contributions are made to the Plan by means of salary deferral by which the participant is entitled to defer up to 92% of their annual compensation. The Company, at its option, may elect to make a discretionary contribution to the Plan. For the years ended December 31, 2009 and 2008, the Company made a matching contribution of $79,941 and $83,449, respectively. The Company may also elect to make profit-sharing contributions to the Plan. No profit-sharing contributions were made to the Plan by the Company during 2009 and 2008. Furthermore, rollover contributions from other qualified plans are accepted by the Plan.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Companies' matching contributions, and an allocation of (a) the Companies' discretionary profit sharing contribution and (b) Plan earnings, and charged with an allocation of (a) Plan losses and (b) administrative expenses. As defined, allocations of plan earnings are based on participant balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Participant Loans - The Plan allows participants to borrow up to 50 percent of their vested account balances, but not less than $1,000, and not greater than $50,000. The Plan allows only one loan per participant to be outstanding at any time. The loan repayment period must be no more than five years with the interest rate determined based on prevailing rates at the date of the loan. Home loans can be repaid over a reasonable period of time that may be longer than five years or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Forfeitures - Forfeitures result from nonvested benefit payments remaining in the Plan for all terminated employees. Upon reaching the break-in-service requirement, as defined in the Plan agreement, forfeitures generated are used to reduce future company matching or discretionary contributions. Forfeitures for the years ended December 31, 2009 and 2008 were $1,066 and $85, respectively. Employer contributions were reduced by $618 and $154 from forfeited non-vested accounts for the years ended December 31, 2009 and 2008, respectively.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested in their employer matching and profit sharing contributions after six years of credited service or upon a change in corporate control as defined in the Plan.

Payment of Benefits - In the case of retirement or disability, the participants' accrued benefits will be distributed to them, or in the case of death, to their beneficiary, either in a lump sum, in periodic installments not to exceed the life expectancy of the beneficiary as determined by Tables V and VI of the Federal Income Tax Regulations, or by any other method determined by the Plan's management. If participants terminate employment prior to attaining age 59 1/2, their vested interest may not be received in periodic installments.

Excess Contributions - Corrective distributions of $170 and $2,843 for the years ended December 31, 2009 and 2008, respectively, were made to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

Administrative Expenses - All expenses incurred by the Plan are paid from the Plan's assets to the extent the expenses have not been paid by the Company. For the years ended December 31, 2009 and 2008 administrative expenses of $698 and $426, respectively, were paid for by the Plan.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Investments - Each participant directs the allocation of his or her contribution, and employer matching and discretionary contributions to one or more of twenty-three investment options. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis.

Risks and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting the disclosure under ERISA.

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events -The Plan evaluated subsequent events through June 18, 2010, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Interest-bearing cash: Valued at market value of corresponding currency at year end.

Registered investment companies (Mutual funds): Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds:				
Domestic funds	$ 726,037	$ --	$ --	$ 726,037
International funds	396,899	--	--	396,899
Growth funds	842,786	--	--	842,786
Bond funds	578,922	--	--	578,922
Emerging markets funds	639,543	--	--	639,543
