Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Fidelity Management Trust, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule, as listed in the accompanying table of contents, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter discribed in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1: DESCRIPTION OF PLAN

The following description of Wm. Bolthouse Farms, Inc. 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Wm. Bolthouse Farms, Inc. (the "Company"). The purpose of the Plan is to enable eligible employees to save for retirement. The Plan, under described circumstances, provides benefits upon retirement, disability, death or termination of employment. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees (other than those under the age of 18) of the Company may begin participating in the Plan immediately.

Contributions

Eligible employees may elect to contribute a percentage of their total eligible compensation to the Plan, subject to a maximum dollar limitation under Section 402(g)(1) of the Internal Revenue Code (IRC). An employee becomes eligible for discretionary nonelective Company contributions after one year of service during which the employee has at least 1,000 hours of service. The Company contributes one hundred percent of the first three percent of base compensation that a participant contributes to the Plan and fifty percent of the next two percent of base compensation that a participant contributes, subject to a maximum of four percent of employee's base compensation contributed to the Plan. In addition to Company matching contributions, the Company may elect to make discretionary profit sharing contributions in an amount to be determined by the Board of Directors of the Company at each Plan year-end. The Company did not make profit sharing contributions during 2013 or 2012. Participant contributions combined with Company contributions to the Plan on behalf of each participant may not, on an annual basis, exceed maximum limitation subject to cost-of-living adjustments under Section 415(d) of the IRC. These amounts together also may not exceed one hundred percent of annual compensation.

Participant Accounts

Each participant's account is credited with (a) participant contributions (b) Company matching contributions and (c) an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participant's direct the investment of their accounts. Changes to these investment elections are allowed at any time. The Plan provides for transfers from former or previously existing qualified plans for each participant.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in all employee pretax contributions, rollover contributions, safe harbor matching contributions and any earnings thereon. Discretionary nonelective employer contributions and earnings shall be vested in accordance with a six year vesting scheduling in twenty percent increments beginning in year two of participation.

Notes Receivable from Participants

Notes receivable from participants are comprised of loan amounts the participant has borrowed. Participants may borrow up to one-half of their vested account balance with a minimum loan amount of $1,000 and a maximum of $50,000. Loans outstanding are collateralized by the related balance in the participant's account and bear interest ranging from 5.25%-7.25%. Repayment of principal and interest is provided by uniform payroll deductions over a period of up to five years with the exception of a loan used to acquire a primary residence which may be repaid over a longer, reasonable period of time as determined by the Plan Administrator.

Payment of Benefits

Upon termination of service due to separation from the Company, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, direct rollover into an eligible account or a combination of the two options. Withdrawals are also permitted for financial hardship, which is determined pursuant to the provisions of the IRC. Benefits to participants are recorded when paid.

Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan in accordance with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. In the event of Plan termination, participants will become 100% vested in their accounts and the net assets of the Plan will be allocated among the participants and their beneficiaries, after payment of any expenses properly chargeable to the Plan, in accordance with the provisions of ERISA.

Administrative Expenses

The participants pay the majority of administrative expenses incurred by the Plan. Fees totaling $96,857 were paid by the Plan for the year ended December 31, 2013.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management Review

Subsequent events were evaluated through October 1, 2014, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Cash and Cash Equivalents

All short-term investments with an original maturity of less than three months are considered cash equivalents. Funds whose underlying assets consist of investments with original maturities of less than three months are considered cash equivalents and included in the value of the fund.

Contributions

Contributions from employees are recorded in the period in which payroll deductions are made. The discretionary Company contribution to the Plan is recorded as an addition to net assets in the fiscal year for which the Company's Board of Directors approves funding of the Plan.

Forfeited Accounts

Forfeitures are retained in the Plan and used to reduce future plan expenses. For the years ended December 31, 2013 and 2012, forfeited non-vested accounts totaled $7,405 and $7,745, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Options

Participant and Company contributions are invested, as designated by the participants, in one or any combination of the registered investment company mutual funds or Fidelity Stable Value Fund. See fund prospectuses for a complete description of the investment objectives and other information about the fund options.

Investments and Investment Income

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

Benefits Payable

As of December 31, 2013, there were no benefits payable to persons who have withdrawn from participation in the earnings and operations of the Plan.

