FAROUK SYSTEMS, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of the Farouk Systems, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted by Farouk Systems, Inc. (the Company or the Employer) on April 1, 1997. The Plan is a defined contribution plan covering all employees of the Company who have been employed for three consecutive months and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan includes a savings feature designed to permit the employee and the Employer to contribute to the Plan, allowable under Section 401(k) of the Internal Revenue Code (IRC). The Employer is named as the Plan administrator in the Plan document.

Fidelity Management Trust Company (the Trustee) serves as the custodian and trustee of the Plan's investments assets and has provided certifications as to the completeness and accuracy of the information provided to the Plan sponsor. Accordingly, the Plan administrator has elected to instruct the auditors not to perform any auditing procedures with respect to the information prepared and certified by the Trustee, pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. This limited scope exemption applies only to the Plan's investment assets, notes receivable from participants and related income.

Contributions

Each year, a participant may contribute a portion of their compensation, in specified whole dollar amounts or percentages between 1 percent and 90 percent of their compensation, not to exceed the deferral limitation as specified in section 402(g) of the IRC. The deferral limitation is $17,500 for the year ended December 31, 2013. Participants may also contribute amounts representing rollover contributions from other qualified defined benefit or contribution plans.

The Company makes a safe harbor matching contribution equal to 100 percent of the employee's salary deferral that does not exceed 3 percent of the employee's compensation, plus 50 percent of the employee's salary deferral between 3 percent and 5 percent of the employee's compensation. The safe harbor matching contribution and all employee contributions are fully vested at all times.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Contributions – Continued

The Company may also elect to make a discretionary contribution on a profit sharing basis. The Company did not make a discretionary profit sharing contribution to the Plan during the year ended December 31, 2013.

The Economic Growth and Tax Relief Reconciliation Act of 2001 includes a "catch up" provision for employee benefit plans. This provision became effective as of January 1, 2002, and allows employees who are 50 years old or older and who contributed the maximum amount allowed by law to their account to contribute an additional $5,500 for the year ended December 31, 2013.

Participant Accounts

Upon enrollment in the Plan, a participant may direct the Trustee with regard to the investment of his or her account balances. The investment options available include mutual fund investments and a common/collective trust maintained by the Trustee. Participants may change their investment options at any time via telephone service or the Internet, once enrolled. Under the Plan, earnings and losses are allocated daily to the participants' accounts as prescribed in the Plan document.

Vesting

Participants are 100 percent vested at all times in employee and safe harbor matching contributions. A participant's interest in non-safe harbor contributions made by the Company begins vesting at 20 percent after two years of service, increasing 20 percent each year thereafter, with the participant being 100 percent vested after six years. The Company did not make any non-safe harbor contributions during 2013.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that approximate the market rate for similar loans as determined by the Plan administrator.

Participant loans must be payable within a period not exceeding five years from the date the participant received the loan, unless the loan is for the purchase of the participant's principal residence, in which case the loan must be payable within a reasonable time commensurate with the repayment period permitted by commercial lenders for similar loans. Loan repayments must be made through payroll withholding, except to the extent the Plan administrator determines payroll withholding is not practical, given the level of the participant's wages, the frequency with which the participant is paid, or other circumstances.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Payment of Benefits

Upon termination of services due to death, disability, retirement, or any other reason, a participant may elect to either receive a lump-sum distribution of the entire value of his or her vested account balance, or annual installments at the employee's election, equal to the value of the participant's vested interest in his or her account, as defined by the Plan. Payment of benefits may be made in installments to satisfy required minimum distribution amounts. In-service distributions of certain amounts, as defined, are permitted for employees age 59 ½ to 70 ½ or for participant rollover accounts. Upon withdrawal from the Plan or termination of employment, participants may be subject to federal income tax on contributions and income earned.

The Plan allows hardship withdrawals in accordance with IRC regulations. Among other conditions, the withdrawal must be necessary in light of immediate and heavy financial needs of the employee and is limited to certain purposes.

Forfeitures

Forfeitures may be used to reduce Employer contributions. For the year ended December 31, 2013, no amount of forfeitures was used to reduce Employer contributions and no amounts were forfeited by terminating participants. As of December 31, 2013 and 2012, a total of $7,600 and $5,800, respectively, is classified in a separate forfeiture account included in Plan assets and is available to be used to reduce future Employer contributions.

