NOTE A – DESCRIPTION OF PLAN

The following description of Cal-Tex Lumber Co., Inc. (Company or Sponsor) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering substantially all employees of the Company who have completed six months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Plan assets are held by Great-West Retirement Services under the direction of the Sponsor.

Contributions. Each year, participants may contribute up to 15 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Each year, the Company determines the amount of contributions it will make to the Plan. Contributions are allocated based on compensation. The Company did not make any contributions to the Plan during the year ended December 31, 2009. All contributions are invested in participant directed investments in registered investment companies. Contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings (losses), and (c) forfeitures of terminated participants' nonvested profit sharing accounts, and charged with an allocation of administrative expenses. Allocations are based on compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of credited service. A participant is 100 percent vested after six years of credited service for the profit sharing portion and three years of credited service for the regular matching portion.

Participant Loans. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts. Forfeited matching accounts are used at the Company's election to either to reduce Company matching contributions or as an additional Company match. Forfeitures related to profit sharing accounts are allocated to participants' accounts. In 2009, employer matching contributions were reduced by $-0- from forfeited nonvested accounts.

The amount of unallocated forfeitures at December 31, 2009, was $21,176.

Investment Options. Upon enrollment in the Plan, a participant may direct both their employee and employer contributions in various investment options. All of these options are invested in registered investment companies. Participants may change their investment options daily.

NOTE B – SUMMARY OF SIGNIFICANT ACOUNTING POLICIES

Date of management's review. Subsequent events were evaluated through September 21, 2010, which is the date the financial statements were available to be issued.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of benefits. Benefits are recorded when paid.

Operating expenses. All expenses of maintaining the Plan are paid by the Company.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2009			
Mutual funds	$ 5,036,690	$ 5,036,690	$ -
Participant loans	496,922	-	496,922
Total	$ 5,533,612	$ 5,036,690	$ 496,922
December 31, 2008			
Mutual funds	$ 4,227,800	$ 4,227,800	$ -
Participant loans	552,624	-	552,624
Total	$ 4,780,424	$ 4,227,800	$ 552,624

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 and Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

Participant loans are not actively traded and significant observable inputs were not available. Thus, the fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

	Participant Loans	Total
December 31, 2009		
Beginning balance	$ 552,624	$ 552,624
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-	-
Purchases, sales, issuances, and settlements (net)	(55,702)	(55,702)
Ending balance	$ 496,922	$ 496,922
December 31, 2008		
Beginning balance	$ 522,033	$ 522,033
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-	-
Purchases, sales, issuances, and settlements (net)	30,591	30,591
Ending balance	$ 552,624	$ 552,624

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value investments.

Shares of registered investment companies	$ 860,976

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

NOTE F – TAX STATUS

The Plan has established a retirement plan and trust under the Orchard Trust Company Defined Contribution Prototype Plan and Trust ("Orchard"). Orchard has received an opinion letter from the Internal Revenue Service stating that its prototype plan agreement is acceptable under section 401(a) of the Internal Revenue Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code and accordingly, is qualified and tax exempt as of the financial statement date.

NOTE G – ADMINISTRATION OF PLAN ASSETS

Certain administrative functions are performed by officers or employees of the Company. No officer, employee, or the Company receives compensation from the Plan.

NOTE H – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2009	2008
Investments, at fair value		
Shares of registered investment companies	$ 5,036,690	$ 4,227,800
Loans to participants	496,922	552,624
Investment income (loss)	860,976	(1,427,548)

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values

of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