NOTE 3: TAX STATUS OF THE PLAN

The Plan has adopted a prototype non-standardized profit sharing plan that has been determined to be acceptable under the IRC by a letter dated March 31, 2008. The Plan has been amended since receiving this opinion letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. As a result, no provision for federal or state income taxes is recorded in the accompanying financial statements. Participants are not expected to be subject to federal or state income taxes for contributions made by the participants or by the Company. Distributions from the Plan may be taxable to participants upon distribution. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 4: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2013				
Mutual funds	$ 28,769,780	$ 28,769,780	$ -	$ -
Stable value investment/ insurance contract	4,602,256	-	4,602,256	-
Total	$ 33,372,036	$ 28,769,780	$ 4,602,256	$ -
December 31, 2012				
Mutual funds	$ 21,351,148	$ 21,351,148	$ -	$ -
Stable value investment/ insurance contract	4,370,038	-	4,370,038	-
Total	$ 25,721,186	$ 21,351,148	$ 4,370,038	$ -

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted market prices.

Level 2 Fair Value Measurements

The fair values of certain investment contracts are based on observable inputs other than the quoted prices included in Level 1. Thus, the fair value of the investment contracts are based on yields for securities of comparable maturity, quality and type.

Level 3 Fair Value Measurements

No investments qualify for Level 3 measurement.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2013, are reported in net appreciation in fair value of investments.

NOTE 5: STABLE VALUE INVESTMENT/INSURANCE CONTRACTS

The Plan entered into a benefit-responsive investment contract for Fidelity's Common Collective Trust (Fidelity). The Fidelity Stable Value Fund invests in investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds to provide daily liquidity. Investment contracts are designed to permit the use of book value accounting to maintain a constant $1 unit price and to provide for the payment of participant-directed withdrawals and exchanges at book value during the term of the investment contracts. Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

NOTE 5: STABLE VALUE INVESTMENT/INSURANCE CONTRACTS (CONTINUED)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $4,602,256 and $4,370,038, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Fidelity. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsored events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2013	2012
Based on actual earnings	1.70%	1.69%
Based on interest rate credited to participants	0.92%	1.11%

NOTE 6: SUMMARY OF FINANCIAL DATA CERTIFIED BY THE RECORD KEEPER ON BEHALF OF THE TRUSTEES

The Plan Administrator had elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

NOTE 6: SUMMARY OF FINANCIAL DATA CERTIFIED BY THE RECORD KEEPER ON BEHALF OF THE TRUSTEES (CONTINUED)

The difference between the information summarized below and that included in the accompanying financial statements is attributable to accruals made for the purpose of conforming the financial information certified by the trustee to the accrual basis of accounting.

To the Benefit Committee of
Wm. Bolthouse Farms, Inc. 401(k) Profit Sharing Plan
Bakersfield, California

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of Wm. Bolthouse Farms, Inc. 401(k) Profit Sharing Plan as of and for the year ended December 31, 2013, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Our audit did not include all of the procedures required by U.S. generally accepted auditing standards and did not include a consideration of internal control relating to the information summarized in Note 6 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the Plan's internal control to be significant deficiencies:

Current Observations

Eligible Compensation

Observation
During our testing of the census prepared for discrimination testing, it was noted that eligible compensation was incorrectly calculated.

Recommendation
We recommend prior to forwarding reports to Fidelity a review between payroll and human resources be performed to ensure completeness of census data.

Prior Year Observations

Financial Statements

Observation
The plan sponsor outsourced the preparation of the financial statements and related footnotes of the Plan to Fisher, Keathley & Ross, LLP. This is considered a significant deficiency based upon generally accepted accounting principles.

Recommendation
The outsourcing of this service to accounting firms is common practice and no further work is deemed necessary.

Status
Fisher Keathley & Ross, LLP continue to prepare the financial statements.

Distribution Testing

Observation
We tested all the participants who took out hardship withdrawals for 2008,2009, and 2012 and many of the participants continued to make contributions to the plan six months following the withdrawal. Based upon Plan documents an individual must wait six months after a hardship withdrawal to resume contributions to the Plan.

Recommendation
We recommend that these participants receive a distribution for the amount contributed.

Status
We tested two hardship withdrawals in 2013 and all contributions were stopped for the required six months.

Observation

During our testing of distributions, we noted several individuals whose employment had terminated yet still contain a minimal balance at year end.

Recommendation

We recommend that the Human Resource Department review the listing of terminated participants and distribute the balances of less than $1,000.

Status

At year end approximately 38 individuals had remaining balances of less than $1,000 which is approximately 3% of the total participant accounts.

****

We have conducted a DOL limited-scope audit of the financial statements of Wm. Bolthouse Farms, Inc. 401 (k) Profit Sharing Plan for the year ended December 31, 2013 and have issued our report thereon dated October 1, 2014. As permitted by 29 CR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated April 25, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

You are responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Wm. Bolthouse Farms, Inc. 401(k) Profit Sharing Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2013. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on your knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit.

Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. You have corrected all such misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 1, 2014.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.