Administrative Expenses

All reasonable expenses related to the Plan administration will be paid from Plan assets, except to the extent the expenses are paid by the Company.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES – CONTINUED

Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract that is fully benefit-responsive through a common/collective trust fund. The Statement of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

All investments in the Plan are participant directed. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when paid. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recorded when earned. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Mutual funds	$ 511,843
Common/collective trust	1,575
	$ 513,418

NOTE 5. FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

NOTE 5. FAIR VALUE MEASUREMENTS – CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust: The Fidelity Stable Value Fund is valued by the issuer based on quoted market prices of the underlying investment. This fund is comprised of a guaranteed investment contract (GIC). The fair value of the GIC is based on the present value of future cash flows using the current discount rate. The fair value of the wrapper contract provided by an issuer is the present value of the difference between the current wrapper fee and the contracted wrapper fee. The Fidelity Stable Value Fund provides daily liquidity for participant-related withdrawals. Exchanges to another investment option offered in a plan are allowed on any business day. Direct exchanges from the Fidelity Stable Value Fund into a competing fixed-income option are not allowed. An exchange out of the Fidelity Stable Value Fund must remain invested in a noncompeting option, such as an equity fund, for at least 90 days before moving into the competing fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. FAIR VALUE MEASUREMENTS – CONTINUED

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

Total investments at fair value	$4,336,855	$ 84,795	$ -	$4,421,650

NOTE 6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in investment contracts that are fully benefit-responsive through its investment in Fidelity Advisor Stable Value Portfolio, a common/collective trust fund with Fidelity Management Trust Company (FMTC). FMTC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and charges or expenses. Participants may ordinarily direct the withdrawal or transfer of their investments at contract value, without incurring any charges or penalties.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for each month.

The average yields for the Stable Value Portfolio for 2013 and 2012 were as follows:

	2013	2012
Based on earnings	1.70%	1.69%
Based on interest rate credited to participants	0.92%	1.11%

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Company or other Plan sponsor events (for example, divestures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption. The Company does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The investment contract does not permit FMTC to terminate the agreement prior to the scheduled maturity date.

NOTE 7. INCOME TAX STATUS

The Employer has adopted and followed the terms of a volume submitter plan, as submitted to the Internal Revenue Service (IRS). The Employer has relied on the favorable opinion letter issued by the IRS on October 9, 2003 regarding the acceptability of the volume submitter plan under section 401 of the IRC as not subject to tax under present income tax laws. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements and accompanying supplemental schedule.

NOTE 10. PARTY-IN-INTEREST

The Plan engages in investment transactions with funds managed by the Trustee, a party-in-interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited transaction" provision of ERISA and the IRC. Fees paid by the Plan for investment management services to Fidelity Management Trust Company amounted to $19,804 for the year ended December 31, 2013.

NOTE 11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to Form 5500:

	2013	2012
Net assets available for benefits per financial statements	$ 5,457,845	$ 4,575,961
Less: Employer contributions receivable	(10,278)	(14,402)
Add: Adjustment from fair value to contract value for interest in the common/collective trust fund relating to a fully benefit-responsive investment contract	3,380	2,840
Net assets available for benefits per Form 5500	$ 5,450,947	$ 4,564,399

The following is a reconciliation of the net increase per the financial statements for the year ended December 31, 2013 to Form 5500:

Net increase per the financial statements	$ 881,884
Add: Employer contributions receivable at December 31, 2012	14,402
Less: Employer contributions receivable at December 31, 2013	(10,278)
Less: 2012 Adjustment from fair value to contract value for interest in the common/collective trust fund relating to a fully benefit-responsive investment contract	(2,840)
Add: 2013 Adjustment from fair value to contract value for interest in the common/collective trust fund relating to a fully benefit-responsive investment contract	3,380
Net increase per Form 5500	$ 886,548

NOTE 12. SUBSEQUENT EVENTS

Management evaluated all events or transactions that occurred after December 31, 2013 through October 2, 2014, the date the financial statements were available to be issued, and determined that no events have occurred subsequent to December 31, 2013 that warrant additional disclosure.
