NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of First American Bank Corporation Profit Sharing Plan (the Plan) is provided for general information purposes only. The Plan was adopted January 1, 1985, and restated effective January 1, 2002. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a contributory defined contribution retirement plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The sponsor of the Plan is First American Bank Corporation (the Company).

Participating Employers - The participating employers in the Plan are First American Bank (the Bank) and HPL&S, Inc. The Bank pays a majority of expenses related to the Plan's administration.

Eligibility and Participation - Full-time employees are eligible to begin making elective deferrals beginning on the first day of the quarter after they have completed one month of service. Employees who do not decline participation upon eligibility are automatically enrolled in the Plan at a deferral rate of 2.5% of eligible compensation, as defined by the Plan. Full-time employees are eligible for employer match and profit sharing contributions after completing one year of employment, with 1,000 hours of service. Employees must be at least 21 years of age to participate in the Plan.

Contributions - Each year, participants may contribute a portion of eligible pre-tax and post-tax annual compensation, as defined by the Plan, not to exceed Internal Revenue Service limits. The Company will contribute a safe harbor matching contribution for each participant equal to 100% of each participant's elective deferrals up to 3% of the participant's compensation, plus 50% of each participant's elective deferrals in excess of 3% but not in excess of 5% of the participant's compensation. The Company may also contribute a discretionary profit sharing amount annually, which is determined by the Board of Directors. For the years ended December 31, 2013 and 2012, the Company elected to fund the employer matching contribution through the First American Bank Corporation Employee Stock Ownership Plan. The Company contributed $1,137,428 and $1,091,326 for the employer safe harbor matching contributions for the years ended December 31, 2013 and 2012, respectively.

Investments - Participants may direct contributions into various investment options offered by the Plan. Participants must evaluate their own investment goals and objectives. Poor investment performance by the investments selected by the participants may cause their vested balances to be lower than the amounts contributed to the Plan on their behalf.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts - Each participant's account is credited with the participant's contributions, allocations of any Company profit sharing and matching contributions, as well as allocations of investment earnings and administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Company profit sharing contributions are allocated in accordance with the permitted disparity regulations (Social Security integration).

Vesting - Participants are immediately vested in rollovers, trustee-to-trustee transfers, their elective deferrals and safe harbor matching contributions, plus actual earnings thereon. Vesting in their profit sharing account is based on years of credited service. A participant shall have no vested interest in his or her accrued benefit until completing two years of vesting service, at which point the account will vest ratably through six years of service, until 100% vested. A participant becomes 100% vested upon retirement, death or disability.

Payment of Benefits - Benefit payments may be made in lump-sum amounts, or annual or quarterly installments.

Forfeitures - Nonvested amounts forfeited by employees may be used as additional nonelective deferrals or matching contributions, to reduce nonelective deferrals or matching contributions or to reduce the Plan's administrative expenses. Forfeitures used in accordance with Plan provisions were $2,656 and $1,923 for the years ended December 31, 2013 and 2012, respectively. The balance in the forfeiture account was $216 and $524 at December 31, 2013 and 2012, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting - The financial statements have been prepared using the accrual basis of accounting.

Investments - The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell that asset (or paid to transfer a liability) in an orderly transaction between market participants at the measurement date (the exit price).

Purchases and sales of the investments are reflected on a trade-date basis.

Dividend income is recorded on the ex dividend date. Interest income is recorded on the accrual basis.

Payment of Benefits - Benefit payments to participants are recorded upon distribution. There were no participants who elected to withdraw from the Plan but were not yet paid at either December 31, 2013 or 2012.

Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Subsequent Events - Subsequent events have been evaluated through September 10, 2014, which is the date the financial statements were available to be issued.

NOTE 3. PLAN TERMINATION

Although it has not express any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4. TAX STATUS

Effective October 1, 2005, the Plan adopted a non-standardized form of a prototype plan. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believes that the Plan is qualified and related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan files Form 5500, *Annual Return/Report of Employee Benefit Plan*, which is subject to examination by the Internal Revenue Service until the applicable statute of limitations expires.

NOTE 6. FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* Topic of the FASB Accounting Standards Codification established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
Level 2	Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2013 and 2012. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan had no investments classified within Level 3.

NOTE 6. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 Measurements

The fair values of the mutual funds are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value as of the last business day of each period presented.

The money market fund represents shares in a mutual fund.

Level 2 Measurements

The fair values of the collective investment funds are based on the net asset value per share by reference to the underlying assets, which consist primarily of marketable equity and fixed income securities. There are no significant liquidity or withdrawal restrictions on these funds.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
